* Data collection and reporting standards for this element have been inconsistent over this period, at times asking for "sex," for "gender," or simply "are you male or female?" In all instances, institutions were required by the US Dept. of Education to report individuals within the binary of male/female, even when individuals offered a nonbinary response.

Counts represent employees on payroll as of Nov. 1 who are active, on leave with pay, or paid on a suspense account; graduate assistants and student employees are excluded. Individuals are counted only once based on their primary role. General categories of employees included are faculty; university staff, including state and Research Foundation employees; University Hospital employees; Long Island Veterans Home employees; employees of the Faculty Student Association, and other employees such as special fund estimate (SFE) employees, employees associated with Stony Brook Child Care Services, and Stony Brook Foundation (SBF) employees. Counts include only individuals whose employment records are managed in PeopleSoft and in general do not include employees of affliliated east end hospitals or those whose employment is managed exclusively through CPMP-PEO. Assignments to West Campus and East Campus/HSC reflect organizational position and not job location. Consistent with reporting requirements from the National Center for Education Statistics, only employees classified as faculty, state employees on West Campus and state employees on East Campus/HSC are reported to the Integrated Postsecondary Education Data System (IPEDS); counts in this table will exceed those reported to IPEDS.
