I. Preface

On a visit to my home in 2006, Drs. Edward Shorter and David Healy, writing their book *Shock Therapy: A History of Electroconvulsive Treatment in Mental Illness* suggested that I place my files in the Special Collections at Stony Brook University. They were accepted in 2007 and I am very grateful to Kristen Nyitray, the university archivist, for her enthusiasm and personal interest in developing these archives.

Max Fink, M.D.
June 2017

II. Collection Overview

Title: Max Fink Papers

Collection Number: University Archives, Faculty and Staff Collections: 2140.

Creator: Fink, Max, 1923 -

Repository: Special Collections and University Archives, Stony Brook University Libraries

Date Coverage: c1880 to 2019

Extent: 250 linear feet (467 boxes; five map file drawers)

Languages: English, German, French, Greek, Spanish, Hungarian, and Russian.

Abstract: Max Fink, MD is a world leading expert and defender of electroconvulsive therapy (ECT). His studies of ECT began at Hillside Hospital in 1952 and he has published broadly on predictors of outcome in ECT, effects of seizures on (electroencephalogram) EEG and speech, hypotheses of the mode of action, and how to achieve an effective treatment. In 1979, he published what medical historian Edward Shorter and internationally recognized psychiatrist David Healy called the “definitive medical text on electroconvulsive shock.”

The Max Fink Papers include 250 linear feet (467 boxes) of materials dating from c1880 through 2019. Contents include: research files; manuscripts; published works; correspondence; grant reports; and visual materials relating to the research and study of convulsive therapy (electroshock), catatonia, melancholia; pharmaco-electroencephalography, and psychopharmacology.

III. Administrative Information

Preferred Citation

[Item description], Max Fink Papers, Series [], Box [], Folder [], Special Collections and University Archives, Stony Brook University Libraries.

Provenance

Gift of Max Fink to the Stony Brook Foundation; received in a series of accessions between 2006 and 2019.

Terms of Access

The bulk of the Max Fink Papers is open for research by appointment. Restricted material is denoted with an asterisk (*).

Rights and Permissions

Consent by Stony Brook University Libraries and the Stony Brook Foundation to access the papers does not address copyright issues that may affect publication rights. It is the sole responsibility of the user to investigate the copyright status of any given work and to seek and obtain permission where needed prior to distribution or publication.

Processing Information

The archival processing of the collection and cataloging was conducted between 2006 and 2017. Finding aid compiled by Kristen J. Nyitray, September 2017. Last update: April 4, 2019.

Accruals and Additive Material

Accruals are added to this collection.

IV. Chronology of Max Fink

1923: born January 16 in Vienna, Austria

1924: immigrated to the United States

1939-1942: studied at University College, University Heights Campus, New York University;
B.A. cum laude, with Honors in Biology

1939-1942: elected Phi Beta Kappa and Alpha Pi

1939-1942: received Christopher Coates Biology Prize

1939-1942: received Phi Lambda Upsilon Chemistry Prize, New York University

1942-1945: studied at New York University College of Medicine; M.D.

1945-1946: Morrisania City Hospital, Rotating Internship

1946: certified, Diplomate, National Board of Medical Examiners

1946: licensed, Practice of Medicine and Surgery, New York

1946-1947: Captain, U.S. Army Medical Corps

1946-1947: School of Military Neuropsychiatry, Fort Sam Houston; Chief, NP Clinical Service,
Fort Knox Station Hospital

1947-1948: ship surgeon, Grace Line

1948: ship surgeon: American Export Line

1948-1949: Montefiore Hospital, Residency in Neuropsychiatry

1948-1953: certificate in Psychoanalysis for Physicians from the William Alanson White
Institute of Psychoanalysis

1949: married Martha Gross (3 children)

1949-1951: Bellevue Psychiatric Hospital, Residencies in Neurology, Psychiatry

1952: board certified in Neurology: Diplomate, American Board of Psychiatry and Neurology

1952: resident, Psychiatry, Hillside Hospital

1952-1954: assistant in Neurology, New York University

1953: received certificate, Psychoanalysis for Physicians

1953: received certificate, William Alanson White Institute of Psychoanalysis

1953: Fellow in Neuropsychiatry, National Foundation for Infantile Paralysis, Mt. Sinai and
Hillside Hospitals

1954: board certified, Psychiatry; Diplomat, American Board of Psychiatry and Neurology

1954-1959: staff neurologist, Long Island Jewish Hospital

1954-1962: member, Nassau Neuropsychiatric Society

1954-1962: associate attending neurologist, North Shore Hospital

1954-1962: director, Department of Experimental Psychiatry, Hillside Hospital, Glen Oaks, NY

1956: Electroshock Research Association Award

1957-1958: secretary, American Psychiatric Association (APA)

1954-1958: opened private practice, Neurology and Psychiatry, 275 Middle Neck Road, Great
Neck, NY

1958: A. E. Bennett Psychiatric Research Award, Society of Biological Psychiatry

1959: appointed president, Nassau Neuropsychiatric Society

1962: appointed research professor of psychiatry, Washington University
1962: licensed, Practice of Medicine and Surgery, Missouri
1962-1965: consultant, Committee on Clinical Drug Evaluation, Psychopharmacology Service Center, NIMH
1962-1966: Division of Mental Diseases, State of Missouri
1962-1966: director, Missouri Institute of Psychiatry, St. Louis, MO
1962: elected chairman, American Psychiatric Association (APA) Section on Brain Function and Behavior
1962-1966: research professor of psychiatry, Washington University
1963-1966: professor of psychiatry, University of Missouri
1965-1973: attending psychiatrist, Metropolitan Hospital Medical Center
1966: appointed research professor of psychiatry at New York Medical College
1966-1973: professor of psychiatry, New York Medical College
1966-1973: director, Division of Biological Psychiatry, New York Medical College
1966-1973: attending psychiatrist, Flower and Fifth Avenue Hospitals
1966-1973: attending psychiatrist, Bird S. Coler Hospital
1968-1971: elected secretary, American Psychopathological Association
1968: visiting professor, University of Istanbul
1969: visiting professor, University of Istanbul
1969: visiting professor, National Institute of Neurology of Mexico
1969: honorary member, Societe Royale de Medecine Mentale de Belgique
1970-1973: consultant, Bureau of Drugs, Food and Drug Administration
1971-1972: elected vice president, American Psychopathological Association
1971-1973: consulting psychiatrist, Grasslands Hospital
1972-1974: consultant, VA-NIMH-SAODAP Collaborative Studies in Opiate Dependence
1972-1981: consulting psychiatrist, V.A. Hospital, Northport, NY
1972-1997: appointed Professor of Psychiatry and Neurology, Stony Brook University
1972-1973: president elect, American Psychopathological Association
1972-2000: contributing editor, *Comprehensive Psychiatry; Current Developments in Psychopharmacology; Directions in Psychopharmacology*
1973-1974: elected president, American Psychopathological Association
1973: Alpha Omega Alpha, New York University
1973: member, Suffolk County District Branch of the New York Academy of Medicine; American College of Neuropsychopharmacology (ACNP)
1974: Samuel W. Hamilton Award, American Psychopathological Association
1974-1979: consulting psychiatrist, Central Islip Psychiatric Center
1975-1978: contributing editor, *Psychopharmacologia*
1975-1978: member, American Psychiatric Association's task forces on ECT
1976: visiting professor, University of California at Irvine
1976-1983: director, Division of Clinical Sciences, Long Island Research Institute

1977-1980: consultant, V.A. Merit Review Board on the Behavioral Sciences
1977-1981: contributing editor, *Clinical Pharmacology & Therapeutics*
1978-1981: contributing editor, *Sleep & Wakefulness*
1979: author, *Convulsive Therapy: Theory and Practice*
1979: Anna Monika Foundation Prize for Contributions to the Study of Endogenous Depression
1980-1981: consultant, German BGA Commission on Pharmaco-EEG
1980-1982: consultant, NIMH Committee on Collaborative ECT Project
1980-1982: consultant, National Academy of Sciences-National Research Council
1980-1992: contributing editor, *Psychiatric Journal*, University of Ottawa
1980-1999: contributing editor, *Journal of Clinical Psychiatry*
1980-1997: attending psychiatrist, University Hospital, Stony Brook University
1981-1982: consultant, Committee on Toxicology-Anticholinergic Drugs Panel
1981-1984: Vice President, Fellowship Association for Convulsive Therapy International
Pharmaco-EEG (Group (IPEG))
1981-2005: attending psychiatrist, Department of Psychiatry, Long Island Jewish-Hillside
Medical Center
1983: Taylor Manor Hospital Psychiatric Award
1983-1997: contributing editor, *Neuropsychobiology*
1983-1997: associate editor, *Pharmaco-EEG*
1984-1994: founding editor, *Convulsive Therapy* (now titled *Journal of ECT*)
1986: Laszlo Meduna Prize of the Hungarian National Institute for Nervous and Mental Disease
1986: consultant, U.S. Army Workshop on the Feasibility of Using Incapacitating Agents
Against Terrorists
1986-1990: Fellowship Association for Convulsive Therapy International Pharmaco-EEG
(Group (IPEG))
1986-1990: Councillor, Fellowship Association for Convulsive Therapy International Pharmaco-
EEG (Group (IPEG))
1987-1990: member, American Psychiatric Association's task forces on ECT
1988: Gold Medal Award of the Society of Biological Psychiatry
1988: visiting professor, Organon Special Visiting Lectureship, Netherlands
1988-1990: consultant, American Psychiatric Association Task Force on Electroconvulsive
Therapy
1988-1990: member, Task Force on Electroconvulsive Therapy, 1988-1990
1988-2003: contributing editor, *Neuropsychiatry, Neuropsychology & Behavioral Neurology*
1992: "Teacher of the Year," Department of Psychiatry, Stony Brook University
1992: "Teacher of the Year," Department of Psychiatry, Stony Brook University
1995: Lifetime Achievement Award, *Psychiatric Times and CME, Inc.*
1995: chairman, Task Force on Ambulatory ECT, Association for Convulsive Therapy
1995: editorial board, *Journal of ECT*
1996: "Teacher of the Year," Department of Psychiatry, Stony Brook University

1996: member, Society of Biological Psychiatry
1996: Lifetime Achievement Award, Society of Biological Psychiatry
1997: moved to the Long Island Jewish Hillside Hospital to organize a government supported 4-hospital collaborative program examining continuation treatments in patients with major depression after successful ECT
1997-present: professor emeritus, Stony Brook University
1998: Arrigo Prize for Lifetime Achievement in Neurophysiology, University of Pavia
1998-2005: professor of psychiatry, Albert Einstein College of Medicine
1999: author, *Electroshock: Restoring the Mind*
2000: honorary fellow, Association for Convulsive Therapy International Pharmacology-EEG Group (IPEG)
2002-2005: chairman, Task Force on ECT
Collegium Internationale Neuro-Psychopharmacologicum (CINP)
Deutsche EEG Gesellschaft
International Brain Research Organization (IBRO)
International Society for Psychoneuroendocrinology
Instituto de Psiquiatria y Psicología de Montevideo
World Federation of Societies of Biological Psychiatry
2003: co-author, *Catatonia: A Clinician's Guide to Diagnosis and Treatment*
2004: co-author, *Ethics in Electroconvulsive Therapy*
2006: co-author, *Melancholia: The Diagnosis, Pathophysiology, and Treatment of Depressive Illness*
2006: honorary member, Associazione Italiana per la Terapia Elettroconvulsivante (AITEC)
2006: honorary member, European Forum for Electroconvulsive Therapy (EFFECT)
2008: honorary advisory board, Acta Psychiatrica Scandinavica
2010: co-author, *Endocrine Psychiatry*
2011: William Salmon Medal from the New York Academy of Medicine
2013: author, *Rediscovering Catatonia: The Biography of a Treatable Syndrome*
2017: Max Fink Papers opened for research at Stony Brook University
2018: co-author, *The Madness of Fear*
2019: Burlingame Award and Lecture, Institute for Living, CT

V. Biographical Note

Max Fink received his M.D. from New York University College of Medicine in 1945. He served as a medical officer in the U.S. Army (1946-1947) and is certified as a specialist in neurology (1952), psychoanalysis (1953), and psychiatry (1954). He was appointed Research Professor of Psychiatry at Washington University in 1962, and then at New York Medical College (1966 to 1972), and since 1972 at Stony Brook University. In 1997 he became Professor Emeritus. Between 1997 and 2005, he joined the faculty of the Long Island Jewish Hillside Hospital and the faculty at Albert Einstein College of Medicine.

His studies of ECT began at Hillside Hospital in 1952, and he has published broadly on predictors of outcome in electroconvulsive therapy (ECT), effects of seizures on electroencephalograms (EEGs) and speech, hypotheses of the mode of action, and how to achieve an effective treatment. The introduction of psychoactive drugs led to quantitative studies of drug effects on EEGs. With support from the National Institute of Mental Health (NIHM), digital computer analysis methods were developed. He was a principal participant in the Early Clinical Drug Evaluation Unit (ECDEU) program from 1959 to 1980.

Dr. Fink is a pioneer in the study of drugs of abuse. He began testing LSD in 1953. In the 1960s he turned his attention to opioids and marijuana. In psychopharmacology, he established a classification of psychoactive drugs by digital computer analysis of EEG and has contributed to the effects of narcotic antagonists and of cannabis. In the 1970s, he compared the effects of marijuana grown in Mississippi to hashish made in Greece. One outcome of his studies was the recognition that naloxone and cyclazocine could be used in the treatment of opioid overdose and dependence. His research eventually led him to establish a classification of psychoactive drugs by digital computer analysis of EEG and has contributed to the effects of narcotic antagonists and of cannabis. In more recent years, Dr. Fink's research has centered on psychopathology, the syndromes of catatonia and melancholia. By his own account, Dr. Fink refers to his large body of work as a clinical researcher as "an unusual record." He considers his career to span 65 years, beginning as a medical trainee when he demonstrated that penicillin, then an experimental drug, was more effective than sulfa for patients with empyema. His study was published in the 1948 edition of *Rubin's Diseases of the Chest*.

In 1984, he founded *Convulsive Therapy* (now the *Journal of ECT*), a quarterly scientific journal, published by Raven Press (renamed Journal of ECT). From 1975 to 1978, and again from 1987 to 1990, he was a member of the Task Forces on Electroconvulsive Therapy of the American Psychiatric Association. In 1995-1996, he chaired the Task Force on Ambulatory ECT of the Association for Convulsive Therapy. In 1994, with NIMH support he organized the CORE study program with Charles Kellner as Principal Investigator, which studied continuation therapies after ECT and compared the benefits and risks of different electrode placements. The group has published 17 reports establishing new standards for effective ECT.

He has received many prize awards for his research in ECT and in EEG, including including the Electroshock Research Award (1956), the A.E. Bennett award of the Society of Biological Psychiatry (1958), the Anna Monika Prize award for research into depressive illness (1979), the Laszlo Meduna Prize of the Hungarian National Institute for Nervous and Mental Disease (1986), the Gold Medal award of the Society of Biological Psychiatry (1988), and Lifetime Achievement Awards of the Psychiatric Times (1995), and the Thomas William Salmon Award in Psychiatry (2011).

Dr. Fink is the author of over 800 articles and several books. His publications include *Convulsive Therapy: Theory and Practice* (1979); *Electroshock: Restoring the Mind* (1999); *Ethics In Electroconvulsive Therapy* (2004), with Jan-Otto Ottosson; *Catatonia: A Clinician's Guide to Diagnosis and Treatment* (2003); *Melancholia: The Diagnosis, Pathophysiology and Treatment of Depressive Disorders* (2006) with Michael A. Taylor, *Endocrine Psychiatry* (2010) with the historian Edward Shorter, *Rediscovering Catatonia: The Biography of a Treatable Syndrome* (2013), and *The Madness of Fear* (2018) with the historian Edward Shorter.

Education and Certifications

New York University College of Medicine, M.D., 1945.

Residency training at Montefiore Hospital, 1946-1947; Bellevue Psychiatric Hospital, 1948-1951; Hillside Hospital (now Long Island Jewish Hillside Hospital), 1952; Mount Sinai Hospital (New York), 1953.

Certified in Neurology, American Board of Neurology and Psychiatry, 1952.

Certificate in Psychoanalysis, William Alanson White Institute of Psychiatry, 1953.

Certified in Psychiatry, American Board of Neurology and Psychiatry, 1954.

Academic Positions

Director, Division of Experimental Psychiatry, Hillside Hospital, 1954-1962.

Research Professor, Washington University, St. Louis, 1962-1966 (Director, Missouri Institute of Psychiatry).

Professor of Psychiatry, New York Medical College, 1966-1972.

Professor of Psychiatry and Neurology, SUNY at Stony Brook 1972-1997; Professor Emeritus, 1997- .

Professor of Psychiatry, Albert Einstein College of Medicine, 1998-2005.

Research Interests

Convulsive therapy (electroshock): mechanisms of action; ethics.

Catatonia.

Melancholia.

Pharmaco-electroencephalography.

Psychopharmacology.

VI. Scope and Content Note

The collection contains Max Fink's original research files, manuscripts, writings, and audio-visual items that document the full span of his life's work. It includes material about his education, early medical training, experimental research studies and data, scholarly writings, and professional activities.

He graduated from New York University, College of Medicine in June 1945 and spent the next seven years in military service and in training in neurology, psychiatry and psychoanalysis. Dr. Fink began his academic writing in 1950, as a resident at Bellevue Psychiatric Center in New York, and continues to contribute to the medical literature today. These writings are part of the collection.

Neurology

During his residency training, Dr. Fink was introduced to the research field of "simultaneous sensory stimulation," and published a dozen reports beginning in 1950, including sensory tests that are now part of the neurological examination of "soft signs." He was trained in percutaneous carotid angiography while at Montefiore Hospital in 1948-1949, and two publications of that experience are in the literature.

Electroencephalography

In a fellowship in 1953, Dr. Fink trained in EEG, established a laboratory at Hillside Hospital, and used the EEG to measure the changes induced by electroshock, insulin coma, and psychoactive drugs. In 1959, he was among the first to use an electronic frequency analyzer to describe the changes in EEG. His research team in St. Louis in 1963 developed a "Quantitative EEG" analysis (QEEG) using digital computer methods, laying the foundation for the science of pharmaco-electroencephalography. Unpublished digital programs are located in the collection. For two decades, Dr. Fink's publications were central to the developments in this field. A critical argument developed on the relationship between EEG studies of animals and man and their relevance for human psychopharmacology research. Pharmacologists argued that studies in man were too expensive and riskful and that animal trials in mice, rats, guinea pigs, cats and dogs offered information relevant to human trials. The collection contains published and unpublished essays of established and new psychoactive drugs, and the records of the society that was subsequently formed, the International Pharmaco-EEG Group (IPEG).

ECT (Electroconvulsive Therapy)

Original research articles in convulsive therapy appear in three periods. Studies at Hillside Hospital (1952-1962) sought to explain why electroconvulsive therapy (ECT) was effective and for whom. Electroencephalography (EEG) and cerebrospinal fluid (CSF) studies of patients during the course of ECT were supplemented by studies of predictors of outcome, social factors, language changes, and neuropsychological tests. A study of ECT and sham ECT found ECT

effective for physiologic changes, not a psychological placebo effect. Many of these studies are unique in the literature.

A second period (1966-1972) at the New York Medical College examined the technical effects of electrode placement and frequency of treatment (MMECT) on behavior and EEG. The EEG measures were based on innovative digital computerized processing and confirmed the importance of neurophysiologic changes as central to the behavioral change in ECT. These findings were re-affirmed in 1996 in the *Archives of General Psychiatry*. These ECT studies were part of a large program in examining the EEG effects of psychoactive drugs, and in assessing the pharmacology of opioids, opioid antagonists, and cannabis.

The third period (1973 to 1997) at Stony Brook focused on issues of monitoring seizures, defining effective treatments, broadening the indications for ECT use, enquiring on the interactions of drugs and ECT, continuation ECT, and optimizing clinical practice. Much effort has gone into examining the neuroendocrine correlates of the electroshock process.

Original research reports reflect numerous studies undertaken in perceptual neurology (the Face-Hand Test), quantitative pharmaco-electroencephalography in psychopharmacology, and clinical psychopharmacology. The clinical studies examined standard psychoactive drugs but were exemplary in their assessment of hallucinogens, anticholinergic compounds, opioids, opioid antagonists, and cannabis. The assessment of new drugs using methods of pharmaco-EEG represents an extensive body of work between 1957 and 1980. Detailed studies of opioids, opioid antagonists, and cannabis were reported between 1966 and 1980.

Beginning in 1990, retrospective and prospective studies of the incidence of catatonia, its treatment, and essays that led the DSM-IV committees to recognize catatonia as a syndrome separate from schizophrenia were new explorations of a derivative of the experience with ECT.

The efficacy of the inhalant anesthetic flurothyl (hexafluoro-diethyl ether) that produced seizures was compared to ECT in 1959-62, concluding that the efficacy of the two treatments were equivalent. Flurothyl was discarded. In 2013, the studies were re-evaluated concluding that flurothyl offered an efficient treatment with lesser effects on cognition. Reappraisal was recommended.

Theories of Convulsive Therapy

A central interest of the studies of ECT has been in understanding its mode of action. In the first period, emphasis was placed on the persistent neurophysiologic effects of seizures and their interaction with the defensive psychological processes of denial and displacement. An analysis of the effects of anticholinergic drugs on EEG and behavior as well as cerebrospinal fluid studies argued for a cholinergic mechanism in ECT.

Stimulated by this interest, an international conference in the *Psychobiology of Convulsive Therapy* was funded by the National Institute of Mental Health (NIMH) and held in 1972. The

conferees reviewed the three principal hypotheses of the action of ECT at the time: amnesia, brain neurohumoral mechanisms, and neurophysiologic change.

Dysfunction in neuroendocrine measures in the severe mentally ill, especially in those who were referred for ECT, and the reversal of these measures by ECT, led to the neuroendocrine hypothesis, which remains the central hypothesis today. Examination of the kindling hypothesis led to a report discrediting this effort.

A review of the effects of ECT in delusional disorders led to the appreciation that ECT is an effective anti-delusional agent. All prior theories focused on the antidepressant effects of ECT. In this effort, a broader view was taken, arguing that ECT is effective as antidepressant and antipsychotic (as well as anti-manic and anti-catatonic). The present hypothesis seeks to integrate these multiple effects.

ECT and Insulin Coma

Beginning in 1954, research studies of ECT were pointed to understanding the mode of action and in improving the actual clinical practice. The reports in the 1950s and early 1960s reflect the science. A random assignment study of patients referred for insulin coma (ICT) to either ICT or chlorpromazine, published in *The Journal of the American Medical Association (JAMA)* in 1958, showed that CPZ was as effective as ICT and was instrumental in ending the ICT era.

In examining the mechanism of ECT, Dr. Fink established a collaborative research team of psychiatrists (Donald Klein, Martin Green, John Kramer), psychologists (Robert L. Kahn, Max Pollack, Ira Belmont, Nathaniel Siegel) and technicians. The publications in the 1950s and 1960s reflect the collaboration of this rich team. The major research projects in ECT at Hillside are documented and published in the book *Convulsive Therapy: Theory and Practice* (1979).

Between 1962 and 1966, Dr. Fink established a collaboration in St. Louis and the principal studies (mostly psychopharmacology and pharmaco-EKG) were done with Turan Itil. In 1966, he returned to New York and re-established a new team focused on ECT, pharmaco-EKG, and drugs with abuse potential (opioids and cannabis).

Second Series of ECT Studies

From 1967 to 1973, Dr. Fink researched different electrode placements in NIMH-supported studies at New York Medical College. These studies established knowledge about electrode placement and multiple monitored ECT, EEG differences, and the EEG as a monitor of seizures.

ECT: Books and Reports

A volume of proceedings of the 1972 *Psychobiology of Convulsive Therapy* conference was published in 1974. The textbook (citation 69) was a well-accepted single authored text, translated into Japanese, and was awarded the Anna Monika Prize in 1980.

The reports of two task forces of the APA became established standards for US practice. The quarterly journal and the video for professionals were aimed at educating professional audiences. The video for patients provides a reliable standard of information for patients and their families considering a course of ECT. The task force report on Ambulatory ECT published in 1996 is the established standard for this therapy.

ECT: Reviews

Reviews of experience with ECT have been invited as part of texts, or as individual efforts designed to assess the experience. The invited special number of *Seminars in Psychiatry* was such a review, with the contributors mainly Dr. Fink's associates at New York Medical College. The Task Force reports and the textbook were significant reviews of experience.

Public questions in the 1970s, whether electroshock warranted continued use, led to invited reviews to evaluate the treatment's safety and efficacy. Reviews in the past decade evaluate other applications of the ECT process. These efforts lay the basis for the present application of ECT in mania, catatonia, delusional disorders, therapy-resistant depression, and schizophrenia. The same emphasis is seen in editorials and other writings.

ECT: Editorials

As the science of psychiatry unfolds, new ideas and experimental data can be brought to the attention of readers in “opinion pieces”. The journal *Convulsive Therapy* provided an opportunity to comment on progress in practice. Ideas that warranted a broader audience were presented in general psychiatric journal. Many were “invited” comments, to be published in association with an original article.

ECT: Letters

Letters provide a venue for opinion pieces. Cited letters authored by Dr. Fink were written to clarify the role of ECT, and usually appeared after the original article.

ECT: Book Reviews

Reviews of new books provide an opportunity to relate the author's work to progress in the profession. The journal *Convulsive Therapy* sought to review all books with reference to ECT.

Psychopharmacology

Beginning in 1953, clinical trials and EEG studies of new psychoactive drugs began at Hillside Hospital. Dr. Fink's team assayed new compounds for their clinical application and developed the pharmaco-EEG method to predict clinical activity, optimal dosing, and classification of drug. The publications are extensive, both as to their clinical trials, treatment efficacy, effects on psychological tests, language, and behavior. The studies include hallucinogens, deliriant, antipsychotic, antidepressants and anxiolytic agents.

The NIMH Psychopharmacology Service Center under Jonathan O. Cole established a clinical committee to oversee and develop an Early Clinical Drug Evaluation Program (ECDEU). Dr.

Fink was a member of that group and responsible for the application of EEG methods to classify and identify psychoactive compounds.

Important studies of the amobarbital test for denial, lactate infusion test for panic disorder, and identification of behaviorally active peptides are located in the files. The first recognition of the withdrawal effects for imipramine was also published.

A central controversy in psychopharmacology was whether animal trials were sufficient to predict the clinical profiles of psychoactive compounds. The controversy was highlighted by clinical evidence that imipramine acted as an anticholinergic compounds in man but not in animals. A conference was held in Washington in 1966 (proceedings published in 1969) that offered an opportunity to assess this argument. The findings were published in the book *Anticholinergic Drugs*, edited by Philip Bradley and Dr. Fink. The collection contains the submissions and meeting proceedings.

Psychopathology

In studying the indications for ECT, it became obvious that the designation that the principal indication for ECT was major depressive disorders was too broad and non-specific. In articles and the book *Catatonia: A Clinician's Guide to Diagnosis and Treatment* (Cambridge U Press, 2003) the specific indications of catatonia, malignant catatonia, neuroleptic malignant syndrome, delirious mania and toxic serotonin syndrome for ECT were detailed.

A second delineation for the specific mood disorder of melancholia was published in *Melancholia: The Diagnosis, PSychopathology and Treatment of Depressive Illness* (Cambridge U Press, 2006). Both syndromes were outlined in collaboration with Michael A. Taylor.

An additional delineation of melancholia was published as *Endocrine Psychiatry: Solving the Riddle of Melancholia* (Oxford University Press, 2010) with the historian Edward Shorter.

VII. Arrangement: Series Outline and Descriptions

SERIES 1: BIOGRAPHICAL FILES [16 boxes; 15 linear ft.]

This series includes files that document the education and career of Dr. Max Fink. Material includes: curriculum vitae; interviews; diplomas and certifications; letters of appointments; correspondence; awards; and military papers.

- **Sub-series 1: Curriculum Vitae [box 1]**
- **Sub-series 2: Education, Degrees, and Certifications [boxes 1-4]**
- **Sub-series 3: Academic and Research Awards [boxes 5-12]**
- **Sub-series 4: Professional Appointments [box 13]**
- **Sub-series 5: Interviews and Biographical Files [boxes 13-14]**
- **Sub-series 6: Military Service [box 14a]**
- **Sub-series 7: Day Planners and Calendars [boxes 15-16]**

SERIES 2: PUBLISHED WORKS [72 boxes; 30 linear ft.]

Drafts, manuscripts, notes, correspondence, and production files for Dr. Fink's published research and scholarship are represented in this series. The numbers preceding each entry are consistent with the numbering convention used by Dr. Fink on his curriculum vitae.

- **Sub-series 1: Articles and Reviews [boxes 1-53]**
- **Sub-series 2: Books [boxes 54-72]**
 - *Convulsive Therapy: Theory and Practice*. New York: Raven Press, 1979.
 - *Electroshock: Restoring the Mind*. New York: Oxford University Press, 1999.
 - *Ethics in Electroconvulsive Therapy*. New York: Brunner-Routledge, 2004 (with Jan-Otto Ottosson).
 - *Catatonia: A Clinician's Guide to Diagnosis and Treatment*. Cambridge University Press, 2006 (with Michael Alan Taylor).
 - *Melancholia: The Diagnosis, Pathophysiology, and Treatment of Depressive Illness*. Cambridge: Cambridge University Press, 2006 (with Michael Alan Taylor).
 - *Electroconvulsive Therapy: A Guide for Professionals and Their Patients*. Oxford: Oxford University Press, 2009.
 - *Endocrine Psychiatry: Solving the Riddle of Melancholia*. Oxford: Oxford University Press, 2010 (with Edward Shorter).
 - "Rediscovering Catatonia: The Biography of a Treatable Syndrome." *Acta Psychiatrica Scandinavica* 127 (Suppl. 441): 1-47, 2013.
 - *The Madness of Fear*. Oxford: Oxford University Press, 2018 (with Edward Shorter).

SERIES 3: RESEARCH FILES AND UNPUBLISHED WORKS [118 boxes; 61 linear ft.]

Records of research studies that were conducted during Dr. Fink's tenure at Hillside Hospital (1954-1962), Missouri Institute of Psychiatry (1962-1966), New York Medical College (1966-1973), and Stony Brook University (1972-1997) and unpublished manuscripts comprise this series.

Files also include writings, grant applications, correspondence, research notes, and materials produced and collected after his retirement. Certain files were maintained separately, e.g., subject files pertaining to electroconvulsive therapy (American Psychiatric Association Task Force on ECT; CORE reports: Consortium for Research in ECT), narcotics and cannabis, and insulin coma; those sections follow the chronological files.

Grant support: applications and the records of the work done from 1954 at Hillside Hospital through Dr. Fink's career to Stony Brook are also located in this series. From 1967 to the end of the 1990s, much grant support for EEG, cannabis, and ECT research was funneled through the International Association for Psychiatric Research, a non-profit agency that supported these studies.

- **Sub-series 1: Hillside Hospital, Glen Oaks, NY, 1954-1962 [boxes 1-8]**
- **Sub-series 2: Missouri Institute of Psychiatry, St. Louis, MO, 1962-1966 [boxes 9-14]**
- **Sub-series 3: New York Medical College, 1966-1973 [boxes 14-24]**
- **Sub-series 4: Stony Brook University, 1972-1997 [boxes 24-59]**
- **Sub-series 5: Post-Retirement, 1998-present [boxes 59-60; box 61, undated items]**
- **Sub-series 6: Subject Files on Electroconvulsive Therapy (ECT) [boxes 62-86]**

- **American Psychiatric Association (APA) Task Force on Electroconvulsive Therapy**

Between 1975 and 1978 and again from 1989 to 1990, Dr. Fink was a member of the American Psychiatric Association Task Forces on ECT. The two APA Task Force reports were the products of that collaboration. The records of those deliberations and the two publications are available in this sub-series. **[boxes 62-64]**

- **Consortium on Research in ECT (CORE)**

In 1996, Dr. Fink received a large NIMH grant for research in ECT, seeking to determine how best to maintain the benefits of ECT in depressed patients. Five hospitals collaborated and the published report files are located in this series, along with the grant applications, program details, and early reports.

Dr. Fink was the Principal Investigator for the SUNY at Stony Brook site (transferred in 1997 to Hillside Hospital). Since the protocol in patient selection and outcome evaluation followed a concurrent Columbia University grant program that used different methods for ECT, the research team compared the results to show that the methods we selected elicited more effective treatment. This comparison was published in JAMA in 2007. **[boxes 65-68]**

- **Education**

Much effort has gone into educating students in the practice of ECT and the public in its applications, safety, and efficacy. These efforts have been carried out in Grand Rounds at numerous medical centers, at local, national, and international professional and lay meetings, editorials, letters, and articles in *The Psychiatric Times*. It was the main force in founding the quarterly journal *Convulsive Therapy*

in 1985, in preparing videotapes in 1986, teaching CME courses, and in developing ECT course outlines for the ACNP and ASCP syllabi for teaching psychopharmacology. [boxes 69-72]

- **Devices**
Subject files and correspondence with manufacturers, including Thymatron, MECTA, and Somatics, Inc. [boxes 73-74]
- **Legislation**
Documentation of ECT device safety and performance standards; Food and Drug Administration (FDA) reports; reclassification files; and legislation records. [boxes 75-76]
- **Viewpoints**
Newspaper and magazines articles; literature produced by the Church of Scientology and the Group for the Advancement of Psychiatry. [box 77]
- **Press Clips (1982-2010) [box 78]**
- **Electroshock.org (website)**
Includes records related to the founding of the website: www.electroshock.org. [box 79]
- **Audio**
Radio interviews with Dr. Fink are located within this series. [box 80]
- ***Shock Therapy: A History of Electroconvulsive Treatment in Mental Illness.***
Files on the book co-authored Edward Shorter and David Healy book (New Brunswick, N.J.: Rutgers University Press, 2007). [boxes 81-83]
- **Newsletters [box 84]**
- **Correspondence [boxes 85-86]**
- **Sub-series 7: Catatonia and Melancholia [boxes 87-97]**
One topic of contention in the 1980s at APA meetings was whether neuroleptic malignant syndrome (NMS) is a form of malignant catatonia (MC) or malignant hyperthermia (MH). The debates laid the groundwork for the present image that NMS is a form of MC and established catatonia as a unique entity outside schizophrenia. During the past two decades, Dr. Fink's research interest shifted to the topics of catatonia and melancholia. *Catatonia: A Clinician's Guide to Diagnosis and Treatment* and *Melancholia: The Diagnosis, Pathophysiology and Treatment of Depressive Disorders* were published by Cambridge University Press and are written with Michael A. Taylor. These behavior syndromes were shown to be identifiable, verifiable, and treatable. In publishing two books with Michael Taylor in 2003 and 2006, the two developed support for the "medical model of diagnostic" as relevant to the ongoing debates in rewriting the American

Psychiatric Association Diagnostic & Statistical Manual for psychiatric states. Many files relate to the review of catatonia published in 2009 and to the submissions to the APA work groups responsible for reviews of catatonia and melancholia.

- **Sub-series 8: Narcotics and Cannabis [boxes 98-109]**

In 1966, Dr. Fink returned to New York after four years in St. Louis, establishing the Missouri Institute of Psychiatry as its first director. In New York, he was offered a position to develop a research program into opioids, opioids antagonists, cannabis, and hashish. The clinical and research efforts included clinical and EEG studies of diacetylmorphine (Heroin), naloxone (Narcan, methadone, levomethadyl, cyclazocine, tetrahydrocannabinol-delta-9, and other compounds. The research protocols records and publications are included in this series.

- **Sub-series 9: Insulin Coma [box 110]**

Dr. Fink supervised a Harvard history student, who examined the history of insulin coma therapy (ICT). Dr. Fink was prompted to look into an explanation of how ICT may have benefited patients. His essay in the Harvard Review of Psychiatry (2003) and classic articles on insulin coma are represented in this section. Dr. Fink was a consultant to the film A Beautiful Mind, the story of the psychiatric illness of the Nobelist John Nash (he was one of the last patients treated with ICT).

- **Sub-series 10: Ladislav Joseph von Meduna [boxes 111-113a]**

Interest in the mechanism of action of ECT led to Dr. Fink authoring essays on the history of its development and the biography of its originator, Ladislav Meduna.

- **Sub-series 11: International Association for Psychiatric Research (IAPR) and Scion Natural Science Association [boxes 114-116]**

The IAPR was incorporated in 1967, on the model of the Psychiatric Research Foundation of Missouri. A non-profit membership corporation, it was established to support research efforts in the work of Dr. Fink first at New York Medical College (1966-1973) and then at the State University of New York at Stony Brook. Both institutions recognized the service that IAPR performed in financially supporting the studies and in providing an independent monitoring board for ethics of research in human subjects. The association is a non-profit educational institution under-section 501(c)(3) of the Internal Revenue Code.

The association quickly applied for grants and contracts from the U.S. Department of HEW and established overhead rates for such projects. The first grants were in support of the pharmaco- EEG studies of Drs. Fink and Turan Itil. An IBM 1800 computer was purchased and until the project ended in 1975, the NIMH supported pharmaco-EEG studies at New York Medical College and Stony Brook University. This work was also supported by industry grants-in-aid. A 1979 contract supported studies comparing the effects of Greek hashish and U.S. grown cannabis (marijuana) in Greek and New York users. By the mid-1980s, Stony Brook University ended the arrangements of grants in support of research through independent foundations. At this point, the IAPR transferred its assets to Scion Natural Science Association, a new Section 501(c)(3) foundation, now

dedicated to support scientific research at college and post-college levels in the natural sciences.

SERIES 4: PROFESSIONAL ACTIVITIES [60 boxes; 25 linear ft.]

This series contains documentation of Dr. Fink's memberships in professional associations and includes a sampling of the papers that he presented at the meeting, beginning in the mid-1950s. The files are arranged alphabetically by organization.

SERIES 5: CORRESPONDENCE [33 boxes; 14 linear ft.]

Dr. Fink filed a segment of his correspondence by correspondent and another in chronological order. The original filing system was maintained. To assist researchers, the chronological files have been inventoried and can be searched by correspondent.

SERIES 6: CONVULSIVE THERAPY (journal) [50 boxes; 21 linear ft.]

In 1984, Dr. Fink was plenary speaker on ECT at the CINP meetings in Florence, Italy. After that meeting, he was invited to edit a journal (*Convulsive Therapy*, founded in 1985, now titled *The Journal of ECT*). He edited the journal for nine years. The full records of that history are in the collection. He served as editor from 1985 to 1994 and currently serves on the editorial board. *The journal* covers all aspects of contemporary electroconvulsive therapy, reporting on major clinical and research developments worldwide. Leading clinicians and researchers examine the effects of induced seizures on behavior and on organ systems; review important research results on the mode of induction, occurrence, and propagation of seizures; and explore the difficult sociological, ethical, and legal issues concerning the use of ECT. The title was changed to *The Journal of ECT* in 1997. *Access note: peer reviews are restricted for 50 years (2064).*

- **Sub-series 1: Manuscripts and Correspondence [boxes 1-41]**
- **Sub-series 2: Production Files [boxes 42-50]**

SERIES 7: MEDICAL LITERATURE FILES [89 boxes; 37 linear ft.]

Dr. Fink collected and curated an extensive and expansive library of literature on the history of psychiatry. The files include reprints, preprints, and photocopies of articles. According to Dr. Fink, keeping track of the reprints needed for writing scientific articles was difficult. One method was to number the records, enter the citation on cards (McBee) that had punched holes around the four sides. The holes were punched according to the topics. Using a metal rod, the cards that had been punched would fall through. Two passes and one had "EGG" and "chlorpromazine," for example. With the digital computer, his associates and librarian developed a digital program that allowed a search for the reprints by subject or author. These programs, although primitive, worked well for my laboratory. These were replaced by NIMH introduction of Medline (now PubMed), making it unnecessary for individual laboratories to maintain reference listing methods).

- **Sub-series 1: Files by Accession Number [boxes 1-41]**
- **Sub-series 2: Files Maintained by Subject [boxes 42-75]**
- **Sub-series 3: Shelf List Cards [boxes 76-89]**

SERIES 8: VISUAL MATERIALS [28 boxes; 5 map file drawers; 40 linear ft.]

This series includes films and videos, ranging from educational movies to feature length films and news segments, and classic recordings of catatonia dating from the 1930s to 1960s. In 1986, Dr. Fink developed an ECT videotape for patients and their families, explaining what ECT is, what is to be expected, explaining the risks and benefits. The cinematographer was Rick D'Alli, who went on to medical school and is now a child psychiatrist at Duke University. The work was supported by Somatics Inc. The DVD, titled, "Electroshock Therapy," is still distributed today.

In 1990, the BBC and PBS partnered on the television series *MADNESS*, produced by Jonathan Miller. For the sections on ECT, video records of Dr. Fink's patients before and after treatment are part of the third hour. The original videotapes and the edits are in the collection. Dr. Fink's discussion of ECT mechanism is part of the presentation.

Graphical material includes diagrams and charts used in presentations.

- **Sub-series 1: DVDs, VHS Videocassettes, U-matic Videocassettes, and 16mm Films [boxes 1-14]**
- **Sub-series 2: Photographs, Negatives, Slides, Transparencies, and Illustrations [boxes 15-28]**
- **Sub-series 3: Graphics [5 map file drawers]**

VIII. Box and Folder Inventory

SERIES 1: BIOGRAPHICAL MATERIAL [16 boxes; 15 linear ft.]

Box 1

- curriculum vitae of Dr. Max Fink, M.D. (March 2019)

SERIES 1: BIOGRAPHICAL MATERIAL

Sub-series 2: Education, Degrees, and Certifications [boxes 1-4]

Box 1 (continued)

- P.S. 77 and James Monroe High School, Bronx, NY
 - honor certificates from P.S. 77, 1932-1934 (5 items)
 - essay and report: Louis Pasteur, 1 December 1936
 - essay: "Shakespeare's Greatest Tragedies"
 - athletic award: varsity football, 1938
 - news article and essay: "Steel and Strike," circa 1938
 - football dinner, 1939
 - calendar with handwritten notes, circa 1938-1939
 - transcripts: James Monroe High School, 1935-1939
- New York University: documents
 - recommendation list for college
 - class schedule
 - college entrance diploma: James Monroe High School, 1939
 - article: "School Principal Here Receives Bolivar Medal," *The New York Times*, 1953; letter from Henry E. Hein, principal, to Max Fink, 1953
 - application: College of Medicine
 - interview schedule: College of Medicine
 - "New York University Songs"
 - handwritten note documenting school activities

- transcripts
- certificate: Beta Lambda Sigma, 20 March 1941
- correspondence
- newspaper article: “*Alpha Pi Elects New Members*,” 17 October 1940
- newspaper article: “*Junior Paper out Friday*,” 17 February 1941
- newspaper article: “*Biology Group Chooses 26*,” circa 1941

 - One Hundred and Tenth Commencement program, 10 June 1942
 - *New York University Bulletin* (13 April 1945, volume XVI number 25): One Hundred and Thirteenth Commencement
 - One Hundred and Thirteenth Commencement program, 13 June 1945
- New York University, College of Medicine, *Medical Bulletin*
 - November 1942, volume VIII, number 1
 - March 1943, volume VIII, number 4
- New York University, School of Medicine: class of 1945*
- William Alanson White Institute, 1949-1953
- continuing medical education: documentation (2f)
- newsletters
- business cards

Box 2

- diplomas and certificates
 - diploma and awards: James Monroe High School, 1939
 - diploma: New York University, College of Arts and Sciences, Bachelor of Arts, cum laude, with honors in Biology, June 1942
 - diploma: New York University, College of Medicine, Doctor of Medicine, June 1945
 - license: to practice medicine and surgery, University of the State of New York, 1 July 1947
 - The American Board of Psychiatry and Neurology, Psychiatry, December 1952
 - The William Alanson White Institute of Psychiatry, Psychoanalysis and Psychology, 24 January 1953
 - Army of the United States, Grade of Captain, 22 January 1953
 - The American Board of Psychiatry and Neurology, Psychiatry, May 1954
 - State Department of New York, Department of Mental Hygiene, Board of Psychiatric Examiners, 30 June 1954
 - The New York Academy of Sciences, 27 March 1958

Box 3

- controlled substance certificates (4f)
- CINP (Collegium Internationale Neuro-Psychopharmacologicum) membership: disk labeled CINP International Photo Archives in Neuropsychopharmacology, 2000; certificate of Membership Collegium Internationale Neuro-Psychopharmacologicum

Box 4

- certificate: City of New York Department of Hospitals (Morrisania City Hospital), to certify Maximilian Fink, M.D. served as intern at this hospital, 1 July 1945-1 April 1946
- certificate: Diplomate of the National Board of Medical Examiners, issued by the National Board of Medical Examiners of the United States of America, to Maximilian Fink for having satisfied the requirements and having successfully passed the examinations, 1 May 1946
- certificate: County Clerk's Office, County of Bronx, to certify that on 26 September 1947 Maximilian Fink, having first subscribed and verified an affidavit in the form of Section 1260 of the Education Law, and acts amendatory thereof, made an entry in the register of physicians and surgeons kept in the office of the Clerk of Bronx County
- M.D. license: University of the State of New York, Education Department, issued to Maximilian Fink M.D., 1 July 1947 (photocopy)
- certificate: Montefiore Hospital for Chronic Diseases, New York to certify that Max Fink, M.D. has served on the House Staff of this hospital from July 1948 to July 1949 in the capacity of Assistant Resident, Division of Neuropsychiatry
- certificate: State of New York Department of Mental Hygiene, to certify that Max Fink, M.D., having presented to the Board of Psychiatric Examiners evidence of his education, experience and other qualifications showing that he fulfills the requirements for qualified psychiatrist as set forth in Chapter 536 of the Laws of 1954, is a qualified psychiatrist in accordance with the provisions of the statute, 30 September 1952
- certificate: Workmen's Compensation Board to certify that Max Fink M.D. is authorized to render medical care to injured employees under the Workmen's Compensation Law in accordance with the provisions of Chapters 258 and 930 of the Laws of 1935, 14 July 1953
- certificate: New York State Education Department Registered Physician, 1953-1954
- certificate: Hillside Hospital to certify that Maximilian Fink, M.D. has satisfactorily and with proficiency served the hospital as a Resident in Psychiatry from 1 January 1952-1 January 1953
- certificate: New York Neurological Society certifies that Dr. Maximilian Fink was duly elected to active membership in the New York Neurological Society, 11 May 1954
- certificate: American Psychiatric Association, "Be it known to all men by these presents that on the recommendation of the Board of Examiners and the approval of the Council this Association has elected Maximilian Fink, M.D. to be a fellow," May 1957
- certificate: The American Electroencephalographic Society to affirm that Max Fink, M.D. is a duly elected full member by the action of the society annual meeting, 1960
- certificate: International Federation of Societies for Electroencephalography and Clinical Neurophysiology, 28 August 1961-2 September 1961

- certificate: State Board of Registration for the Healing Arts of Missouri: “By Authority of Law Hereby Licenses Maximilian Fink, M.D., Graduate of NYU College of Medicine, to Practice as Physician and Surgeon,” 8 September 1962
- two M.D. licenses: Missouri State Board Registration for Healing Arts, 8 September 1962;
New York State Education Department Physician’s License, 31 December 1962
- certificate: New York State Education Department Physician’s License certificate, 1 January 1963
- certificate: University of the State of New York, Education Department, Physician’s License, 1 January 1965
- certificate: Regents of the American College of Clinical Pharmacology and Chemotherapy to certify that Max Fink, in recognition of professional and scientific attainments is elected Fellow of the College, 29 October 1966
- certificate: Drug Information Association, to certify that Maximilian Fink, M.D. was elected an Active Member of the Drug Information Association in testimony whereof the President and the Executive Officer have hereunto set their hands and seal of the association, 19 December 1966
- certificate: New York Academy of Medicine to certify that at a stated meeting of the academy, Max Fink, M.D. was duly elected a Fellow of the Academy, 5 January 1967
- certificate: American Psychopathological Association to certify that Max Fink, M.D. is a member, 16 February 1967
- certificate: Alpha Omega Alpha Medical Society to certify that Max Fink, an alumnus member, has been elected to membership at New York University, 1973
- certificate: State of New York, Department of Mental Hygiene, to certify that Max Fink, M.D. having presented evidence of education, training, experience, and other qualifications showing fulfillment of the requirements set forth in Section 13.25 of the Mental Hygiene Law, is a Qualified Psychiatrist in accordance with the provisions of the statute, 19 March 1975
- certificate: Anna Monika Stiftung Award, 30 August 1979
- certificate: Department of Medicine and Surgery, Medical Research Service to Max Fink, M.D. in grateful appreciation of exceptional service to the Veterans Administration as a member of the Merit Review Board, Behavioral Sciences, 10 April 1980
- member, Deutsche EEG-Gesellschaft. 10 January 10 1981
- certificate: Life Fellow, American Psychiatric Society, 1 January 1981
- certificate: The American Electroencephalographic Society to affirm that Max Fink, M.D. is a duly elected Fellow by the action of the society annual meeting, 1982
- certificate: University of the State of New York, Qualifications for Practice in New York State, having been approved Max Fink to practice as physician, 31 December 1992
- certificate: University of the State of New York, Qualifications for Practice in New York State, having been approved Max Fink to practice as physician, 31 December 1994
- certificate: Teacher of the Year, Max Fink, M.D. by the Department of Psychiatry and Behavioral Science, University Medical Center, State University of New York at Stony Brook, 15 June 1996
- certificate: of appreciation, State University of New York to Dr. Max Fink for Dedicated Service to the Committee on Admissions, School of Medicine, May 2005

- plaque: in appreciation for his continuing contributions as educator, researcher, and pioneer in the field of electroconvulsive therapy and for your contributions as founder of The Association for Convulsive Therapy, 18 May 1997
- plaque: The Taylor Manor Hospital Psychiatric Award presented to Max Fink, M.D., F.A.P.A. in Recognition of his Contributions to Biological Psychiatry and as a Tribute to the Genius of Scientists Dedicated to Easing Emotional and Psychiatric Suffering and to Restoring Mental Health,” 8 April 1983
- certificate: American Psychiatric Association, 50 Years of Service, 2001
- certificate: of appreciation, Greater Long Island Psychiatric Society, 2002
- certificate: The New York University - Bellevue Psychiatric Society, undated

SERIES 1: BIOGRAPHICAL MATERIAL

Sub-series 3: Academic and Research Awards [boxes 5-12]

Box 5

- award: Max Fink, Founding Editor, *Convulsive Therapy*, by the Department of Biological Psychiatry, New York State Psychiatric Institute, 3 July 1994

Box 6

- medallion: in honor of the pioneer research in the field of biological psychiatry by the Society of Biological Psychiatry, International Research, 1988
- medallion: V. Congreso Mundial De Psiquiatria, Ciudad De Mexico, 1971
- award medal: Samuel W. Hamilton, American Psychopathological Association
- medallion: WFSBP in recognition of 30 years of Excellence in Biological Psychiatry (1974-2004)
- medallion: The American Psychiatric Association, undated
- award: Congreso Internaciona Psiouiatría in Madrid, 1966
- medal: V Congresso Internazionale Di Elettroencefalografia E Neurofisiologia Clinica Roma, September 1961
- award medal: Meduna Laszlo, Meduna Award Medal, 1896-1964, presented by The National Institute for Nervous and Mental Diseases Budapest, 1986
- pins (3): “Stony Brook” (gold); University Hospital, Stony Brook 10th anniversary (1980-1990); and University Hospital, Stony Brook 15th anniversary (1980-1995)

Box 7

- award: The Society of Biological Psychiatry, A.E.Bennett Neuropsychiatric Research Foundation Award for Original Investigation, presented to Max Fink M.D. for the research paper “Effect of an Anticholinergic Agent, Diethazine, on EEG and Behavior: Significance for Theory of Convulsive Therapy,” Society at San Francisco, California, 11 May 1958

- award: Staff of Missouri Institute of Psychiatry in Appreciation to its Founder and First Director, Dr. Max Fink

Box 8

- plaque: for inspiring the Class of 1992, Psychiatry Residents, State University of New York at Stony Brook
- plaque: Nassau District Branch of the American Psychiatric Association for Outstanding Achievements during his term as President of the Society from 1959-1960
- New York University, School of Medicine, Fiftieth Anniversary Certificate, 8 April 1995

Box 9

- appreciation for his work and devotion as Executive Director of the Psychiatric Research Foundation of Missouri (1962-1966)
- “Lifetime Achievement Award to Max Fink,” The Society of Biological Psychiatry

Box 10

- lifetime achievement award presented from *Psychiatric Times* to Max Fink, M.D., for his key role in helping to create the field of modern electroconvulsive therapy, 18 November 1995

Box 11

- clock: “Teacher of the Year,” from psychiatry residents, 21 June 1993

Box 12

- medal: The American Psychiatric Association, undated
- Fellow, The Academy of Psychosomatic Medicine, 1969
- Honorary Member, Societe Royale de Medecine Mentale de Belgique, 1969
- Outstanding Program Achievement, New York Area Television Academy Awards, 1969-1970
- Gold Medal Award, The Society of Biological Society, 1988
- Hans Dietrich Award Genscher Award, 23 June 1994
- Premio “Antonio Arrigo” Centro Di Neurofisiologia Clinica Universita Degli Di Studi Pavia, 1998 (separation note: oversized; filed with Series 8: Visual Materials, Sub-series 3: Graphics)
- Honorary Fellow, International Pharmaco-EEG Society (IPEG), 2000
- Distinguished Life Fellow, American Psychiatric Association, 2003
- Honorary Advisory Board, Acta Psychiatrica Scandinavica, 2008
- Thomas William Salmon Award and Medal, New York Academy of Medicine, 2011

SERIES 1: BIOGRAPHICAL MATERIAL

Sub-series 4: Professional Appointments [box 13]

Box 13

- Hillside Hospital, Glen Oaks, NY
- Long Island Jewish Hospital, New Hyde Park, NY
- Montefiore Medical Center, Bronx, NY
- Morrisania Hospital, Bronx, NY

- interim report with Peter Irwin: “EEG Classification of GP-41299,” 1969-1970
- research with Arthur Zaks and Alfred M. Freedman: “Naloxone in the Treatment of Opiate Dependence,” 1969
- research with Richard B. Resnick, Phyllis Chesler, and Alfred M. Freedman: “A Typological Approach to the Therapy of Opiate Dependence by Cyclazocine and Methadone,” 1969
- research with Donald M. Shapiro, Daveeda S. Koss, and Peter Irwin: “EEG Profile Analysis of a New Psychoactive Agent, Pfizer CP 14,368,” 1969-1970

Box 19

- files and correspondence: biochemistry of depression, 1969
- study with Jiri Roubicek, Jan Volavka, and Richard Abrams: “Lateralized EEG Changes after Induced Convulsions,” 1969
- pharmaco-EEG studies: GP 41299, 1969-1970 (3f)*

Box 20

- research: “Clinical Evaluation of GP-41299: An Anti-Anxiety Agent of the Doxepin Type,” 1969-1972*
- proposed EEG study: GPA 1714, 1969*
- ECDEU laboratory data scales, 1969
- pilot study: marijuana, 1969
- Rhea Dornbush: “Proposed Cannabis Study Program,” 1969
- Michael Alan Taylor: “Newborn Sex Ratios Associated with Pre- and Post- Partum Schizophrenia,” 1969
- research with Peter Irwin and Donald Shapiro: EEG profile analyses of Thiothixene, 1969-1970
- report with Richard Abrams: “Convulsive Therapy: Methods and Applications”; derived from the study program “Theoretical, Clinical Studies of ECT,” 1969
- Richard Abrams: “A Manual of Convulsive Therapy”; derived from the study program “Theoretical, Clinical Studies of ECT,” under the direction of Max Fink, at Gracie Square Hospital, NY, 1969

1970

- pharmaco-EEG study: “EEG Profile Analysis of New Psychoactive Drugs, XV: PR-F-36-CL, Classification and Comparison with Fenfluramine and Amphetamine,” 1970-1972
- file, research notes: “Protocol for Human EEG Recording,” 1970
- research files, grant application, and progress report: “EEG and Human Psychopharmacology,” 1970-1972
- “A Program to Restrict Opiate Dependence: The Urban Epidemic of 1970”
- progress report, Arthur Zaks and Jan Volavka: “Clinical Pharmacology of Cannabis,” 1970
- progress report, Richard B. Resnick: “Cyclazocine Therapy of Opiate Dependence,” 1970
- Jovan Simeon, Oliver T. Nikolovski, and Monroe Spero: “Thiothixene in the Treatment of Anxiety and Depression in Outpatients,” 1970
- Research with Donald M. Shapiro: “EEG Profile Analysis of Oral Doxepin,” 1970

Box 21

- Research with Donald M. Shapiro, Daveeda S. Koss, and Peter Irwin: “EEG Profile Analysis of a New Psychoactive Agent: Sandoz 42,548,” 1970
- research with Donald M. Shapiro and Peter Irwin: “EEG Profile Analysis of U-28,774 (Ketalozam) in Adult Male Volunteers,” 1960-1971 (3f)*
- “EEG Profile Analyses of New Psychoactive Drugs, Phase II Study,” 1970
- proposals and grants with Richard Abrams, Rhea Dornbush, Jan Volavka, and Stanley Feldstein: “Comparison of Accelerated Convulsive Therapies,” 1970; with Richard Abrams, Rhea Dornbush, and Jan Volavka, “Multiple Monitored Electroconvulsive Therapy, 1970 (2f)

Box 22

- research with Rhea Dornbush and Richard Abrams: “Memory Changes after Unilateral and Bilateral Convulsive Therapy,” 1970
- research with Jovan Simeon: “Psychopharmacology Research in Psychiatric Outpatients,” 1970
- research with Gloria Clare, Monroe Spero, and Jovan Simeon: “Clinical Evaluation of AHR-1900,” 1970
- research with Donald M. Shapiro: “EEG Profile of Oral Doxepin,” 1970
- research with Peter Irwin and Donald M. Shapiro: “EEG Profile Analysis of Doxepin: III, Comparison of Pamoate and HCl Formulations,” 1970
- research with Richard Abrams, Arthur M. Zaks, and Herman C.B. Denber: “Failure to Alter the Effects of Heroin in Man with Centrephenoxine,” 1970

- research with Peter Irwin: “EEG Profile Analysis of AHR 1118” and “EEG Profile Analysis of New Psychoactive Drugs: VI, AHR 1118,” 1970
- research with Donald M. Shapiro, Daveeda S. Koss, and Peter Irwin: “EEG Profile of a New Psychoactive Agent: Pfizer CP 14,368,” 1970
- Rhea L. Dornbush and Alfred M. Freedman: “Marijuana, Cognition and Perception,” 1970
- interim report with Richard Abrams, Rhea Dornbush, Jan Volavka, and Stanley Feldstein: “Multiple Monitored Electroconvulsive Therapy,” 1970-1971
- research and reports: AHR-1118; EEG Profile Study, Pilot Study #1 and #2: Single Doses Above 200 mg., 1970-1974
- research with Donald M. Shapiro: “EEG Profile Analysis of Thiothixene: Comparison of Oral Concentrate and Capsule Formulations,” 1970

1971

- research with Richard Abrams: “Contributions of Multiple Seizures to the Practice of Convulsive Therapy,” 1971
- research with Peter Irwin: “EEG Profile Study of GPA-1714 in Volunteers,” 1971
- progress report with Alfred M. Freedman, Arthur Zaks, and Richard B. Resnick: “Development of a Long-Acting Narcotic Antagonist,” 1971
- research “The Human EEG after Cannabis,” 1971
- research and interim report with Arthur Zaks and Alfred M. Freedman: “l-Alpha-Acetylmethadol and Methadone Maintenance for Opiate Dependence,” 1971
- study proposal, Arthur Zaks: “Oral Naloxone as a Maintenance Treatment of Opiate Dependence,” 1971

Box 23

- research with Richard B. Resnick and Alfred M. Freedman: “Cyclazocine and Methadone Combined in the Treatment of Opiate Dependence,” 1971
- study proposals, Division of Biological Psychiatry, New York Medical College: “Levo-Dopa”; “EEG Profile Study and Comparison with GPA 1714,” 1971
- research: “EEG Profile Analysis in Male Volunteers: Cannabis and THC-[delta]-9,” 1971
- research with Peter Irwin and Carloyn Poinier: ORF 8063, 1971-1972
- research with Peter Irwin: “EEG Profile Study of GPA-1714 in Volunteers,” 1971
- correspondence: M-5050, 1971-1974
- file: Sulpiride

Box 24

- grant application with Michael Alan Taylor: “Sex Hormones in Schizophrenia,” 1971-1972

SERIES 3: RESEARCH FILES

Sub-series 4: Stony Brook University (1972-1997) [boxes 24-59]

1972

- Richard Abrams and Michael Alan Taylor: “Anterior Bifrontal ECT: A Clinical Trial,” 1972
- pharmaco-EEG studies: UK-7007, 1971-1972
- research files and medical literature: peptide pharmacology and adrenocorticotrophic hormones (ACTH): ORG OI-63 (ACTH 4-10), 1967 (2f)
- research files and medical literature: peptide pharmacology and adrenocorticotrophic hormones (ACTH), human studies: ORG OI-63 (ACTH 4-10), 1972-1980 (f)
- research: “EEG Profile Analysis of Potential Psychoactive Drugs, XVII, AHR-2277,” 1972

Box 25

- file and correspondence: grant, John E. Exner, “Treatment of Schizophrenia by Regressive ECT,” 1972-1975
- clinical study report: “Narcotic Antagonists: Clinical Pharmacology and Therapeutic Applications,” prepared for the National Commission on Marijuana and Drug Abuse. 1972
- research files and medical literature: peptide pharmacology and adrenocorticotrophic hormones (ACTH): ORG OI-63 (ACTH 4-10) and ORG 2766 (an ACTH 4-9 Analogue), 1972-1980
- research paper, Donald M. Shapiro and Marvin Glasser: “Measurement and Comparison of EEG-Drug Effects,” 1972

Box 26

- research and files: Bromazepam/RO5-3350 (Hoffman La Roche), 1972-1974 (3f)
- research and files: Trifludazepam/ORF-8063, 1972-1974 (4f)

Box 27

“Psychobiology of Convulsive Therapy Conference,” 20-22 April 1972, Dorado Beach, Puerto Rico (1972-1977)

- conference proposal and grant MH 20162-01, 1969-1972* (2f)
- list of invitees and correspondence, 1971-1972
- travel and hotel information, 1971-1972
- conference agenda and reading draft of Dr. Fink's presentation, 1972
- correspondence concerning publication of the proceedings, 1972-1977 (4f)

Box 28

- research and files: GB-94, EEG, and blood level, 1972-1984 (3f)

1973

- "EEG Profile Analysis of Potential Psychoactive Drugs, XVIII, UK-10,111," 1973
- research with Peter Irwin and Carloyn Poinier: "EEG Profile Analysis of PR-F-36-CL Dose Finding Study," 1973

Box 29

- research with Peter Irwin, Patrick Sibony, and Leslie Stanton: "EEG Classification of a Novel Anorexigenic: PR-F-36-CL," 1973-1974 (2f)

1974

- research with Peter Irwin, Steven Kahn: "EEG Profile Analysis of UK-10,111: Comparison to Detroamphetamine, Fenfluramine and Placebo," 1973

Box 30

- files and studies: CP-36,584 and EEG, 1974-1980 (7f)*

Box 31

- pharmaco-EEG studies: AHR-2277, 1973-1977 (2f)*
- "EEG Profile Analysis of Potential Psychoactive Drugs: AHR-2277 and Haloperidol Dose-Finding Studies," 1973
- research with Peter Irwin: "EEG Classification of AHR-2277 (Lenperone): Comparison with Placebo and Haloperidol," 1973
- research and files: Triflubazam/ORF-8063, Turkey, 1973-1974 (3f)

Box 32

- pharmaco-EEG studies: UK-10,111, 1973-1974 (3f)

Box 33

- pharmaco-EEG studies: LS 519-Pirenzepine, 1974-1979 (6f)*
- narcotic record, Stony Brook, 1975

Box 34

- research with Peter Irwin: “Relations Between Diazepam Blood Levels and EEG Changes in Man,” 1974-1975 (2f)
- pharmaco-EEG studies: Gerdaxyl, 1975-1979 (2f)

1975

- files and correspondence: “EEG Findings in a Comparative Study of Unilateral and Bilateral ECT,” by G. Marjerrison, J. James, and H. Reichert, 1975
- files and studies: Pyrroxan and EEG, 1975-1980 (5f)*
- medical literature: ORG 01-63 and hyperactive children, circa 1975 (2f)
- file and reports: Imipramine, GB-94, 1975
- Turan Itil: “Computer EEG Drug Profiles”
- pharmaco-EEG studies: EMD 21 657, 1975-1979
- pharmaco-EEG studies: Dilantin, 1975-1977

Box 35

1976

- pharmaco-EEG and clinical studies: Bromperidol, 1976-1978 (5f)
- clinical studies, correspondence, and medical literature: ACTH 4-10 and EEG data analyses, 1976-1979 (2f)

Box 36

- files and research: Clozapine and tardive dyskinesia, 1976-1977 (3f)
- files and research with Peter Irwin: Terfenadine, 1976-1978 (3f)

Box 37

- files: ORG 2766; ORG 3770; GK-78; correspondence with Organon, 1976-1982 (6f)*

Box 38

1977

- file: Veterans Administration collaborative study of ECT, 1977-1979

- file: clinical psychopharmacology study, Northport Veterans Affairs Medical Center, NY, 1977
- research with Gregory M. Asnis: Baclofen in tardive dyskinesia, 1977-1981 (3f)
- Peter M. Irwin, Emily Pall, William Craven, Karen Nielsen, and Warren Lin: “EEG Study of GC-46,” 1977

- proposal with Georgios Petrides and Iannis Zervas, "TSH in Depression: An Alternative for ECT," 1990; proposal, with Lynn Johnson: "Placebo Control Study of TSH-ST," 1990

Box 59

1991

- reports: State University of New York, Stony Brook, Department of Psychiatry, clinical database, 1991 findings (June 1992) and 1993 findings (April 1994)

1993

- unpublished manuscript: "Convulsive Therapy After 60 Years: Duckling or Swan," 1993-1994

- unpublished letter: “Antipsychiatry Again,” 1993
- unpublished manuscript: “The Experience with Electroconvulsive Therapy in the United States,” 1993
- unpublished manuscript: “ECT in Italy: An Emotional Conflict,” 1993

1994

- unpublished manuscript: “To Read About ECT,” 1994

1995

- research, and manuscript with Denise White: “Neuroleptic Malignant Syndrome and Catatonia,” 1995
- unpublished letter: “Conspiracy of Silence,” 1995
- file: Flumazenil and ECT, 1995-1996 (2f)

1996

- unpublished manuscript: “Convulsive Therapy: A Socio-Political History,” 1996

1997

- study proposal: “Effexor in Major Depression,” 1997
- unpublished manuscript: “NMS: Identification and Treatment,” 1997
- unpublished letter: “Why Not ECT?,” 1997

SERIES 3: RESEARCH FILES

Sub-series 5: Post-Retirement (1998-2013) [boxes 59-61]

1998

- unpublished letter: ECT in psychiatric disorders, 1998
- unpublished letter with Charles Kellner: “ECT in Parkinson’s Disease,” 1998
- unpublished letter: Clozapine and ECT, 1998
- unpublished letter: continuation ECT, 1998

1999

- summaries of ECT medical literature; question and answer responses, 1999-2000

Box 60

2001

- unpublished manuscript: “The Unheralded Uses of ECT: The Neurologist’s Dilemma,” 1999-2001
- file: Mifepristone, 2001-2002 (2f)*
- unpublished manuscript: “ECT: Rediscovered and Stigmatized, But Ever More Widely Used,” 2001-2003

2003

- unpublished manuscript with Jan-Otto Ottosson: “Is ECT an Ethical Treatment?,” 2003
- unpublished letter with Charles Kellner: psychotic and non-psychotic depression, 2003

2004

- unpublished manuscript: “J’ Accuse,” 2004

2006

- unpublished letter: “Controversies in Depression,” 2006
- unpublished letter: “Diagnostic Heterogeneity Encourages Poor Outcomes in Depression,” 2006

2008

- unpublished letter: depression and melancholia, 2008
- unpublished letter: neuroleptic malignant syndrome, 2008

2009

- unpublished manuscript: “ECT Societies in the United States: A Recollection,” 2009
- unpublished manuscript: “Psychobiology of Convulsive Therapy,” 2009
- unpublished manuscript: “A Clinician’s Guide to the Diagnosis and Treatment of Depressive Illness” (melancholia identification for clinicians),” 2009

2010

- unpublished letter: “Move On! End Obsession with Electrode Placement in ECT,” 2010

2011

- unpublished article with Nutan Atre Vaidya and Michael Alan Taylor: “Issues for DSM: Mood Disorders and Medical Model,” 2011

2012

- unpublished letter: response to HC Fibiger, “Psychiatry, The Pharmaceutical Industry, and the Road to Better Therapeutics,” 2012

2013

- unpublished letter: DSM-5, 2013

Box 61

No date

- Stony Brook University Hospital: consent forms and policies
- research with Peter Irwin and Donald M. Shapiro: “EEG Profile Analysis of U-28,774 (Ketalozam) in Adult Male Volunteers,” undated

SERIES 3: RESEARCH FILES AND UNPUBLISHED WORKS

Sub-series 6: Subject Files on Electroconvulsive Therapy (ECT) [boxes 62-86]

Boxes 62-64

American Psychiatric Association (APA) Task Force on Electroconvulsive Therapy

Box 62

- mandate to the APA Task Force on ECT; membership list; photograph from the 1976 meeting
- documents related to Assembly Bill No. 4481 (legislation of ECT in California)
- ECT policies, procedures, and surveys
- APA Task Force on ECT survey questionnaire forms and data, 1977 (4f)
- list of funded and non-funded ECT research, 1970 to 1975

Files (sorted chronologically): contain correspondence, meeting agendas, reports, articles, newspaper clippings, etc.

- task force files, 1974

Box 63

- task force files, 1975 (4f)
- task force files, 1976 (3f)
- task force files, 1977 (2f)

Box 64

- task force files, 1977 (2f, continued)
- draft of task force report, 1978 (2f)
- task force files, 1978 to 1979
- task force files, 1983-91
- meeting: Washington DC, 12-13 January 1989
- meeting: San Francisco, 8 May 1989 (2f)
- meeting: New York, 17 May 1990
- meeting: Boca Raton, FL, 28 May 2003

Boxes 65-68

Consortium on Research in ECT (CORE)

List of principal CORE Study Reports, 2001-2010.

1. The influence of age on the response of patients with major depression to electroconvulsive therapy. *Am J Geriatr Psychiatry* 2001; 9:382-390. [O'Connor MK, Knapp R, Husain M, Rummans TA, Petrides G, Smith G, Mueller M, Snyder K, Bernstein H, Rush AJ, Fink M., Kellner C.]
2. ECT remission rates in psychotic versus non-psychotic depressed patients: A report from CORE. *J ECT* 2001; 17:244-253. [Petrides G, Fink M, Husain MM, Knapp R, Rush AJ, Mueller M, Rummans TA, O'Connor KM, Rasmussen KG, Bernstein HJ, Biggs M, Bailine SH, Kellner CH.]
3. Speed of Response and Remission in Major Depressive Disorder with Acute ECT: A Consortium for Research in ECT (CORE) Report. *J Clin Psychiatry* 2004; 65:485-491. [Husain MM, Rush AJ, Fink M, Knapp R, Petrides G, Rummans T, Biggs MM, O'Connor K, Rasmussen K, Little M, Zhao W, Bernstein HJ, Smith G, Mueller M, McClintock SM, Bailine SH, Kellner CH.]

4. Relief of expressed suicidal intent by ECT: A Consortium for Research in ECT Study. *Am J Psychiatry* 2005;162: 977-982. [Kellner CH, Fink M, Knapp R Petrides G, Husain MM, Rummans T, Mueller M, Bernstein H, Rasmussen K, O'Connor K, Smith G, Rush AJ, Biggs M, McClintock S, Bailine SH, Malur C.]
5. Continuation ECT versus pharmacotherapy for relapse prevention in major depression: a multi-site study from CORE. *Archives General Psychiatry*. 2006; 63:1337-44. [Kellner CH, Knapp RG, Petrides G, Rummans TA, Husain MM, Rasmussen K, Mueller M, Bernstein HI, O'Connor K, Smith G, Biggs M, Bailine SH, Malur C, Yim E, Sampson S, Rush AJ, Fink M.]
6. Patterns of Psychotropic Medication Use Among Severely Depressed Patients Referred for Electroconvulsive Therapy: Data from the Consortium for Research on ECT. *J ECT* 2006; 116-123. [Rasmussen KG, Mueller M, Kellner CH, Knapp RG, Petrides G, Rummans TA, Husain MM, O'Connor K, Black JL, Sampson S, Fink M.] .
7. DSM Melancholic Features are Unreliable Predictors of ECT Response. *J ECT*, 2007; 23:1349-146. [Fink M, Rush AJ, Knapp R Rasmussen K, Mueller M, Rummans T, O'Connor K, Husain M, Biggs M, Bailine S, Kellner CH, and CORE group.]
8. Antidepressant Treatment Failure Does Not Predict Lower Remission Rates with ECT for Major Depressive Disorder. *J Clin Psychiatry* 2007; 68:1701-1706. [Rasmussen KG, Mueller M, Knapp RG, Husain MM, Rummans TA, Sampson SM, O'Connor MK, Petrides G, Kellner CH, Fink M.]
9. Data management and design issues in an unmasked randomized trial of electroconvulsive therapy for relapse prevention of severe depression. *J ECT* 2007; 23:244-250.[Rasmussen KG, Knapp RG, Biggs MM, Smith GE, Rummans TA, Petrides G, Husain MM, O'Connor MK, Fink M, Kellner CH]
10. Change in seizure threshold during ECT: A CORE study. *J ECT* 2008; 24:114-116. [Fink M, Petrides G, Kellner CH, Mueller M, Knapp R Husain MM, Rasmussen K. Rummans TA. O'Connor K.]
11. Outcome of ECT by race in the CORE multi-site study. *ECT* 2008; 24:117-121. [Williams M, Rummans T, Sampson S, Knapp R, Mueller M, Husain M, Fink M, Rasmussen K, O'Connor K, Smith G, Petrides G, Kellner CH.]
- 12a. The efficacy of acute ECT in atypical depression. *Clin Psychiatry* 2008; 69:406-411. [Husain MM, McClintock SM, Rush AJ, Knapp RG, Fink M, Rummans TA, Rasmussen K, Claassen C, Petrides G, Biggs MM, Mueller M, Sampson S, Bailine SH, Kellner CH.]

12b. ECT not proven for atypical depression. Response to Letter CM Swartz. *Clin Psychiatry* 2008; 69: 1662-3. [McClintock SM, Husain MM, Rush AJ, Claassen C, Biggs MM, Knapp RG, Mueller M, Fink M, Bailine S, Rummans T A, Sampson S, Petrides G, Kellner CH, Lisanby SH.]

13. Is baseline medication non-response associated with potential for relapse after successful remission of a depressive episode with ECT? Data from the Consortium for Research in ECT. *Clin Psychiatry* 2009; 70:232-237. [Rasmussen KG, Mueller M, Rummans TA, Husain MM, Petrides G, Knapp RG, Fink M, Sampson SM, O'Connor MK, Bailine SH, Kellner CH.]

14. Seizure threshold in a large sample: Implications for stimulus dosing strategies in bitemporal ECT. A report from CORE. *J ECT* 2009; 25:232-237. [Petrides G, Fink M, Braga RJ, Mueller M, Knapp R, Rummans T, Husain M, Rasmussen K, Bailine S, Malur C, O'Connor K, Kellner CH.]

15. ECT is equally effective in bipolar depression. *Acta psychiatr scand* 2010;121 :431-36 [Bailine S, Fink M, Knapp R, Petrides G, Husain M, Rasmussen K, Sampson S, Mueller M, McClintock S, Tobias KG, Kellner CH.]

16. Comparing Bifrontal, Bitemporal, and Right Unilateral Electrode Placement in ECT: A Multisite Study from CORE. *Br. J Psychiatry* 2010; 196: 226-234. [Kellner CH, Knapp R, Husain M, Rasmussen K, Sampson S, Cullum M, McClintock S, Tobias K, Martino C, Mueller M, Bailine S, Fink M, Petrides G.]

17. A randomized controlled trial comparing the memory effects of continuation ECT versus continuation pharmacotherapy: Results from the CORE study. *Clin Psychiatry* 2010; 71:J85-193. (Smith GE, Rasmussen KG, Cullum M, Felmlee MD, Petrides G, Rummans TA, Husain M, Mueller M, Bernstein H, Knapp R, O'Connor MK, Fink M, Sampson S, Bailine SH, Kellner CH.)

Box 65

- National Institute of Mental Health grant files, “Continuation ECT vs. Pharmacotherapy: Efficacy and Safety,” 1995-1998 (4f)
- document titled “Structured Clinical Interview for DSM-IV Axis Disorders, Patient Edition (February 1996 Final)”; 1997 ECT Study Version
- investigators meeting, 8-9 February 1998
- investigators meeting, 9-11 October 1998
- investigators meeting, 7 April 1999

Box 66

- investigators meeting, 11-13 November 2000
- investigators meetings, 2001
- investigators meeting, 12-13 April 2002

- powerpoint presentation on electrode indications, 11 October 2002
- publications committee, 2003
- investigators meetings, 2005 (2f)
- files relating to report 1: The influence of age on the response of patients with major depression to electroconvulsive therapy.
- files relating to report 2: ECT remission rates in psychotic versus non-psychotic depressed patients: A report from CORE. (2f)

Box 67

- files relating to report 4: Relief of expressed suicidal intent by ECT: A Consortium for Research in ECT study. (2f)
- files relating to report 5: Continuation ECT versus pharmacotherapy for relapse prevention in major depression: a multi-site study from CORE.
- files relating to report 7: DSM melancholic features are unreliable predictors of ECT response. (2 folders)
- files relating to report 8: Antidepressant treatment failure does not predict lower remission rates with ECT for major depressive disorder.

Box 68

- files relating to report 9: Data management and design issues in an unmasked randomized trial of electroconvulsive therapy for relapse prevention of severe depression.
- files relating to report 10: Change in seizure threshold during ECT: A CORE study.
- files relating to report 11: Outcome of ECT by race in the CORE multi-site study
- files relating to report 12a: The efficacy of acute ECT in atypical depression. (2f)
- files relating to report 13: Is baseline medication non-response associated with potential for relapse after successful remission of a depressive episode with ECT? Data from the Consortium for Research in ECT.
- files relating to report 14: Seizure threshold in a large sample: implications for stimulus dosing strategies in bitemporal ECT. A report from CORE. (2f)
- files relating to report 15: ECT is equally effective in bipolar depression . (2f)
- files relating to report 16: Comparing bifrontal, bitemporal, and right Unilateral Electrode placement in ECT: a multisite study from CORE.
- files relating to report 17: A randomized controlled trial comparing the memory effects of continuation ECT versus continuation pharmacotherapy: results from the CORE study.

SERIES 3: RESEARCH FILES AND UNPUBLISHED WORKS

Sub-series 7: Catatonia and Melancholia [boxes 87-97]

Box 87

- notes and correspondence with John Rush: APA revision of DSM-III criteria, 1991-1993, 2008

- manuscript: “Catatonia and DSM-IV,” prepared for the symposium on catatonia, APA; APA’s DSM-IV Update, 1994
- statistics: malignant catatonia from the *Journal of Neuropsychiatry and Clinical Neurosciences*, 1994
- catatonia team meeting: agenda and draft of “SPECT Brain Imaging of Catatonia” and notes, Stony Brook University, 4 January 1994
- unpublished letter: “Correction: ECT Alone, Not Combined with Dantrolene, for Catatonia,” 1994
- clinical case presentation: Dr. Laurie Gordon, July 1996
- clinical description: Howard I. Kushner, “The Cursing Brain,” Tourette’s Syndrome, 1999
- correspondence: with Alexander Nelson, alternating catatonic syndromes, 2001
- data and charts: comparison of Bush-Francis Catatonia Rating Scale (BFCRS) with published sources
- notes and procedures: Lorazepam trial
- manuscript: Michael Taylor, “Creationism versus Evolution, DSM Style,” 2001
- melancholia, catatonia, ECT, and hormones, 2002-2004
- unpublished letters, re: Donald Herbert: “Catatonia is and Alternative Diagnosis,” 2005
- unpublished letter: “Parkinson-Hyperpyrexia Syndrome is Malignant Catatonia,” 2006
- outcome of catatonia and ECT, 2006
- correspondence: catatonia in DSM-5, Stephan Heckers, 2009
- letters to work group: catatonia in DSM-5, 2009
- catatonia in DSM-5: articles from *Schizophrenia Bulletin*, “The Catatonia Conundrum: Evidence of Psychomotor Phenomena as a Symptom” by Ungvari, Caroff, and Gerevich; “Catatonia and Its Treatment” by Rosebush and Mazurek; “Catatonia in the DSM: Shall We Move or Not?” by Heckers, Tandon, and Bustillo, 2009-2010
- catatonia in DSM-5: response to Heckers’s editorial in *Schizophrenia Bulletin*; correspondence concerning catatonia entry in DSM-V, 2010
- DSM-5: catatonia specifier in mood disorders; manuscripts of comments and recommendations concerning catatonia in the proposed DSM-V, April 2010
- unpublished letter: self-injurious behaviors and catatonia, 2010
- unpublished letter: “The Persistent Vegetative State and Catatonia,” 2010

Box 88

- catatonia and autism DVD project, 2009-2011
- catatonia conference planning, 2010
- pervasive refusal syndrome, 1996-2011
- Tourette Syndrome as catatonia, 2011
- Dutch documentary; self-injurious behaviors in autism, 2011 (2f)
- DSM-5 and melancholia, 2011
- CORE melancholia update, 2011
- DSM-5 and catatonia, 2012
- unpublished letter: catatonia and autism, 2012
- manuscript: “Cyber-Bullying is a Precipitant of Pediatric Catatonia,” 2012

- manuscript, David Healy: “Catatonia from Kahlbaum to DSM V,” 2013
- DSM-5 catatonia argument, 2013

Box 89

- correspondence, 1989-1993
- correspondence, 1994-1996
- correspondence, 1997-2001
- correspondence, 2007-2013

SERIES 3: RESEARCH FILES AND UNPUBLISHED WORKS

Sub-series 8: Narcotics and Cannabis [boxes 98-109]

“Greek Studies”

Box 98

- correspondence, reports, essays, notes: marijuana, chemistry analysis, 1972
- research: “Study of Marijuana Users in Greece: Interim Report, October 3, 1971,” M. Fink, C. Stefanis; tables: marijuana use in Greece, 1971
- research: “Study of Chronic Hashish Users in Greece: Summary of Statistical Analyses, Acute Administrations of THC, Hashish, and Marijuana, HSM 42-70-98,” 1973-1974
- research: “Report on Chronic Hashish Users: A Study of Controls and an Experimental Study of the Effects of Various Strengths of Cannabis Preparations,” 1973
- summary report with tables and appendices: Greek study on hashish and marijuana use, 1974
- research files, notes, correspondence: cannabis and EEG III; research: “Acute EEG Effects of Cannabis Preparations in Long-term Users of Hashish,” J. Volavka, 1974-1975
- research, correspondence, manuscript: “The Effects of Acute Use of Cannabis on Psychological Test Performance in Chronic Hashish Users,” R.L. Dornbush, A. Kokkevi; manuscript: “Physiological and Psychological Effects of Marijuana, Hashish and Delta-9-THC in Long-term Hashish Users,” P. Crown with R. Dornbush, 1975
- notes: long-term effects of cannabis use; research: “The Long-Term Effects of Cannabis Use,” R.L. Dornbush; manuscript: “Chronic Hashish Use and Mental Disorder,” M. Fink, C. Stefanis, A. Freedman, A. Liakos, J. Boulougouris, 1974

Box 99

- “Greek Hashish Withdrawal Study: Interim Report,” P. Irwin, 8 May 1974
- summary reports: “Chronic Hashish Use in Man,” undated
- analysis: jobs 401-536, September 1973
- appendices: charts and tables, undated
- research files and correspondence: Greek Study Phase III, 17 July 1974
- grant proposal with Rhea Dornbush: “Mental Changes with Acute and Chronic Cannabis Use,” 1972*
- grant proposal, supporting documentation and correspondence: marijuana, National Institutes of Mental Health (NIMH); “Marijuana and Memory: Effects of Smoking on Storage,”; “Final Report, MH 18172, Clinical Pharmacology of Cannabis, A.M. Freedman, Principal Investigator,”; R. Dornbush, J. Volavka, M. Fink, P. Crown, G. Clare, A. Zaks; “21-Day Administration of Marijuana in Male Volunteers,” R.L. Dornbush, G. Clare, A. Zaks, P. Crown, J. Volavka, M. Fink, 1972-1974 (2f)*

Box 100

- grant proposal application, research files, forms and correspondence: cannabis, Jamaica (“Physiological Effects of Chronic Cannabis Use in Male Jamaicans”); “Psychiatric Assessment of 30 Chronic Users of Cannabis and 30 Matched Controls,” M.H. Beaubrun, F. Knight, 1971-1973 (2f)
- files and reports: cannabis and EEG; research: Studies of Chronic Hashish Users,” C. Stefanis, J. Boulougouris, A. Liakos, C.P. Panayiotopoulos, A. Kokkevi; “Marijuana-Hashish-THC-1972,” P. Crown; “[Delta 9]-Tetrahydrocannabinol Effects on Human Electroencephalogram and Heart Rate,” J. Volavka, R. Dornbush, S. Feldstein, P. Crown, and M. Fink; “Marijuana, Memory, and Judgment,” R.L.Dornbush; “Effects of Delta-9-Tetrahydrocannabinol on Mood, Heart Rate, and EEG in Volunteers,” J. Volavka, R. Dornbush, P. Crown, M. Fink; “EEG Profile Analysis in Male Volunteers: Cannabis and THC-Delta-9,” M. Fink; “Chronic Marijuana,” P. Crown; “The Biology of Cannabis: The State of Our Knowledge, 1970,” M. Fink; “Marijuana, Cognition and Perception,” R. Dornbush, A.M. Freedman, 1968-1972 (3f)

Box 101

- files: marijuana and cannabis EEG study, NYMC; manuscript: “EEG Heart Rate and Mood Change (“High”) After Cannabis,” M. Fink, J. Volavka, P. Crown, R. Dornbush; manuscript: “The Human EEG After Cannabis,” M. Fink; manuscript: “Marihuana and the Human Electroencephalogram,” L.E. Hollister, S.L. Sherwood, A. Cavasino, 1946-1972
- “21 Day Administration of Marijuana in Male Volunteers,” M. Fink, R.L. Dornbush, G. Clare, A. Zaks, P. Crown, J. Volavka, 1972
- “Clinical Pharmacology of Cannabis: Progress Report,” A. Zaks, J. Volavka, March 1970
- “The Biology of Cannabis: A Review of Our Knowledge and the Issues,” M. Fink, 1971
- files and correspondence: marijuana, with R.T. Jones, Langley Porter, 1968-1969
- research files, protocols, proposals and reports: chronic marijuana; “Chronic Marijuana Study,” G. Clare, A. Zaks; “Chronic Marijuana Study: Proposal for Phase II,” G. Clare, A. Zaks, J. Velovka; “Daily Administration of Marijuana,” R. Dornbush, G. Clare, J. Volavka, A. Zaks; “Chronic Cannabis Study #2, June-July 1971,” A. Zaks, G. Clare; “Clinical Observations of 21 Consecutive Days of Marijuana Smoking by Volunteers, July 1971,” G. Clare, A. Zaks, R.L. Dornbush, J. Volavka, M. Fink, A.M. Freedman; “Marijuana Administration for 21 Consecutive Days in Non-Naïve Volunteers,” M. Fink, G. Clare, A. Zaks, R.L. Dornbush, J. Volavka, A.M. Freedman; “The Long-Term Effects of Cannabis Use,” R.L. Dornbush; “MH 18172, Clinical Pharmacology of Cannabis, New York Medical College, A.M. Freedman, Principal Investigator,” R. Dornbush, M. Fink, J. Volavka, P. Crown, 1970-1974 (3f)
- “Summary Report: Marijuana Study Program 278M7C,” M. Fink, November 1971
- “Effects of Cannabis on Human EEG and Heart Rate: Evidence of Tolerance Development on Chronic Use,” M. Fink, J. Volavka, R. Dornbush, P. Crown, presented at CINP, Copenhagen, 1972

Box 102

- “Marijuana, EEG and behavior,” M. Fink, J. Volavka, R. Dornbush, S. Feldstein, G. Clare, A. Zaks, A.M. Freedman, prepared for the Conference on Marijuana, New York Academy of Science, 18 May 1971
- notes: cannabis and psychosis; “Cannabis Psychosis,” M. Fink, A.M. Freedman, 1971
- “Marijuana, Memory and Perception,” M. Fink, R.L. Dornbush, A.M. Freedman, 1971
- “Chronic Hashish Use and Mental Disorder,” M. Fink, C. Stefanis, A. Freedman, A. Liakos, J. Boulougouris; research files, undated
- “Chronic Hashish Use in Man,” M. Fink, R. Dornbush; final copy: “Chronic Hashish Use in Man,” M. Fink, R. Dornbush, August 1974 (3f)

Box 103

- research files, administrative documents, correspondence: International Association for Psychiatric Research (IAPR), Athens Cannabis Project (HSM-42-70-98, 1969-1970)
- government contracts, supplements and correspondence: HSM-42-70-98, 1971-1972
- documents, reports, research files, and correspondence: HSM-42-70-98, 1972-1973
- monthly cash requests: NIMH 73-4047, 1968-1976
- correspondence and financial records: 1972
- research files, correspondence, study applications and contracts: chronic cannabis users in Jamaica, 1971-1972
- summaries of statistical analysis: Greek hashish study, 1973
- subject file: hashish and marijuana

Box 104

- notes, correspondence, contracts and extension requests: V Athens cannabis grant, 1971-1972
- check request forms and correspondence: Greek studies consulting fees, 1971-1974
- check requests: 1971-1973
- check requests for personnel: 1971-1975
- notes, correspondence and check requests: supplies, 1970-1974
- check request forms and correspondence: travel, 1971-1974
- request forms, correspondence, reports and certificates: Greek studies contracts, 1972-1975
- letters of receipt for payment for Greek studies, 1971-1972
- request forms and itemized receipts for Greek contract, February 1972

Box 105

- correspondence and monthly vouchers: first year of Greek contract, 1971-1972
- correspondence and monthly vouchers: second year of Greek contract, 1972-1974
- correspondence, notes and summaries: third year of Greek contract: May 1973- January 1975 (2f)
- correspondence, reports and tables: Greek contract, HSM 42-70-98, 1972-1973 (2f)
- “Chronic Hashish Users in Greece, HSM 42-70-98, Interim Report, May 20, 1973”
- business meetings, minutes: International Association for Psychiatric Research (IAPR), 1969-1977
- IAPR auditors’ reports: 1970-1977

Box 106

- notes and correspondence with Costas Stefanis, related to the Greek contract, 1972-1976 (2f)
- correspondence, notes, studies and contracts for Marijuana study; “EEG and Behavioral Effects of Long-Term Cannabis Use,” M. Fink, C. Miras, C. Stefanis, A.M. Freedman, 1969-1970
- correspondence, research files, memos, notes and contracts: IAPR Athens cannabis project III, 1971-1972
- research files, summaries, procedures, contracts and correspondence: IAPR Athens Cannabis Project II; “Summary of Greek Project, prepared by R. Dornbush, 7-26-71,” 1970-1971
- reports and research data: IAPR Athens cannabis study, 1971-1972

“Narcotics and Cannabis; Narcotic Antagonists”

Box 107

- correspondence and reports: narcotic antagonists; “Clinical Experiences with Narcotic Antagonists in Opiate Dependence: A Historical 7-Year Perspective,” M. Fink, 1974-1975
- correspondence, research files and reports: Cyclazocine study in collaboration with the Sterling Winthrop Research Institute, 1965-1973 (5f)
- correspondence and reports: “Methadone in the Treatment of Chronic Active Psychosis,” 1968-1969
- correspondence, research files and reports: EEG-Pentothal, Schwartz-Feldstein; “Evidence for a Characteristic EEG Frequency Response to Thiopental,” M. Fink, J. Schwartz, S. Feldstein, D.M. Shapiro, T.M. Itil; “EEG: Evidence for a Characteristic Transient Response to Sodium Pentothal,” M. Fink, J. Schwartz, S. Feldstein, D.M. Shapiro, T.M. Itil; reprint: “Factors Modulating Barbiturate Action,” L.C Mark, 1963-1972

Box 108

- “High Dose Cyclazocine: Therapy of Opiate Dependence,” M. Fink, R. Resnick, A. M. Freedman, 1972
- “Opiate Dependence: Treatment and Prophylaxis,” M. Fink, 1971
- “A Rational Theory of Opiate Dependence: Narcotic Antagonists,” M. Fink, 1970
- “Cyclazocine Treatment of Opiate Dependence: A Progress Report,” M. Fink, R. Resnick, A.M. Freedman, prepared for *Comprehensive Psychiatry*, 1971
- “Narcotic Antagonist Therapy of Opiate Dependence,” M. Fink, R. Resnick, 1972
- program, correspondence, files: Conference on Narcotic Antagonists in Opiate Dependence, 4 June 1970; “Narcotic Antagonists and Opiate Dependence,” S.F. Yolles, 1970 (2f)
- correspondence and articles: clinical use of narcotic antagonists; the book *Biochemical Pharmacology of Narcotic Analgesic Drugs*, edited by D. Clouet (two chapters written by M. Fink); “Opiate Antagonists in the Treatment of Heroin Dependence in Man,” M. Fink, A. Zaks, R. Resnick, A.M. Freedman; “Electrophysiological Studies of Opiates and Antagonists in Man,” M. Fink, A. Zaks, J. Volavka, J. Roubicek, 1968-1969 (2f)
- “Marijuana-Hashish-THC-1972: Short Discussion of “High” as a Dependent Variable,” P. Crown; “Problems in Cannabis Research: What is “High”? and How Should It Be Measured?,” P. Crown, 1972
- correspondence, reports, applications and award: “Clinical Pharmacology of Cannabis” grant - MH 18172, 41-435, 1965-1972*
- correspondence, reports, contracts and budgets: “Pharmacotherapy of Narcotic Addiction” grant, MH 12567, 1966-1969 (2f)*

Box 109

- correspondence and research files: “Cyclazocine-Freedman, 41-3521-1 New York Medical College(NYMC)”;
- “Cyclazocine in Depressive Disorders: Cyclazocine-Imipramine Comparison, Second Study,” Department of Psychology, New York Medical College, 1964-1967
- binder: “Protocols for Division of Biological Psychiatry,” New York Medical College, 1970
- binder: “Protocols for Psychopharmacology Study Units,” Department of Psychiatry, New York Medical College, 1966-1968
- subject file: Food and Drug Administration (FDA) and Investigational New Drugs (IND) procedures
- subject file: Lithium
- subject file: “Anna O” and Sigmund Freud
- subject file: vagus nerve stimulation

VIII. Box and Folder Inventory

SERIES 4: PROFESSIONAL ACTIVITIES [60 boxes; 25 linear ft.]

Box 1

- Academia, Medicinae & Psychiatriae Foundation, Ethical Committee, 1993
- Academy of Psychoanalysis, 1958
- Academy of Psychoanalysis, Philadelphia, PA, April 1959; paper presented, “Sociopsychological Factors Affecting Therapist-Patient Relationship”
- Academy of Psychoanalysis, Toronto, Canada, 6 May 1962; paper presented, “Discussion of LSD as an Aid to Psychoanalytic Treatment by Charles C. Dahlberg”
- Academy of Psychoanalysis, New York, 30 April-2 May 1965
- Academy of Psychosomatic Medicine, Houston, TX, 30 November-2 December 1967; paper presented, “Long Acting Drugs in the Management of Psychiatric Patients”
- Academy of Psychosomatic Medicine, seminar in psychopharmacology, Freeport, Bahamas, 8-9 December 1969; report presented, “Clinical Evaluation of Doxepin in Treatment of Anxiety”
- Academy of Psychosomatic Medicine, Buenos Aires, Argentina, January 1970; abstract submitted, “EEG Classification of Psychoactive Drugs in Man”
- Academy of Psychosomatic Medicine, Phoenix, 17-20 November 1994
- Adolescent ECT Team, Hillside Hospital, Glen Oaks, NY, 1999-2000
- Akademisk Psykiatrisk Forum (Academic Psychiatry Forum), Copenhagen, Denmark, 1 May 2007; paper presented, “Melancholia and Catatonia Resurrected: A Paradigm Shift In Psychiatric Classification”
- Albany Medical College, Grand Rounds, 10 November 1999; paper presented, “New Applications of ECT”
- Albert Einstein College of Medicine, Grand Rounds, Bronx, NY, 5 December 1980; paper presented “E.C.T. is Alive and Well”
- Albert Einstein Medical Center, Philadelphia, PA, 2 Feb 2001; Psychiatry Grand Rounds, “Novel Indications for ECT”

- Alliance for the Mentally Ill of New York State (AMI-NYS), Melville, NY, 4-6 November 1994; paper presented, “Electroconvulsive Therapy: For Whom Is It an Option?”
- American Academy of Child & Adolescent Psychiatry (AACAP), New York, 24-29 October 2000
- American Academy of Child & Adolescent Psychiatry (AACAP), Chicago, IL, 28 October-3 November 2008; paper presented, “A Girl with Pervasive Refusal Syndrome or Catatonia?”
- American Academy of Child & Adolescent Psychiatry (AACAP), New York, 26-31 October 2010; paper presented, “Catatonia: History and Recent Suggestions in Psychiatric Classification” (includes two CDs)
- American Academy of Clinical Neurophysiology (AACN), Boston, MA, 20-23 June 1991; paper presented, “Pharmacology-EEG Science or Pseudo-science?”
- American Academy of Clinical Psychiatrists (AACP), Kansas City, MO, 9-10 October 1980; paper presented, “Neuroendocrinology of Convulsive Therapy”*
- American Academy of Clinical Psychiatrists (AACP), New Orleans, 23-26 October 1991; paper presented, “Maintenance ECT”
- American Academy of Neurology, 1950-1953
- American Academy of Neurology, New York, 27-28 April 1971; paper presented, “Neurophysiology of Opiate Addiction”
- American Academy of Psychiatry & the Law (AAPL), New York, 21-24 October 1982
- American Association for Geriatric Psychiatry (AAGP), Santa Monica, CA, 12-14 February 1988; paper presented, “ECT in the Elderly: A Viable Option”
- American Association for Geriatric Psychiatry (AAGP), Miami Beach, FL, 12-15 March 2000
- American Association for Geriatric Psychiatry (AAGP), Waikiki, HI, 1-4 March 2003; paper presented, “Why is ECT More Effective in Geriatric than Younger Patients?”
- American Association for the Advancement of Science, ECT Symposium, New York, 24-29 May 1984
- American Association for the History of Medicine (AAHM), Madison, WI, 30 April 2004; paper presented, “Social Constraints in Psychiatric Treatment: A Lesson From Insulin Coma Therapy”

Box 2

- American Association of Pharmaceutical Scientists (AAPS), Eastern Regional Meeting, New Brunswick, 6-7 June 1991; paper presented, “Pharmacodynamic Analysis of Human Drug Effects Using Quantitative EEG Measures”
- American Board of Psychiatry and Neurology, 1947-1953
- American College of Allergists, Annual Congress, Bal Harbour, FL, 2-6 February 1985; paper presented, “CNS Activity of Terfenadine and Diphenhydramine”*
- American College of Clinical Pharmacology and Chemotherapy, 1966-1969
- American College of Clinical Pharmacology and Chemotherapy, Atlantic City, NJ, 2-4 May 1968; paper presented, “Narcotic Antagonists in the Treatment of Opiate Dependence”
- American College of Neuropsychopharmacology (ACNP), 1961-1964
- American College of Neuropsychopharmacology (ACNP), Washington DC, January 1963
- American College of Neuropsychopharmacology (ACNP), Washington DC, 15-18 January 1964
- American College of Neuropsychopharmacology (ACNP), Washington DC, 24-25 October 1964
- American College of Neuropsychopharmacology (ACNP) meetings, 1965-1966
- American College of Neuropsychopharmacology (ACNP), Washington DC, 15-16 January 1965
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 16-19 December 1965; paper presented, “Computer Techniques in Electroencephalography”; also includes materials for the New York Medical College, Department of Psychiatry Meeting in Miami, following the ACNP meeting
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 12-15 December 1967; papers presented, “Pharmacology of EEG” and “Neurophysiology of Phantastica, EEG and Behavioral Relations in Man”
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 18-20 December 1968

- American College of Neuropsychopharmacology (ACNP), San Diego, CA, 24-26 February 1970; papers presented, “The Interface Between Technology and Man,” “The Formal Teaching of Psychopharmacology During Psychiatric Residency,” “Residency Training in Psychopharmacology” and “Technology in Psychiatric Research” (2f)

Box 3

- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 8-13 December 1970; report presented, “EEG Profile Analysis for Psychopharmacology”
- American College of Neuropsychopharmacology (ACNP), Las Vegas, 18-21 January 1972
- American College of Neuropsychopharmacology (ACNP), Puerto Rico, 12-15 December 1972; papers presented, “Narcotic Antagonists: Bane or Boon?,” “Cross National Trials with Hashish” and “CNS Effects of Hashish, THC-delta-9, and Marijuana”
- American College of Neuropsychopharmacology (ACNP), Palm Springs, California, 4-7 December 1973
- American College of Neuropsychopharmacology (ACNP), San Juan, 10-13 December 1974; abstract submitted, “EEG and Blood Level Correlations”*
- American College of Neuropsychopharmacology (ACNP), San Juan, 16-19 December 1975; paper presented, “Pharmacological Models on Bioavailability: Quantitative Electroencephalography” (2f)

Box 4

- American College of Neuropsychopharmacology (ACNP), New Orleans, 13-17 December 1976
- American College of Neuropsychopharmacology (ACNP), San Juan, 14-16 December 1977
- American College of Neuropsychopharmacology (ACNP), Hawaii, 12-16 December 1978
- American College of Neuropsychopharmacology (ACNP), satellite conference on Genetic Psychiatry Palm Beach, FL, December 9-11, 1979
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 12-14 December 1979; poster sessions presented, “Central Pharmacodynamics of Phenytoin” and “ECT, Mood, and Hormones” (2f)

- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 16-18 December 1980; abstract submitted, “CNS Effects of Clonidine in Normal Volunteers” (2f)

Box 5

- American College of Neuropsychopharmacology (ACNP), San Diego, California, 16-18 December 1981 (2f)
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 15-17 December 1982
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 12-16 December 1983; chaired study group on “Biochemistry of ECT”* (2f)
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 10-14 December 1984
- American College of Neuropsychopharmacology (ACNP), Hawaii, 9-13 December 1985

Box 6

- American College of Neuropsychopharmacology (ACNP), Washington DC, 8-12 December 1986; paper presented, “Electroconvulsive Therapy (ECT) in Affective Disorders”
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 7-11 December 1987; paper presented, “Neuroendocrine Hypothesis of Antidepressant Action of ECT”
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 11-16 December 1988
- American College of Neuropsychopharmacology (ACNP), Hawaii, 10-15 December 1989
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 10-14 December 1990
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 9-13 December 1991
- American College of Neuropsychopharmacology (ACNP). San Juan, Puerto Rico, 14-18 December 1992

- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 12-16 December 1994
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 11-15 December 1995
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 8-14 December 1996
- American College of Neuropsychopharmacology (ACNP), Hawaii, 8-12 December 1997

Box 7

- American College of Neuropsychopharmacology (ACNP), Las Croabas, Puerto Rico, 14-18 December 1998
- American College of Neuropsychopharmacology (ACNP), Acapulco, Mexico, 12-16 December 1999
- American College of Neuropsychopharmacology (ACNP), San Juan, 10-14 December 2000
- American College of Neuropsychopharmacology (ACNP), Waikoloa, Hawaii, 10-14 December 2001
- American College of Neuropsychopharmacology (ACNP), History Committee, 2001-2002
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 8-12 December 2002
- American College of Neuropsychopharmacology (ACNP)/ECT Meeting, Manheim, Germany, December 2002
- American College of Neuropsychopharmacology (ACNP), San Juan, Puerto Rico, 7-11 December 2003
- American College of Neuropsychopharmacology (ACNP), Hollywood, FL, 3-7 December 2006
- American College of Neuropsychopharmacology (ACNP), Boca Raton, FL, 9-13 December 2007
- American College of Neuropsychopharmacology (ACNP), Scottsdale, AZ, 7-11 December 2008

- American College of Neuropsychopharmacology (ACNP), Hollywood, FL, 6-10 December 2009
- American College of Neuropsychopharmacology (ACNP), Symposium Proposal, December 2011
- American College of Neuropsychopharmacology (ACNP), Hollywood, FL, 1-7 December 2012
- American Electroencephalographic Society, 1958-1960; abstracts submitted, “Effect of Anticholinergic Compounds on Post-Convulsive EEG and Behavior”; “EEG and Behavioral Effects of Tofranil” and “Psychologic Variables and Neurophysiologic Responsivity in Convulsive Therapy”
- American Electroencephalographic Society, Atlantic City, NJ, 16 June 1962
- American Electroencephalographic Society, San Francisco, CA, 8 October 1963

Box 8

- American Electroencephalographic Society, Santa Fe, NM, 1-5 Oct 1964; papers presented, “EEG Analysis By Digital Computer I: Development of IBM 1710 System” and “EEG Analysis By Digital Computer II: Relation of Pentothal Induced Changes to Resting Pattern”
- American Electroencephalographic Society, New York, 29 November-1 December 1965; paper presented “The Question of Dissociation of EEG and Behavior with Anticholinergic Agents”
- American Electroencephalographic Society, Atlantic City, NJ, 8-11 June 1967; paper presented, “EEG Classification of Tranquilizers”
- American Electroencephalographic Society, San Francisco, CA, 12-15 September 1968; abstract submitted, “EEG Patterns Associated With Minimal Alterations in Consciousness in Man”
- American Electroencephalographic Society, Washington DC, 17-19 September 1970
- American Electroencephalographic Society, Bloomington, MN, 16-18 September 1971; abstract submitted, “EEG and Clinical Change After Bilateral and Unilateral Electroconvulsive Therapy”
- American Electroencephalographic Society, Houston TX, 12-14 October 1972; chaired workshop, “EEG of Drugs of Abuse”

- American Electroencephalographic Society, Boston, MA, 15-16 June 1973
- American Electroencephalographic Society, Seattle, WA, 25-27 July 1974
- American Electroencephalographic Society, Mexico City, 15-19 October 1975
- American Electroencephalographic Society, Dearborn, MI, 29 September -1 October 1976; abstract submitted, “EEG Effects of Cannabis in Chronic Hashish Users”
- American Electroencephalographic Society, Miami, FL, 22-24 June 1977
- American Electroencephalographic Society, San Francisco, CA, 4-9 September 1978
- American Electroencephalographic Society, Atlanta, GA, 19-21 September 1979
- American Electroencephalographic Society, Boston, MA, 5-7 September 1980; abstract submitted, “A Single Measure of EEG Spectral Differences With Heuristic Value In Assessing Drug Effect”
- American Electroencephalographic Society, Phoenix, AZ, 10-13 November 1982

Box 9

- American Epilepsy Society, New York, 5 December 1963
- American Epilepsy Society, Washington DC, 1 October 1983; paper presented, “Behavioral Effects of Induced Seizures (ECT)”
- American Medical Association (AMA), New York, 13-17 July 1969; paper presented, “Narcotic Antagonists in the Treatment of Opiate Dependence”
- American Medical Electroencephalographic Association (AMEEGA), Cancun, 12-18 March 1986; paper presented, “Pharmacology and EEG”
- American Medical Electroencephalographic Association (AMEEGA), Post-Graduate Course for Psychiatrists and Psychopharmacologists, Savannah, GA, 15-18 October 1987; paper presented, “The Significance of EEG’s Quantification in Psychiatry and Pharmacology”
- American Medical Electroencephalographic Association (AMEEGA), El Paso, TX, 24-25 March, 1988
- American Neuropsychiatric Association (ANPA), Captiva Island, FL, 25-27 January 1990

- American Neuropsychiatric Association (ANPA), Seattle, WA, 29 September 1991
- American Neuropsychiatric Association (ANPA), San Antonio, TX, 26-28 March 1993; paper presented, “Catatonia in a University Psychiatric Service”
- American Neuropsychiatric Association (ANPA), Providence, RI, 21-24 July 1994
- American Neuropsychiatric Association (ANPA), Pittsburgh, PA, 12-15 October 1995
- American Psychiatric Association (APA), 1951-1970
- American Psychiatric Association (APA), Nassau District Branch (Nassau Neuropsychiatric Society), 1953-67; includes correspondence, meeting minutes, and newsletters (2f)
- American Psychiatric Association (APA), Atlantic City, NJ, May 1955; paper presented, “Relation Between Altered Brain Function and Denial to Improvement in Electroshock Therapy”
- American Psychiatric Association (APA), divisional meeting, Montreal, Canada, 8 November 1956; paper presented, “Relation of Tests of Altered Brain Function to Behavioral Change Following Electroshock”
- American Psychiatric Association (APA), roundtable on “Methods of Evaluating Change,”

Chicago, IL, May 1957; paper presented, “Neurophysiologic Contributions to Methods of Evaluating Clinical Change”

- American Psychiatric Association (APA), New York State Divisional Meeting, New York, 15-17 November 1957; abstract submitted, “Behavioral Patterns in Induced States of Altered Brain Function”
- American Psychiatric Association (APA), Western Divisional Meeting, Los Angeles, CA, 20-24 November 1957
- American Psychiatric Association (APA), San Francisco, CA, 13-15 October 1958; abstracts submitted, “Factors Affecting Individual Differences in Behavioral Response to Convulsive Therapy” and “Language Patterns as Measures of Behavioral and Neurophysiologic Change”
- American Psychiatric Association (APA), Southern Divisional Meeting, Miami, FL, 3 December 1958; abstract submitted, “Social Factors Related to Response to Treatment in a Voluntary Mental Hospital”

Box 10

- American Psychiatric Association (APA), Philadelphia, PA, 27 April 1959; paper presented, “Language Patterns as Measures of Behavioral and Neurophysiologic Change”
- American Psychiatric Association (APA), divisional meeting, New York, 27-29 November 1959
- American Psychiatric Association (APA), Atlantic City, NJ, 9-13 May 1960; abstracts submitted, “Brain Damage and Age of Onset of Schizophrenia” and “Significance of Inhalant Induced Convulsions for Theory of the Convulsive Therapy Process”
- American Psychiatric Association (APA), Chicago, IL, 8-12 May 1961; abstract submitted, “Patterns of Behavioral Change and Improvement in Convulsive Therapy”; paper presented, “Staff Attitudes in the Treatment Process”
- American Psychiatric Association (APA), Regional Research Conference on “EEG Correlates of Behavior,” New Haven, CT, 27-28 November 1961; paper presented, “Quantitative Electroencephalography and Human Psychopharmacology, III: Drug Patterns” (2f)
- American Psychiatric Association (APA), Toronto, Canada, 10 May 1962; abstracts submitted, “Imipramine and Schizophrenia” and “Social Factors and Psychiatric Treatment: A Tri-Hospital Comparison”; papers presented, “Appraisal of Prognosis in Psychotherapy” and “Quantitative EEG and Human Psychopharmacology”
- American Psychiatric Association (APA), Section on Brain Function and Behavior, Los Angeles, CA, September 1964
- American Psychiatric Association (APA), New York, 3-7 May 1965
- American Psychiatric Association (APA), Midwestern Divisional Meeting, St. Louis, MO, 8-10 October 1965; papers presented, “Changes in Language, EEG, and Behavior Induced by LSD in Schizophrenic Subjects” and “The Testing of New Drugs for the Mentally Ill: A Public Health Problem”
- American Psychiatric Association (APA), conference on “The Role and Methodology of Classification in Psychiatry and Psychopathology,” Washington, DC, 19-21 November 1965; paper presented, “Neurophysiological Response Strategies in the Classification of Mental Illness”
- American Psychiatric Association (APA), Atlantic City, 9-13 May 1966; abstract submitted, “Cholinergic Aspects of Convulsive Therapy”
- American Psychiatric Association (APA), Detroit, 8-12 May 1967; paper presented, “Digital Computer Analysis of EEG for Psychopharmacology”

- American Psychiatric Association (APA), Boston, 13-17 May 1968; abstracts submitted, “Combination of Drugs in Treatment of Psychosis,” “EEG in the New Convulsive Therapies” and “Acceleration of Imipramine Antidepressant Activity by Thyroid Hormone”
- American Psychiatric Association (APA), Miami Beach, FL, 5-9 May 1969; abstracts submitted, “Very High Dose Fluphenazine Therapy of Psychosis” and “A Cyclazocine Typology in Opiate Dependence”

Box 11

- American Psychiatric Association (APA), San Francisco, 11-15 May 1970; paper presented, “The Biology of Cannabis”
- American Psychiatric Association (APA), Hospital & Community Psychiatry Service, Institute on Hospital and Community Psychiatry, Philadelphia, PA, 21-24 September 1970; paper presented, “Methadone Maintenance: Practical Issues”
- American Psychiatric Association (APA), Middle Atlantic States Divisional Meeting, Newark, NJ, 6-7 November 1970; paper presented, “Biological Frontiers of Psychiatry”
- American Psychiatric Association (APA), Washington DC, 3-7 May 1971; preliminary report presented, “Accelerated Electroconvulsive Therapy”
- American Psychiatric Association (APA), Dallas, TX, 1-5 May 1972; abstract submitted, “Naloxone Pamoate: A Long-Acting Opiate Antagonist”
- American Psychiatric Association (APA), Honolulu, 7-11 May 1973; abstracts submitted, “Duration of Action of Levomethadyl” and “High Dose Cyclazocine Therapy of Opiate Dependence”
- American Psychiatric Association (APA), exhibit, Honolulu, 7-10 May 1973; exhibit, “Drugs, EEG, and Behavior”
- American Psychiatric Association (APA), divisional meeting, New York, 15-16 March 1974
- American Psychiatric Association (APA), Detroit, 6-10 May 1974; abstract submitted, “Chronic Hashish Use and Mental Disorder”
- American Psychiatric Association (APA), Anaheim, CA, 5-9 May 1975; abstract submitted, “EEG Blood Level Relations of Psychoactive Drugs”
- American Psychiatric Association (APA), Miami, FL, 10-14 May 1976; abstract submitted, “Electroconvulsive Therapy: Current Perspectives”; paper presented, “Myths

of Shock Therapy”

- American Psychiatric Association (APA), Toronto, Canada, 2-6 May 1977
- American Psychiatric Association (APA), Atlanta, GA, 8-12 May 1978
- American Psychiatric Association (APA), Area II Meeting, New York, 4-5 November 1978
- American Psychiatric Association (APA), Chicago, 14-18 May 1979; course abstract submitted, “Electroconvulsive Therapy in Theory and Practice”
- American Psychiatric Association (APA), San Francisco, CA, 3-9 May 1980
- American Psychiatric Association (APA), Toronto, Canada, 15-21 May 1982; paper presented, “Seizure Time in ECT Monitored by “Cuff” EEG Methods”

Box 12

- American Psychiatric Association (APA), New York, 30 April-6 May 1983; paper presented, “Risk Reduction in ECT: An Educational Goal”
- American Psychiatric Association (APA), Los Angeles, 5-11 May 1984
- American Psychiatric Association (APA), Dallas, TX, 18-24 May 1985
- American Psychiatric Association (APA), Bioavailability Symposium, Pharmacology-EEG Presentation (Freedman/Itil), 19 May 1985; paper presented, “Pharmacodynamic Measurements on Bioavailability”
- American Psychiatric Association (APA), Washington DC, 10-16 May 1986
- American Psychiatric Association (APA), Chicago, IL, 9-15 May 1987
- American Psychiatric Association (APA), Montreal, Canada, 7-12 May 1988
- American Psychiatric Association (APA), San Francisco, CA, 6-14 May 1989
- American Psychiatric Association (APA), New York, 12-17 May 1990
- American Psychiatric Association (APA), New Orleans, LA, 11-16 May 1991

Box 13

- American Psychiatric Association (APA), Washington DC, 2-7 May 1992; course presented, “ECT Clinical Practice: Consultant’s Experience”
- American Psychiatric Association (APA), San Francisco, CA, 22-27 May 1993; course presented, “ECT: A Research Update”
- American Psychiatric Association (APA), Philadelphia, 21-26 May 1994; abstracts submitted, “Should Catatonia Be Recognized as a Separate Entity in DSM-IV?” and “ECT Treatment in Refractory Depression”; includes two audio cassettes (2f)
- American Psychiatric Association (APA), Miami, FL, 20-25 May 1995; paper presented, “A Role for ECT in Treating Therapy-Resistant Depression?”
- American Psychiatric Association (APA), Institute on Psychiatric Services, Boston, 8 October 1995
- American Psychiatric Association (APA), New York, 4-9 May 1996; abstract submitted, “Changes in Clinical Usage of ECT”; includes two audio cassettes
- American Psychiatric Association (APA), San Diego, CA, 17-22 May 1997
- American Psychiatric Association (APA), Toronto, Canada, 30 May-4 June 1998 ; includes two audio cassettes
- American Psychiatric Association (APA), Washington DC, 15-20 May 1999

Box 14

- American Psychiatric Association (APA), Chicago, IL, 13-18 May 2000; includes two audio cassettes
- American Psychiatric Association (APA), Catatonia Symposium, Chicago, IL, 17 May 2000; includes audio cassette
- American Psychiatric Association (APA), New Orleans, LA, 7-8 May 2001; includes three audio cassettes
- American Psychiatric Association (APA), Institute on Psychiatric Services, New York, 10 October 2009
- American Psychiatric Electrophysiology Association (APEA), San Francisco, CA, 22 May 1993
- American Psychiatric Electrophysiology Association (APEA), Philadelphia, 20-21 May 1994

- American Psychiatric Electrophysiology Association (APEA), San Diego, 17-18 May 1997
- American Psychological Association (APA), New York, September 1954; paper presented, "Alteration in Tactile Performance as an Index of Brain Function"
- American Psychological Association (APA), New York, August 1957; paper presented, "Perception of Embedded Figures After Induced Cerebral Trauma"
- American Psychological Association (APA), New York, 2-6 September 1966; paper presented, "The Scalp Recorded Averaged Evoked Response to Simultaneous Cutaneous Electrical Stimulation"
- American Psychopathological Association (APPA), New York, 3-4 June 1955
- American Psychopathological Association (APPA), New York, 1-2 June 1956
- American Psychopathological Association (APPA), 1960
- American Psychopathological Association (APPA), New York, 21-23 February 1963

- International Brain Research Organization (IBRO), Committee for International Collaboration, 1974-1977; correspondence concerning IBRO and the American EEG Society
- International Cannabis Conference, 1970; proposal
- International Conference on New Directions in Affective Disorders, Jerusalem, 5-10 April 1987
- International Conference on New Directions in Affective Disorders, Jerusalem, 3-8 September 1995; abstracts submitted, “The Rediscovery of Catatonia” and “Convulsive Therapy: New Uses”

- International Conference on Refractory Depression, Philadelphia, PA, 6-7 October 1988; paper presented, “A Trial of ECT Is Essential to the Diagnosis of Refractory Depression”
- International Conference on Refractory Depression, Napa, CA, 18-21 October 1995
- International Congress of Chemotherapy, Vienna, Austria, 26 June-1 July 1967
- International Congress of Child Neurologists of Mediterranean, Piran, Slovenia, 14-17 September 2011

Box 33

- International Congress of Electroencephalography and Clinical Neurophysiology, Vienna, Austria, 5-10 September 1965; paper presented with D. Shapiro, “Comparison of Various Digital Computer Methods for EEG Analysis” (2f)
- International Congress of Electroencephalography and Clinical Neurophysiology, San Diego, CA, 13-19 September 1969; abstracts submitted, with J. Roubicek, J. Volavka, A. Zaks and A.M. Freedman “EEG Changes of Opiate Antagonists,” with T. Itil and D.M. Shapiro, “Quantitative EEG Analyses of Drug-Induced Alterations in Consciousness in Man” and with D.M. Shapiro “EEG Patterns as an Index of Clinical Activity of Psychoactive Drugs”
- International Congress of Electroencephalography and Clinical Neurophysiology, Marseilles, France, 1-7 September 1973
- International Congress of Electroencephalography and Clinical Neurophysiology, Amsterdam, 4-9 September 1977; paper presented, “EEG and Psychopharmacology”
- International Congress of Neuropsychiatry, Athens, Greece, 14-18 October 2004; paper presented, “Catatonia: A Syndrome with Many Faces”
- International Congress of Neuropsychopharmacology, Tihany, Hungary, 6-8 October 2005; paper presented, “Once Upon a Time in Hungary...”*
- International Congress of Psychiatry, Zurich, Switzerland, 1-7 September 1957; paper presented, “Therapy of Schizophrenia: Role of Alteration in Brain Function on Behavior”
- International Congress of Psychology, Brussels, Belgium, 28 July-3 August 1957; paper presented with R.L. Kahn and H. Korin, “Effect of Diffuse Altered Brain Function on Perception”
- International Congress of Psychology, Moscow, Russia, 4-11 August 1966; abstract submitted with T. Itil, “Behavior and Quantitative EEG Changes Induced by Hallucinogenic Drugs”

- International Congress on Gastroenterology, Hamburg, Germany, 8 June 1980; paper presented with P. Irwin, “EEG and Behavioral Effects of Pirenzepine in Normal Volunteers”

Box 34

- International Congress on Hormones, Brain and Neuropsychopharmacology, Rhodes, Greece, 15-19 July 2000; abstract submitted, “A Neuroendocrine View of Convulsive Therapy”
- International Federation of Societies for Electroencephalography and Clinical Neurophysiology, International Course in EEG Data Processing, Paris, France, 29 August-2 September 1977; paper presented, “Quantitative EEG Analysis and Psychopharmacology”
- International Health Foundation, Workshop, “The Brain as an Endocrine Target Organ in Health and Disease,” Bordeaux, France, 4-5 October 1979; paper presented, “ECT, Mood and Hormones”
- International Meeting of Medical Advisers in the Pharmaceutical Industry (IMMAPI), Florence, Italy, 12-15 October 1975; abstract submitted with P. Irwin and M. Gastpar, “Pharmacokinetic Analysis of Quantitative EEG Data”
- International Meeting on the Techniques for the Study of Psychotropic Drugs, Bologna, Italy, 26-27 June 1960; led discussion of M. Monnier’s “Techniques” Electroencephalographiques et Techniques d’Investigation des Activités Synaptiques et Neuroniques Cerebrales”
- International Neuropsychiatric Association (INA)-World Federation of Societies of Biological Psychiatry (WFSBP), “Dual Congress on Psychiatry and the Neurosciences,” Thessaloniki, Greece, 18-21 November 2010; presentations given, “Resurrecting Melancholia” and “Catatonia: The Treatable But Ignored Motor Dysregulation Syndrome”
- International Neuropsychological Society (INS), New York, 31 January-3 February 1979
- Pharmaco-EEG Study Group (IPEG), 1977; includes questionnaires, which were completed by doctors, concerning EEG equipment
- Pharmaco-EEG Study Group (IPEG), Symposium “Latest Advances in Pharmaco-Encephalography,” Basle, Switzerland, 16-21 July 1978; abstract submitted with P. Irwin, “Pitfalls in the EEG Analysis of Drugs: Clozapine and Diphenylhydantoin”
- Pharmaco-EEG Study Group (IPEG), Berlin, Germany, 27-29 June 1980; abstract submitted, “Significance of Quantitative Pharmaco-EEG in Establishing Dose-Time Relations in Clinical Pharmacology”; paper presented with P. Irwin, “Do Psychoactive

Drugs Affect EEG From the Cerebral Hemispheres Differently?"

- Pharmacology-EEG Study Group (IPEG), Berlin, Germany, 20 October 1980; includes documentation and correspondence on EEG standards and guidelines

Box 35

- Pharmacology-EEG Study Group (IPEG), 1981; correspondence, reports and EEG guidelines
- Pharmacology-EEG Study Group (IPEG), 1982-1983; correspondence and organizational documents
- International Pharmacology EEG Group (IPEG), Hannover, Germany, 1-3 June 1982; abstracts submitted with P. Irwin, "Left-handers Have Greater Brain Responses to Drugs" and "Pharmacology-EEG Study of 6-Azamianserin (Org 3770)"
- International Pharmacology EEG Group (IPEG), Vienna, Austria, 1-2 June 1984; paper presented, "Pharmacology-Electroencephalography: A Note on its History"
- International Pharmacology EEG Group (IPEG), Munich, Germany, 8 November 1984
- International Pharmacology EEG Group (IPEG), Genoa, Italy, 5-7 June 1986 (2f)
- International Pharmacology EEG Group (IPEG), Goteborg, Sweden, 25-30 June 1990; paper presented, "Pharmacology-Electroencephalography: A Forgotten Science" (2f)

- University of Michigan, International Conference on Drug Abuse, Ann Arbor, MI, 9-13 November 1970; paper presented, “Opiate Antagonists and Heroin Dependence”
- University of Michigan, Department of Psychiatry, Grand Rounds and Major Conference Series, Ann Arbor, MI, 19 January 1989*
- University of Michigan Medical School, Grand Rounds, Ann Arbor, MI, 19 February 2003”
- University of Missouri, Columbia, MO, and Greater Kansas City Mental Health Center, Kansas City, MO, 7-8 October 1964; survey for Dr. Gildea
- University of Missouri, School of Medicine, Columbia, MO, 23 April 1965
- University of New Mexico School of Medicine, Department of Psychiatry Conference Series, Albuquerque, NM, 25 May 1990
- University of Rochester School of Medicine and Dentistry, post graduate course in clinical pharmacology, 29 October-2 November 1979

- University of Rochester, School of Medicine and Dentistry, CME Course on “Management of Bipolar Disorder,” Rochester, NY, 6 May 1995; paper presented, “The Role of ECT in the Treatment of Bipolar Disorder”

Box 54

- University of Southern California, School of Medicine, Los Angeles, CA, 16 February 1988*
- University of Texas Medical Branch, Galveston, TX, ECT Tutorial, 23-24 July 1996
- University of Toronto, Symposium on “The Social Sources of Psychopharmacology,” 25-26 February 2003; paper presented, “Academia and Electroshock: an Embarrassing Relationship”
- University of Toronto, Symposium on “The Social Sources of Psychopharmacology, Part II -The University in Crisis,” Toronto, Canada, 28-29 April 2005; paper presented, “Fifty Years a Shock-Doc: Reflections on Academic Psychiatry”
- University of UMEA, Symposium on Clinical-Neurophysiological Aspects of Psychopathological Conditions, Umea, Sweden, 30 May-1 June 1979
- University of Utah, Department of Psychiatry, Grand Rounds, Salt Lake City, 21 October 1996; abstract submitted, “Convulsive Therapy: a Mode of Action”
- University of Vermont, College of Medicine, Grand Rounds, Burlington, VT, 14 October 1980
- University of Washington School of Medicine, CME Conference, “New Directions in Psychiatry,” Sun Valley, ID, 22-24 June 1978; outline of presentation, “New Directions in Convulsive Therapy”
- University of Western Ontario, London Psychiatric Hospital, London, Ontario, 13-14 September 1989
- Upjohn Co., Symposium, “Psychopharmacology and Aging,” Augusta, MI, 7-9 September 1980
- Vanderbilt University, Department of Psychiatry, Grand Rounds, Nashville, TN, 25-26 October 2006; abstract submitted, “The Inside Skinny on Electroshock: For Whom is it Useful?”
- Veterans Administration, Annual Meeting of Chemotherapy in Psychiatry, Kansas City, MO, 25-27 March 1963

- Veterans Administration, Conference on Drug Dependence Treatment Units, Silver Spring, MD, 6-8 June 1971
- Veterans Administration, Cooperative Studies in Psychiatry, Cincinnati, OH, 29 March 1962; paper presented with D. Klein, “Rating Scales as Behavioral Change Measures in Psychopharmacology”
- Veterans Administration, Cooperative Studies in Mental Health and Behavioral Sciences, Conference, St. Louis, MO, 13-15 March 1972
- Veterans Administration, Merit Review Board in Behavioral Sciences, Washington DC, 8-9 November 1979; includes reviews of grant applications*
- Veterans Administration, Merit Review Board in Behavioral Sciences, Washington DC, 9-10 April 1980; includes reviews of grant applications*
- Veterans Administration, Brooklyn Medical Center, Grand Rounds, Brooklyn, NY, 28 March 1986
- Veterans Administration, Franklin Delano Roosevelt Hospital, Montrose, NY, 30 June 1995*
- Veterans Administration Hospital, and the Louisville Area Mental Health Center, Louisville, KY, 19 May 1964; lecture and seminar on EEG
- Veterans Administration Hospital, Jefferson Barracks, St. Louis, MO, 18 May 1965
- Veterans Administration Medical Center, Neuroscience Seminar, Providence, RI, 21 March 1983*
- Veterans Administration Medical Center, New York, 9 August 1984; lecture on Electroconvulsive Therapy*
- Veterans Administration Medical Center, North Chicago, IL, 16 May 1984; paper presented, “Meduna and the Origins of Convulsive Therapy”*
- visits to several institutions, Istanbul, Turkey, 1968

Box 55

- Walter Reed Army Medical Center, Grand Rounds, Washington DC, 4 February 1993
- Walter Reed Army Medical Center, Grand Rounds, Washington DC, 9 December 1993; abstract of presentation, “Continuation/Maintenance ECT”

- Werkgroep ECT Nederland (WEN), Slot Zeist, Netherlands, 28 April 1995; paper presented, “The Mode of Action of ECT”
- Western-Central EEG Society, and Western Institute on Epilepsy, Phoenix, AZ, 20-22 February 1964
- Western-Central EEG Society, Aspen, CO, 12-15 March 1970; abstract submitted, with J. Volavka, A. Zaks and J. Roubicek, “Electrographic Effects of Diacetylmorphine (Heroin) and Naloxone in Man”
- Western Institute of Drug Problems, Summer School, Portland, OR, 12-16 August 1968
- Western Psychiatric Institute and Clinic, University of Pittsburgh School of Medicine, Pittsburgh, PA, Symposium on “Modern Psychiatry’s Search for Somatic Treatments,” Pittsburgh, PA, 11 March 1995
- Winter Conference on Brain Research (WCBR), Aspen, CO, 12-17 January 1969
- Winter Conference on Brain Research (WCBR), Aspen, CO, 25-30 January 1970
- Winter Conference on Brain Research (WCBR), Aspen, CO, 16-22 January 1971; abstract submitted, “Association of EEG and Behavior with Psychoactive Drugs in Alert Man”
- Winter Conference on Brain Research (WCBR), Vail, CO, 15-23 January 1972
- Winter Conference on Brain Research (WCBR), Vail, CO, 13-19 January 1973
- Winter Conference on Brain Research (WCBR), Steamboat Springs, CO, 19-26 January 1974
- Winter Conference on Brain Research (WCBR), Steamboat Springs, CO, 18-25 January 1975
- Winter Conference on Brain Research (WCBR), Keystone, CO, 17-24 January 1976
- Winter Conference on Brain Research (WCBR), Keystone, CO, 21-28 January 1978
- World Congress of Biological Psychiatry (WCBP), Buenos Aires, Argentina, 24-28 September 1974; abstract submitted, “Cerebral Electrometry: Defining CNS Effects of Drug Therapies in Man”
- World Congress of Biological Psychiatry (WCBP), Barcelona, Spain, 31 August-6 September 1978

Box 56

- World Congress of Biological Psychiatry (WCBP), Stockholm, Sweden, 28 June-3 July 1981; includes notes and correspondence for a Symposium on the Present Status of Convulsive Therapy,” organized by Dr. Fink for this congress (2f)
- World Congress of Biological Psychiatry (WCBP), Philadelphia, PA, 8-13 September 1985
- World Congress of Biological Psychiatry (WCBP), Athens, Greece, 13-19 October 1989
- World Congress of Biological Psychiatry (WCBP), Florence, Italy, 9-14 June 1991
- World Congress of Biological Psychiatry (WCBP), Berlin, Germany, 1-6 July 2001
- World Congress of Psychiatry, Montreal, Canada, 4-10 June 1961; includes organizational papers submitted for symposium, “EEG and Human Psychopharmacology” held at the congress (2f)

Box 57

- World Congress of Psychiatry, Montreal, Canada, 4-10 June 1961; includes organizational papers submitted for symposium, “EEG and Human Psychopharmacology” held at the congress; abstract submitted with K. Andermann, “EEG Changes on Acute and Chronic Administration of Chlorpromazine and Imipramine” (2f)
- World Congress of Psychiatry, Madrid, Spain, 5-11 September 1966; abstracts submitted, “Cholinergic Aspects of the Treatment of Depressive Disorders”; with D. Shapiro, “Computer Analysis of EEG for Psychopharmacology” and, with T. Itil, J.M.C. Holden and A. Keskiner, “The Problem of Organic Brain Syndrome in the Treatment of Psychosis”; paper presented, “Impact of Quantitative Electroencephalography in Psychopharmacology”; led “discussion of the symposium ‘New Trends in Psychopharmacology’”
- World Congress of Psychiatry, Mexico City, 28 November-4 December 1971; abstract submitted, “Psychoactive Drugs, Brain Function and Human Behavior”; paper presented, “Psychoactive Drugs, Brain Function, and Human Behavior”
- World Congress of Psychiatry, Honolulu, Hawaii, 28 August -3 September 1977; abstract submitted, “EEG Measures for Pharmacodynamic Analysis of Psychoactive Drugs in Man”
- World Congress of Psychiatry, Vienna, Austria, 11-16 July 1983
- World Congress of Psychiatry, Hamburg, Germany, 6-11 August 1999; abstract submitted, “Catatonia: Recognition and Treatment”

- World Federation of Biological Psychiatry, II International Symposium “Clinical Neurophysiological Aspects of Psychopathological Conditions,” Capri, Italy, 23-26 September 1980; abstract submitted with P. Irwin, “Do Psychoactive Drugs Affect Homologous Cerebral Regions Differently?”
- World Federation of Societies of Biological Psychiatry (WFSBP), ECT Task Force, 2001-2002

Box 58

- World Federation of Societies of Biological Psychiatry (WFSBP), ECT Task Force, 2003
- World Federation of Societies of Biological Psychiatry (WFSBP), International Congress, Symposium of the ECT Task Force, Sydney, Australia, 9-13 February 2004
- World Federation of Societies of Biological Psychiatry (WFSBP), 30th Anniversary Celebration, Buenos Aires, Argentina, 1 November 2004; paper presented, “Is the Practice of ECT Ethical?”
- World Federation of Societies of Biological Psychiatry (WFSBP), World Congress of Biological Psychiatry, Prague, Czech Republic, 29 May-2 June 2011, abstract submitted, “Catatonia: History and Recommendation for a ‘Home of its Own’ in the Psychiatric Classification”*
- World Psychiatric Association (WPA), 1982-1983
- World Psychiatric Association (WPA), Regional Symposium, Athens, Greece, 13-17 October 1985; paper presented, “Neuroendocrine Measures and ECT Outcome”
- World Psychiatric Association (WPA), Regional Symposium, Copenhagen, Denmark, 19-22 August 1986; abstract submitted, “DST and the Outcome to ECT in Depressed Patients”
- World Psychiatric Association (WPA), Florence, Italy, 10-13 November 2004
- World Psychiatric Association (WPA), Istanbul, Turkey, 12-16 July 2006
- World Psychiatric Association (WPA), Regional Meeting, New York, 30 October-3 November 1981; paper presented, “Classification of Psychotropic Drugs by Quantitative EEG”
- World Psychiatric Association (WPA), regional meeting with the Mexican Psychiatric Association, Guadalajara, Mexico, 28-31 October 1998; abstract submitted, “The Inter-ictal EEG in Electroshock”

- World Psychiatric Association (WPA), section meeting on Biological Psychiatry, Bombay, India, 8-10 January 1996
- York University, conference, “New Directions in Depression Research,” Toronto, Canada, 22-25 October 1987; abstract submitted, “Research Issues in Convulsive Therapy”
- Yugoslav Psychopharmacological Symposium, Zagreb, Yugoslavia, 24-26 April 1969; abstract submitted, “Classification of Antipsychotic Drugs by EEG Criteria”

Box 59

- audio cassettes from presentations at the Carrier Foundation meeting, Belle Mead, NJ, 16-17 April 1985 (11 audio cassettes from Box 21)

Box 60

- peer reviews of manuscripts*
- correspondence

Files received in 2019:

- “Immunization Against Drug Addiction,” transcript, WNBC television, August 1970
- Untitled conference at Stony Brook University, March 1998
- Retirement from Stony Brook University, 1997
- “Many Streams Lead from a Catatonia River,” Belmont, Ma, McLean Hospital, March 23, 2018
- Catatonia talk (Skype), Yale University, June 27, 2018
- “Recognizing Catatonia Saves Lives,” Grand Rounds, Dartmouth, September 11, 2018
- “Recognizing Catatonia Saves Lives,” Grand Rounds, New York Medical College, September 18, 2018
- “The Madness of Fear,” Grand Rounds, Stony Brook, September 25, 2018

VIII. Box and Folder Inventory

SERIES 7: MEDICAL LITERATURE FILES [89 BOXES; 37 LINEAR FT.]

- **Sub-series 1: Files by Accession Number [boxes 1-41]**
- **Sub-series 2: Files Maintained by Subject [boxes 42-75]**
- **Sub-series 3: Shelf List Cards [boxes 76-89]**

SERIES 7: MEDICAL LITERATURE FILES

Sub-series 1: Files by Accession Number [boxes 1-42]

Box 1

0001: Physiodynamic Therapy (Shock Therapy)

0002: Experience with Reiter Type of Electric Coma at the Boston Psychopathic Hospital

0003: Electricity as a Pathogenetic Agent in the Central Nervous System

0004: Minor Neurologic Signs and Symptoms Following Insulin Coma Therapy

0005: Analog Analysis of EEG Activity

0006: Pharmacotherapy of Schizophrenia

0007: Slow Wave Production in the EEG, with Reference to Hyperpnoea, Carbon Dioxide and Autonomic Balance

0011: The Effects of Electric Convulsive Therapy on the Functioning of Mental Patients: A Symposium

0012: Strangulation of a Diaphragmatic Hernia as a Complication of Electric Shock Therapy

0014: Psychotherapy in a Private Mental Hospital

0015: Changes in the Electroencephalogram Associated with Hypopituitarism Due to Post-Partum Necrosis

0016: The Present Status of Research on Dementia Praecox

0017: Insulin and Chlorpromazine in Schizophrenia

0019: La Perfenazina Nel Trattamento Delle Nevrosi E Delle Sindromi Depressive: Rilievi Semeiotici E Psicopatologici

0020: An Investigation into the Part Played by Organic Factors in Childhood Schizophrenia—Employing a Comparative Study of Cases and Their Non-Schizophrenic Siblings

0021: Comparison of Two Drugs with Psychotomimetic Effects (LSD and Ditran)

0022: Absorption and Excretion of Chlorpromazine Given in Different Oral Dosage Forms

0023: Glutethimide

0024: Some Aspects of Chlorpromazine Treatment with Reference to the Problem of Depression

0025: Alpha Blocking and Autonomic Responses in Neurological Patients

0026: Psychiatric Drugs and Treatment in Pregnancy

0027: Paroxysmal EEG Activity and Cognitive-Motor Performance

0032: Cortical Inhibition in Expressive Aphasia

0033: Thorazine and Depression

0034: References on the Use of Phenothiazine in Depression
0035: NonConvulsive Electro-Stimulation in Insulin Coma
0036: Anxiety Depression, and the Photically Driven Electroencephalogram
0037: PsychoTherapy and the Physical Methods of Treatment in Psychiatry
0038: On the Validity of the Rorschach Test in the Diagnosis of Intracranial Damage and Pathology
0039: A Psychoanalytic Contribution to the Study of Brain Function
0040: Some Notes on Repression and on Ego Integrity in Organic Disease
0044: Clinical Results with Viadril in One Thousand Cases
0045: Prolonged Administration of Chlorpromazine (Thorazine) Hydrochloride
0046: The Use of Methyprylon as an Aid in Obtaining Electro-Encephalograms in Alcoholics
0047: A Comparison of Oral and Rectal Chloral Induced Sleep in Clinical Electroencephalography
0048: A Critique of Antidepressants
0049: Chlorpromazine as a Therapeutic Agent in Clinical Medicine
0050: The Major Complications of Treatment of Psychotic States with Chlorpromazine and Reserpine and Their Management
0053: Chlorpromazine in the Treatment of Mental Illness III: The Problem of Depression
0054: Drug-Induced Depression—Fact or Fallacy
0055: Treatment of Psychotic States with Chlorpromazine
0056: Chemotherapy of Depression - Use of Meprobamate Combined with Benactyzine (2-Diethylaminoethyl Benzilate) Hydrochloride
0057: The Treatment of Depression with Desoxyephedrine
0058: A Clinical Trial of Amitriptyline in Depressive Patients
0059: The Use of Chlorpromazine to Facilitate Intensive Dynamic Psychotherapy in Depression
0060: Anti-Depressant Effect of Certain Phenothiazine Combinations
0061: Imipramine and Thioridazine in Depressed and Schizophrenic Patients
0062: An Electroencephalographic Examination of the Effects of Megimide and Daptazole in Barbiturate Marcosis
0063: A Psychodynamic Study of a Patient during Experimental Self-Regulated Re-Addiction to Morphine
0064: The Discriminating Function of the EGD
0065: Psychological Implications of the “Activating System”
0066: Obesity: The Problem and Treatment
0067: The Hillside Short Form of the Wechsler Bellevue
0068: Developments in the Concept of Psychopathic Personality (1900-1950)
0069: Some Theoretical and Practical Aspects of the Diagnosis of Early and Latent Schizophrenia by Means of Psychological Testing
0070: House-Tree-Person and Human Figure Drawings

Box 2

- 0072: The Effect of Subject Sex, Verbal Interaction and Topical Focus on Speech Disruption
- 0073: A Mechanism in Schizophrenia
- 0074: The Use of Electroencephalography in Differentiating Psychogenic Disorders and Organic Brain Diseases
- 0075: Pathology of the Energy System: An Experimental-Clinical Study of Physiological Adaptive Capacities in a Non-Patient, a Psycho-Neurotic, and an Early Paranoid Schizophrenic Group
- 0076: A Comparative Evaluation of Latent Schizophrenic and Overt Schizophrenic Patients with Respect to the Concept of Ego Strength and to Certain Personality Variables
- 0077: Trattamento Dell'Ansia, Dell'Agitazione, Dell'Eccitamento E Della Depressione Nei Soggetti Di OHre 60 Anni Con un Nvovo Derivato Delle Fenotiazine: La Levomepromazina
- 0078: The Antidepressant Drugs in an Outpatient Setting
- 0079: Spectrophotofluorometric Determination of Low Concentrations of Amobarbital in Plasma
- 0080: Autonomic Function in Depression: A Modified Methacholine Test
- 0082: Electrolytes and Depressive Illness
- 0083: Cortisol Secretion Rate in Depressive Illness
- 0084: Serial Biochemical, Clinical and Electroencephalographic Studies in Affective Illness
- 0085: Psychosomatic Medicine and the Brain-Mind Relations
- 0086: Differentiation between Anxiety and Depression by the Photically Activated Electroencephalogram
- 0087: When Physical Therapy (Shock) Facilitates Psychotherapy
- 0088: The Peripheral Spinal Nerves
- 0089: The Funkenstein Test-A Review of the Literature
- 0090: Respiration and the Cerebrospinal Fluid
- 0091: Pharmacokinetics of Inhalational Anaesthetics
- 0092: Experimental and Clinical Aspects of Drug Toxicity
- 0093: Psychophysiological Correlates of Personality Test Variables and Some Properties of Auditory Stimuli
- 0094: La Thioridazine dans le Traitement des États Dépressifs
- 0095: Mescaline, Lysergic Acid Diethylamide and Psilocybin: Comparison of Clinical Syndromes, Effects on Color Perception and Biochemical Measures
- 0096: Clinical, Biochemical and Psychologic Effects of Psilocybin
- 0097: Medical Research
- 0098: Computers in Biology and Medicine
- 0099: An Experimental Approach to Facilitation or Psychotherapy by Psychotomimetic Drugs
- 0100: Deaths Associated with Steroid-Hormone Therapy
- 0101: A Clinical Analysis of the Effects of Tofranil in Depression
- 0102: Nervous Forms of Infectious Mononucleosis

0103: Report on Narcotic Addiction
0105: Extrapyramidal Effects of Tranquillisers
0106: A Survey of Drug-Induced Extrapyramidal Reactions
0107: Mecamylamine in Treatment of Hypertensive Disease
0108: Drug Therapy (Mecamylamine) of Hypertension: III, Results with Mecamylamine, a Completely Absorbed Ganglionic Blocking Agent
0109: Effect of Chlorpromazine in Aminopyrine-Induced Analgesia
0110: Effects of Separation Early in Life
0111: Anxiety and Performance Changes with a Minimal Dose of Epinephrine
0112: Patterns of Orientation in Children in Residential Treatment for Severe Behavior Disorders
0114: Pseudoneurotic Syndrome in Patients with Brain Tumors
0115: Benign Intracranial Hypertension
0116: Adrenocortical Function in Schizophrenia
0117: Electroencephalographic Changes in Man Correlated with Blood Alcohol Concentration and Some Other Conditions Following Standardized Ingestion of Alcohol
0118: Subjective Evaluation and Reinforcing Effect of a Verbal Stimulus
0120: Electroencephalographic Findings in Cases of Bromide Intoxication
0121: Delirium, Electroencephalographic Changes Associated with Acute Alcoholic Intoxication
0122: Effect of Depressive Disorders on Sleep EEG Responses
0123: A Comparison of Doctor and Patient Improvement Ratings in a Double-Blind Drug Trial
0124: The Value of Non-Verbal Communication in Personality Understanding
0125: Therapeutic Results with Chlorpromazine (Largactil) in Psychiatric Conditions
0126: The Depression Rating Scale
0127: Psychopharmacologic Study of Schizophrenia and Depression
0128: Clinical and Electroencephalographic Studies
0129: The Chemistry of Human Behavior
0130: Synchrony and Voltage in the EEG of Schizophrenics
0131: Klinische Erfahrungen mit Thioridazin (Melleril-Sandoz) anhand von 202 fallen, zugleich ein Beitrag zur Problematik der Behandlung endogener Depressionen
0132: Behavioral Effects of Imipramine and Phenothiazines; Implications for a Psychiatric Pathogenetic Theory and theory of Drug Action
0133: Observations on Organic Brain Damage and Clinical Improvement Following Protracted Insulin Coma

Box 3

0134: Comparison of three Psychotropic Drugs (Psilocybin, JB-329 and It-290) in Volunteer Subjects
0135: Drug-Induced Psychoses and Schizophrenic Reactions: A Critical Comparison
0137: Incidence of Seizures, with EEG Findings in Prefrontal Lobotomy
0138: A Guide to the Shock Therapies

0139: Changing Status of Electroencephalography in Neurologic Practice
0141: Phenothiazine Produced Extra-Pyramidal System Disturbance
0142: Thyroid Indices in Chronic Schizophrenia
0143: Psychological Changes during the First Year Following Prefrontal Lobotomy
0144: Recent Advances in the Study of Stress
0145: Stress: Experimental Background and Clinical Application
0146: Objective Criteria for the Diagnosis of Schizophrenia
0147: An EEG Assessment of Encephalopathy in Parkinsonism
0148: Treatment of Enuresis
0149: An Experimental Approach to the Prediction of Success with Electrochock Therapy, By Symptoms and Related-Factors
0150: Some Psychological Test Correlates of Sedation Threshold
0151: Arteriography in Diagnosis of Subdural Haematoma
0152: A Central Homeostatic Mechanism in Schizophrenia
0153: Trifluoperidol: A Butyrophenone Derivative
0154: Psychological Functions during Wave-Spike Discharge
0155: Electric Convulsive Therapy After Ten Years of Pharmacotherapy
0156: Toxic Effects of Monoamine-Oxidase Inhibitors
0158: Seizures in Psychotic Children
0159: Thyrotoxic Periodic Paralysis
0160: Low-Frequency Analyzers in Electroencephalography
0161: Death Associated with Tranylcypramine and Cheese
0162: A New Adrenergic Beta-Receptor Antagonist
0163: Mental Symptoms from Rauwolfia
0164: Serotonin Metabolism
0165: Current Status of Major Tranquilizers
0166: A "Double Blind" Study Comparing RO 4-0403, Trifluoperazine and a Placebo in Chronically Ill Mental Patients
0167: Mode of Action of Rauwolfia Derivatives in Schizophrenic States
0168: The Relation of Age to Metrazol Activated EEGs
0169: Photogenic Epilepsy: Parameters of Activation
0170: Telephone Telemetry of Bioelectric Information
0171: Therapeutic Process in Electroshock and the Newer Drug Therapies
0172: Chlorpromazine and Insulin in Psychiatry
0173: The Effects of Imipramine (Tofranil) on Depressive States
0174: Prevention of Psychiatric Illness
0175: Emotional Factors in Gastrointestinal Disorders
0176: Cutaneous Sensitivity Reactions to Chlorpromazine
0177: Preliminary Observations on Use of Frenquel in Hospital Psychiatry
0178: Alteration of Copper Metabolism in Chlorpromazine-Treated Cases

0179: Preliminary Report on 18 Months Experience with Chlorpromazine at the Yankton State Hospital, Yankton, South Dakota
0180: Effect of Chlorpromazine on Convulsions of Experimental and Clinical Tetanus
0181: Effect of Ach and GABA on Septal Dysrhythmia and Psychotic Behavior Evoked with Hippocampal Stimulation in Man
0183: An Effect of Meprobamate Withdrawal in Rats
0184: Utilization of Phenyltoloxamine as Daytime Sedative or Tranquilizer
0185: Amitriptyline in Depression
0186: A New Drug to Relieve Anxiety
0187: Der Einfluss eines Vitamin-Kombinationspräparates auf die altersbedingte Reaktionsverlangsamung
0188: Atropine in Mongolism
0189: Orphenadrine for Parkinsonism
0190: Toward a New Conception of Schizokinesis or Anatomy of the CR
0191: Classical Conditioning of the Galvanic Skin Response in Chronic Schizophrenia
0192: Electrodermal Conditioning: What Is Learned
0193: Non Blind Placebo Trial: An Exploration of Neurotic Patients' Responses to Placebo When Its Inert Content Is Disclosed
0194: Sex and Differences in Schizophrenic Prognosis
0195: Differential Prediction of Improvement under Three Phenothiazines
0196: Progaracaine Hydrochloride
0197: Brain Lesion after Burns
0198: Diagnosis and Differential Diagnosis of Wilson's Disease
0199: Cerebral Palsy: Clinical Survey of 543 Cases

Box 4

0200: Allergenicity of Tranquilizing Drugs
0201: Role of Tranquilizing Drugs in Allergy
0202: Darenthin Hypotensive Agent of New Type
0203: Psychological Functions during Wave-Spike Discharge
0204: The Relationship between Generalized Paroxysmal EEG Discharges and Various Test Situations in Two Epileptic Patients
0205: The Ataractic Drugs: The Present Position of Chlorpromazine, Frequel, Pacatal, and Reserpine in the Psychiatric Hospital
0206: Abdominal Pain Following Use of Chlorpromazine
0207: Subarachnoid Hemorrhage: Prognostic Factors
0208: Hemispherectomy in Infantile Hemiplegia
0209: Acetazolamide in Treatment of Epilepsy
0210: Use of Reserpine in Disturbed Psychotic Patients
0211: Serpasil in a Hospital for the Mentally Ill with Criminal Tendencies

0212: Experience with the Use of Chlorpromazine and Reserpine in Psychiatry: with Especial Reference to the Significance and Management of Extrapyrarnidal Dysfunction

0213: The Surgical Treatment of Intracranial Aneurysms: Results in Angiographically Located Lesions

0214: Extradural Hematomas of the Cerebellar Fossa

0215: Hereditary Light Sensitive Epilepsy

0216: Electromyographic Studies on Patients Treated with Meprobamate

0217: Psychiatric Treatment of the Alcoholic

0218: On the Dissimilar Effects of Drugs on the Digit Symbol Substitution and Continuous Performance Test

0219: Effects of CS-UCS Interval upon Conditioning and Extinction of GSR

0220: Controlled Multifocal Frontal Leucotomy for Psychiatric Illness

0221: Progressive Leucotomy

0222: Our Heritage from Galileo Galilei

0223: The Meaning of the Abnormal Electroencephalogram in Schizophrenia

0224: Clinical Evaluation of JB-329 (Ditran)

0225: The Biochemistry of Schizophrenic and Affective Psychosis

0227: Electroencephalographic Rhythms from the Depths of the Parietal, Occipital and Temporal Lobes in Man

0228: The Relationship of Laterality and Cutaneous Area to Breast Sensitivity in Sinistrals and Dextrals

0229: Relationship between Psychological Defenses and Mean Urinary 17-Hydroxycorticosteroid Excretion Rates

0230: Attempted Suicides in Adolescences

0231: Prefrontal Leucotomy: Five Year Controlled Study

0232: Use of Lysergic Acid Diethylamide in Psychotherapy

0233: Minor Mental Illness in London: Some Aspects of a General Practice Survey

0234: Clinical Evaluation of Ethybenzotropine (UK 738) in the Treatment of Parkinson's Disease

0235: Plasma Sodium and the EEG During the Menstrual Cycle of Normal Human Females

0236: Die Behandlung Endogener Psychosen mit Laevomepromazin

0237: Probleme und Ergebnisse der Therapie endogener Psychosen mit neveren psychotropen Substanzen

0238: Die Behandlung Endogener Depressionen mit Perphenazin und Trihexyphenidyl. Beziehung Zur Extrapyrarnidalen Symptomatologie

0239: Ionic Mechanism of Postsynaptic Inhibition

0240: Die Behandlung Endogener Psychosen mit Perphenazin

0241: L'aminotriptyline dans le Traitement des Etats Depressifs

0242: Calcolo Della Varianza E Significativita Delle Medie Sulle Vatazioni Ele Hroencefalografiche Nel Trattamento Con GO-186

0243: Differential Inter-Drug Analysis: A Preliminary Study

0244: The Biological Basis of Criminal Behaviour
0245: Visual Evoked Potentials as a Function of Flash Luminance and Duration
0246: Auditory Flutter-Driving of Visual Flicker
0247: Zur Stellung des Thioridazins in der Pharmakotherapie depressives Erkrankungen
0248: The Psychopharmacology of Phenothiazine Compounds: A Comparative Study of the Effects of Chlorpromazine, Promethazine, Trifluoperazine, and Perphenazine in Normal Males
0249: Survival Trends in a Senescent Twin Population
0250: Relation of Electroencephalogram to Blood Pressure in Elderly Persons
0251: Sudden Death During Treatment with Phenothiazine Derivatives
0252: Lenticular Opacities with Prolonged Phenothiazine Therapy
0253: Lenticular and Corneal Opacities during Phenothiazine Therapy
0254: A Controlled Study of Amitryptilene in Severe Depressive States
0255: Observations on the Use of BIS (2, 2, 2-Trifluoroethyl) Ether
0256: Pilocarpine Nitrate and Psychostimulants
0257: Organophosphorus Insecticides and Major Mental Illness
0258: Studies on Neuraminic Acid
0259: Pharmacologic Effects of CI-581, A New Dissociative Anesthetic, in Man
0260: A Study of the Value of Haloperidol in the Management and Treatment of Schizophrenic and Manic Patients
0261: ESUCOS-A New Neuroleptic
0262: Revision Y Aportaciones Del Electroencefalograma en la Esquizofrenia
0263: Experimentation du R. 381-R. 382 dans on service d'hopital Psychiatrique. A Propo's de ZI Observations
0264: Arentsen, Kaj. Beitrag zur Klinik der bewusstseinsstörungen eine klinische Studie über eine Barbitursäureabstinenzpsychose mit strukturanalytischen, dynamischen, erbbiologischen, elektrenke-phalographischen und gerichtspychiatischen Aspekten, June 1954.
0300: The Classical Sakel Shock Treatment
0301: Insulin Coma Therapy in Schizophrenia

Box 5

0302: Apparent and True Blood Sugar Levels in Insulin Coma Therapy
0303: The Rapid Intravenous Glucose Tolerance Test in Psychiatric Patients
0304: Electrical Termination of Hypoglycaemic Coma
0305: Insulin Coma
0306: A Critique of Psychiatric and Psychological Research on Insulin Treatment in Schizophrenia
0307: A Note on Urinary Copper-Reducing Steroid Excretion in Patients with Psychiatric Disorders
0308: Clinical Use of Fludrocortisone Acetate
0309: The Powerful Placebo
0310: Report of Committee on Research: I. Electroencephalography

0311: Clinical Application of Automatic Analysis of the Electroencephalogram
0312: Brain Wave Frequencies and Brain Chemistry
0313: Applications and Limitations of Electroencephalography in a General Hospital
0314: Preliminary Report: Differences in Perceived Symptom Patterns as a Source of Disagreement in Diagnosis
0315: Cerebral Complications of Pregnancy
0316: Electroencephalographic Studies in Organic Psychoses
0317: Psychodynamic Disturbances in Patients with Temporal Lobe Disorder
0318: Bilaterally Synchronous Paroxysmal Slow Activity in the Electroencephalograms of Non-Epileptics
0319: Non-Specific Effects of Insulin and Electroplexy
0320: The EGG Changes in Unilateral and Bilateral Frontal Lobotomy
0321: A Comparison of Hyperventilation and Apnoea Activation of the EEG
0322: Sleep as a General Activation Procedure in Electroencephalography
0323: The Hyperventilation Syndrome
0324: The Use of an FM Tape Recorder for Pen and Ink Recording of Fast EEG and EMG Frequency Components
0325: An EEG Ruler
0326: Chlorpromazine in Conjunction with Other Psychiatric Therapies: A Clinical Appraisal
0327: The Non-Specificity of the Diagnosis of Paranoid Schizophrenia
0328: The Use of Frequency Analysis in the Interpretation of the EEGS of Patients with Psychological Disorders
0329: Electrically Produced Unilateral Convulsions
0331: Treatment of Anxiety States with Meprobamate (Miltown)
0332: Technique for the Modification of Electroshock with Succinylcholine
0333: Prognosis in Involutional Depression
0334: Anxiety After Electroshock Therapy in Involutional Melancholia
0335: The Rorschach Human Movement Response and Role Taking Behavior
0336: The Effect of Experimental Insomnia on the Rate of Potential Changes in the Brain
0337: Experimental Insomnia and Auditory Activity
0338: Psychological Changes During Experimental Sleep Deprivation
0339: Management of Psychological Issues in Conjunction with Physical Treatment
0340: Barbiturate Poisoning
0341: Clinical Observations on the Effect of Analytically Oriented Group Therapy and Group Supervision on the Therapist
0342: Experiences with Thorazine in Psychiatric Treatment
0343: Hemiplegia and Rehabilitation
0344: Towards Safer Angiography
0346: Thorazine and Serpasil Treatment of Private Neuropsychiatric Patients
0347: The Use of Frontal Lobe Procaine Injections in the Treatment of Mental Disorder

0348: Angiography in the Evaluation of Intracranial Trauma
0349: Adverse Reactions to Meprobamate
0350: Cerebral Angiography in a Neurosurgical Service
0351: Multiple Sclerosis in Children
0352: Reduction of Dosages of Reserpine and Rauwolfia Serpentina Urged
0353: The Intensive Chlorpromazine Treatment of Schizophrenia
0354: Psychiatric Interview as Tool of Medical Diagnosis
0355: Jaundice from Chlorpromazine
0356: Parkinson's Disease: Aspects of Functional Training
0357: Viadril: A New Steroid Anesthetic: Preliminary Communication
0358: The Psychotherapy Research Project of the Menninger Foundation
0359: Promethazine in Surgery
0360: Clarification of the Problem of Vertebral Fractures from Convulsive Therapy
0364: Electrical Treatment of Anxiety States
0365: Preliminary Observations on Convulsive and Subconvulsive Treatments Induced by Intermittent Photic Stimulation
0366: Management of the Acutely Disturbed Patient by Sedative Electroshock Therapy
0367: Brief Shock Therapy—An Adjuvant to Psychotherapy
0368: Immediate Treatment of Barbiturate Poisoning
0369: Unipolar Electrocerebral Stimulation
0371: Chlorpromazine in Treatment of Psychosis
0372: Effect of Acetazolamide in Diseases of the Brain
0373: Prefrontal Leucotomy and Gastric Acidity
0374: Hypothermia for Neurological Operations
0375: Evaluation of Routine Skull Films in Intracranial Meningiomas
0376: Toxicity of Chlorpromazine
0377: Central Nervous System in Anorexia Nervosa
0378: Thyroid Function in Anorexia Nervosa
0379: Metabolic Disturbances in Anorexia Nervosa
0380: Indications for and Results of Surgical Treatment in Temporal Epilepsy
0381: Reserpine and Chlorpromazine in Psychiatry
0382: Experience with Reserpine in the Treatment of Alcoholism
0383: Current Status of Chlorpromazine and Reserpine in Psychiatric Practice
0384: Electroencephalography in Cerebral Apoplexy
0385: Cardiopathies, Electroshock and Succinylcholine
0386: Electroencephalography in Unilateral Subdural Hematoma in Adults
0387: Death Following Electroconvulsive Therapy: Report of Three Cases
0388: On Chemical Tranquillizers
0389: Parkinsonian Reactions Following Chlorpromazine and Reserpine: Similar Reactions in the Same Patients

0390: Attitudes of Relatives of Long-Hospitalized Mental Patients Regarding Convalescent Leave

Box 6

0391: Reproducible Psychogenic Attacks of Asthma: A Laboratory Study

0392: Reserpine in Anxiety States

0393: Surgery in Spontaneous Subarachnoid Hemorrhage: Operative Treatment of Aneurysms on the Anterior Cerebral and Anterior Communicating Artery

0394: Use of ACTH and Cortisone Combined with Antibiotic and Chemotherapeutic Preparations in Treatment of Tuberculous meningitis

0395: Treatment of Convulsive State by Barbiturate Infiltration of the Brain

0396: Traumatic Intracerebral Hematoma: Review of 16 Surgically Treated Cases

0397: Observations on the Pain and Trigger: Mechanism in Trigeminal Neuralgia

0398: Diamox, A Carbonic Anhydrase Inhibitor, as an Oral Diuretic in Pregnancy

0399: How Brain Lesions Affect Normal and Neurotic Behavior: An Experimental Approach

0400: Allergy and Multiple Sclerosis: A Critical Review

0401: Psychosis and Enhanced Anxiety Produced by Reserpine and Chlorpromazine

0402: Depressive States During Rauwolfia Therapy for Arterial Hypertension: A Report of 30 Cases

0403: Electro-shock et Electro-Encephalographie

0404: Behind the Catatonic Defense

0405: Clinical Applications of EEG in Psychiatry

0407: Hypnotic Phenomena, Including Hypnotically Activated Seizures, Studied with the Electroencephalogram

0408: Some Neurological Aspects of Serotonin

0409: Concerning Theories of Indoles in Schizophrenogenesis

0410: A Comparison of Provocative Agents in the Epilepsies and in Controls

0411: Nonconvulsive Electrostimulation

0412: The Dimensions of Neurology

0413: The Therapeutic Role of Drugs in the Process of Repression, Dissociation and Synthesis

- **Sub-series 2: Photographs, Negatives, Slides, Transparencies, and Illustrations [boxes 15-28]**
- **Sub-series 3: Graphics [5 map file drawers]**

SERIES 8: VISUAL MATERIALS

Series 1: DVDs, VHS Videocassettes, U-matic Videocassettes, and 16mm Films [boxes 1-14]

Box 1

- DVDs 1-6: *50th anniversary discovery of ECT*. Celebration at Friends Hospital, Philadelphia. Philadelphia, PA: 1988.
- DVD 7: *1988: four lives: manic depressive III*. 31 May 1988.
- DVD 8: *Battling the blues*. McNeil Lehrer Report. WNET. May 1988.
- DVD 9: *Beyond stigma: the compassionate application of electro-convulsive therapy general audience edition*. 1996.
- DVD 10: *Brainstorm: the hidden epidemic of depression*. New York: Film Makers Library.
- DVD 11: Williams, Robin, Robert De Niro, and Penny Marshall. *More than a movie: the true story that inspired the film Awakenings*. Burbank, Calif: RCA/Columbia Pictures Home Video, 1991.
- DVD 12: Raymond, Alan, and Susan Raymond. *Into Madness*. [S.l.]: Home Box Office, 1989.
- DVD 13: *A brilliant madness*. American Experience. 28 April 2002.
- DVD 14: *CEEG in psychiatry*. HZI Research Center, Inc. 1986.
- DVD 15: *Depression: the storm within*. Washington, DC: American Psychiatric Association, 1991.
- DVD 16: Wender, Paul H. *Depressive illness: recognition and treatment*. Secaucus, N.J.: Network for Continuing Medical Education, 1988.
- DVD 17: *Does electroshock help or hurt?* With Linda Andre, Peter Breggin, and Huey Freeman. Sally Jessy Raphael. 1988.
- DVD 18: *ECT and anti-ECT movement*. Oprah Winfrey Show. WABC. 2 April 1987.
- DVD 19: *ECT*. CBS News. February 1993.
- DVD 20: *ECT*. CBS Nightwatch. February 1990.
- DVD 21: *ECT*. CNN. 1989.
- DVD 22: *ECT*. Dateline NBC. 28 February 1995.
- DVD 23: *ECT*. Dr. Charles Kellner, M.D. Discovery Channel. February 14, 2002.
- DVD 24: Brasic, James Robert, M.D., M.P.H. *Clinical manifestations of progressive catatonia*, undated.

- DVD 25: Baxter, Lew, M.D. *ECT educational tape*. Los Angeles, CA: UCLA, 1985.
- DVD 26: ECT lectures. Stony Brook University resident lectures. Stony Brook, NY, 1997.
- DVD 27: *ECT*. McNeil Lehrer Report. 7 August 1984.
- DVD 28-29: D'Alli, Richard E. *Electroshock therapy*. Tempe, AZ: KAET, 1984.

Box 2

- DVD 30: D'Alli, Richard E. *Electroshock therapy*. (note: "short version for families").
- DVD 31: *ECT*. Headline News. WABC-TV. 3-4 November 1994.
- DVD 32: Grunhaus, Leon J., Lisa Barroso-Wahl, and Kathy Krone. *Electroconvulsive therapy ECT, the treatment, the questions, the answers*. Ann Arbor, Mich: The University, 1988.
- DVD 33: Kolinowsky, Lothar B., Kantor, Shepard J., and James H. Ryan. *Electroconvulsive therapy with demonstrations and evaluations*. New York, NY: Educational Research.
- DVD 34: *Electroconvulsive therapy: an educational program*. Ronkonkoma, NY: Hospital Video Network, 1999.
- DVD 35: Fink, Max. *Electroconvulsive therapy*. Valencia, CA: Mobiltape Co., undated.
- DVD 36: Francis, Andrew and Chitra Malur. *Similarities of catatonia and neuroleptic malignant syndrome*. SUNY Psychiatry Ground Rounds. 16 June 1998.
- DVD 37: Miller, Jonathan, and Richard Denton. *Madness: to define true madness* (part 1). BBC/PBS. 1991.
- DVD 38: Miller, Jonathan, Roy Porter, and Michael Neve. *Madness: out of sight* (part II). BBC/PBS. 1991.
- DVD 39-42: Miller, Jonathan, and Richard Denton. *Madness: brainwaves* (part III). BBC/PBS. 1991.
- DVD 43: Miller, Jonathan, and Richard Denton. *Madness: talking cure* (part IV). BBC/PBS. 1991.
- DVD 44: Miller, Jonathan, and Richard Denton. *Madness: in two minds* (part V). BBC/PBS. 1991.
- DVD 45: Fink, Max. *Maintenance ECT: when and how?* 14 June 1990.
- DVD 46: Max Fink celebration. Chappaqua, NY. 3 July 1994.
- DVD 47: Bleckwenn WJ. *Catatonia cases after IV sodium amytal injection*. Washington (DC): National Library of Medicine, 1930.
- DVD 48: Fink, Max. *Catatonia*. Mercer University, Macon, GA. January 19, 1994.
- DVD 49: "ECT in depression." Max Fink, M.D., undated
- DVD 50: "ECT series," undated.
- DVD 51: "ECT." Dr. Richard S. Abrams, undated.
- DVD 52: "ECT." Dr. Richard S. Abrams. 3 March 1975.
- DVD 53: Neuropsychiatry: APA continuing education, part 1. May 1976.
- DVD 54: Neuropsychiatry: APA continuing education, part 2. 6 May 1976.
- DVD 55: Dr. Max Fink, part 1. May 27, 1976.
- DVD 56: Dr. Max Fink, part 2. May 27, 1976.

- DVD 57: *Taylor Manor Hospital symposium and award; affective disorders reassessed; ECT and depression: what have we learned?* with Dr. Max Fink, 1983.
- DVD 58: Gralnick, A. *Metrazol and ECT: early patterns*. May 1985.

Box 3

- DVD 59: *Introduction to informed ECT for patients and families with Max Fink, M.D.* 1985-1986.
- DVD 60: Nine Broadcast Plaza. Episode with Herbert Fox, M.D. and Seth Farber, M.D. WWOR 9-TV, undated.
- DVD 61: *The mind*. WNET-TV Channel 13. 11 November 1988.
- DVD 62: *The history of the somatic therapies in the U.S. and the current place of ECT in American psychiatry*. University of Louisville Medical School. 3 August 1989.
- DVD 63: Medical report on ECT. CNN. December 1989.
- DVD 64: *Out of darkness*. ABC, 20/20. 31 August 1990.
- DVD 65: Geraldo Rivera Show featuring Dr. Harold Sackheim. 30 November 1990.
- DVD 66: *Electroshock revisited*. WCBS News. December 1990.
- DVD 67: Abrams, Richard and Conrad M. Swartz. *The technique of ECT*. Somatics, 1990.
- DVD 68: American Medical Communications (firm), and American College of Legal Medicine. *Electroconvulsive Therapy: information for patients and their families*. [Houston, Tex.?]: American Medical Communications, 1998.
- DVD 69: Rummans, Teresa. *Mayo Clinic: ECT*. 14 December 2000.
- DVD 70: *John Nash's Beautiful Mind*. 60 Minutes. 17 March 2002.
- DVD 71: Dhossche, Dirk. *ECT in pediatric catatonia: a case report*. 22 November 2002-3 January 2003.
- DVD 72: *The importance of electroconvulsive treatment in a mental health program*, undated.
- DVD 73: Potczny, Walter M. *Mind and Body: Electro-convulsive therapy: a new age, a new understanding*. [Princeton, N.J.]: Princeton American Communications Co, 1987.
- DVD 74: Klapheke, Martin and Nona Murray. "Electroconvulsive therapy: interviews with an adolescent male." The Menniger Clinic: Topeka, KS, 1988-1989.
- DVD 75: 20/20. Segment titled "Shock therapy." WABC-TV. 23 May 1985; ABC News. Segment titled "Electroshock therapy." 16 February 1987; PJU Talkabout. Segment titled "ECT." Lifetime Television. 19 May 1985; untitled interview with Dr. John Callen, undated.
- DVD 76: Maletzky, Barry M. *A Demonstration of Monitored Electroconvulsive Therapy*. Portland, OR: MECTA, 1981.
- DVD 77: Esseau, P. "ECT and interview with Max Fink," 1992.
- DVD 78: MacNeil/Lehrer Report. Episode titled "Blue period," undated.
- DVD 79: This week of The New England Journal of Medicine with Lee Goldman, M.D. Segment on depression and ECT with Max Fink, M.D. and Harold Sackheim, M.D., undated.

- DVD 80: *In-service demonstration of the thymatron ECT instrument with Dr. Richard Abrams*. Somatics, Inc., undated.
- DVD 81: Kettle, Paul. *What is ECT? For patients*. CPPI, 1995.
- DVD 82: *Moods and music*. Washington, DC: Business Television, Inc., undated.
- DVD 83: "The Kohloffs." Medstar film, undated.
- DVD 84: Howe, I.C. *Eye of the storm*, undated.
- DVD 85: "Pots effect on the brain." New York, NY: CBS News.
- DVD 86: "Anti-narcotic story." New York Medical College. New York, NY: CBS News.

Box 4

- DVD 88: *Electro convulsive therapy*. Electronics for Health, 2002.
- DVD 87: *Electroconvulsietherapie: informatie voor betrokkenen en geïnteresseerden*. Haaltert Belgium: Pascal Sienaert and INTencity Productions, 2003.
- DVD 89: *Self-injurious behavior in 21 year old autistic boy*. 2010 (note: includes article "Frontal Lobe Seizures Presenting as Self-Injurious Behavior in a Man with Autism and Mental Retardation" by M. Justin Coffey, M.D.).

Separation note: photograph of the 6th Annual Dinner, Board of Hillside Hospital, Hotel St. Moritz (NY), 6 June 1955 (shelved in sub-series 3: graphics, folder 27, due to oversized dimensions)

Box 16

Glass plate negatives

- 001: EEG changes with heroin
- 002: EEG changes with heroin

- 003: EEG effects of heroin and Naloxone
- 004: EEG effects of heroin and Naloxone
- 005: Heroin and Naloxone
- 006: EEG effects of heroin and Naloxone
- 007: EEG patterns of psychoactive drugs
- 008: Classification of drugs by EEG criteria
- 009: EEG effects of Tybamate
- 010: EEG effects of Tybamate
- 011: EEG effects of Tybamate
- 012: EEG effects of Tybamate
- 013: Effects of Cyclazocine on heroin induced seizure activity
- 014: Structural formula
- 015: Naloxone
- 016: EEG effects of Cyclazocine
- 017: Heroin and Naloxone
- 018: Heroin and Naloxone
- 019: Heroin and Naloxone
- 020: Alpha amplitudes during early post heroin phase
- 021: Heroin induced seizures abolished by Naloxone
- 022: Heroin induced seizures abolished by Naloxone
- 023: Pre-drug EEG and occurrence of Paroxysmal features after heroin
- 024: Chronic oral methadone
- 025: Chronic oral methadone
- 026: EEG Effects of heroin and methadone
- 027: Heroin and Naloxone
- 028: Heroin and Naloxone
- 029: EEG changes with Naloxone
- 030: EEG changes with Naloxone
- 031: EEG effects of Cyclazocine
- 032: EEG effects of Cyclazocine
- 033: EEG effects of Cyclazocine and Chlorpromazine.
- 034: Efficacy of blockade to intravenous Heroin in patients receiving 100mg Methadone daily.
- 035: Effects of intravenous amobarbital.
- 036: EEG effects of Butaperazine
- 037: EEG effects of Chlordiazepoxide
- 038: EEG effects of Chlordiazepoxide
- 039: Changes in EEG (18.5-24.5 cps) following lactate infusions.
- 040: Changes in EEG (13.5-18.5 cps) following lactate infusions.
- 041: EEG effects of Sodium Lactate infusions.
- 042: Mean change in symptom ratings with infusions in patient and control groups.
- 043: EEG effects of sodium lactate with Calcium
- 044: EEG effects of sodium lactate alone and with Calcium.
- 045: EEG changes in convulsive therapy initial high percentage time alpha

- 046: Effect of Indoklon convulsions on EEG
- 047: Effect of IV Benactyzine on EEG Delta
- 048: Effect of IV Benactyzine
- 049: Group mean change during convulsive treatment
- 050: Group mean change during convulsive treatment
- 051: Perception of embedded figures before and during electroshock related to degree of physiological change
- 052: Perception of embedded figures before and during electroshock related to degree of behavioral change
- 053: Relation of Rorschach pattern to clinical response to EST
- 054: Relation of change in F-Score during treatment to degree of behavioral change and improvement evaluation
- 055: Change in F-score during and after treatment in convulsive and control groups.
- 056: Relation of Pre-treatment F Score to degree of behavioral change during treatment and improvement evaluation
- 057: Effect of Amobarbital on post-convulsive EEG delta
- 058: Effect of IV LSD on EEG delta
- 059: Effect of IV LSD
- 060: Spectrum of frequency analyses
- 061: Effect of IV Chlorpromazine
- 062: Hallucinogenic agents with anticholinergic properties
- 063: Effect of Diethazine on EEG delta
- 064: Effect of oral Chlorpromazine

Box 17

- 065: Effect of IV Chlorpromazine
- 066: Effect of acute administration of Chlorpromazine
- 067: Chlorpromazine
- 068: Comparison of acute and chronic Chlorpromazine administration
- 069: Effect of chronic oral administration of Chlorpromazine
- 070: Frequency spectra of EEG change in convulsive therapy initial high percent time alpha
- 071: Effect of intravenous and chronic oral Chlorpromazine initial high percent time alpha
- 072: Effect of intravenous Procyclidine initial low percent time alpha
- 073: Effect of intravenous Procyclidine initial high percent time alpha
- 074: Effect of acute intravenous and chronic oral Imipramine initial low percent time alpha
- 075: Effect of IV Tofranil
- 076: Effect of IV Tofranil
- 077: Effect of IV Tofranil
- 078: Spectrum of frequency analyses acute Imipramine administration

- 079: Effect of acute administration of Imipramine
- 080: Spectrum of frequency analyses chronic (oral) Imipramine administration
- 081: EEG effects of Butaperazine
- 082: EEG effects of Butaperazine analog power spectrum
- 083: EEG analysis at M.I.P.
- 084: Examples of EEG period analysis
- 085: Frequency spectra of acute and chronic Chlorpromazine administration initial high percent time alpha
- 086: EEG effects of Butaperazine
- 087: Effect of acute intravenous and chronic oral Imipramine initial high percent time alpha
- 088: Effect of chronic oral administration of Imipramine
- 089: Effect of oral Chlorpromazine
- 090: Effect of oral Chlorpromazine
- 091: Frequency spectra of acute and chronic Imipramine administration initial high percent time alpha
- 092: Effect of intravenous Amobarbital on EEG slowing pre-treatment and post-convulsive
- 093: Effect of IV Amobarbital
- 094: Effect of Meprobamate
- 095: Effect of oral Promazine
- 096: Effect of IV Triflupromazine
- 097: Effect of Tofranil on EEG delta
- 098: Effect of Atropine on EEG delta
- 099: Effect of Atropine on post convulsive EEG delta
- 100: Effect of IV Atropine
- 101: Effect of LSD on electroconvulsive delta
- 102: Effect of IV Win-2299
- 103: Effect of IV JB-318
- 104: Effect of JB-318 on post convulsive EEG delta
- 105: Effect of JB-336 on post convulsive delta and Meprobamate beta
- 106: Effect of JB-336 on EEG delta
- 107: EEG changes after different dosages of Atropine in the same patient
- 108: Effect of IV Diethazine
- 109: Effect of IV Diethazine
- 110: Effect of IV Diethazine
- 111: Effect of IV Diethazine on electroshock delta
- 112: Denial personality scores and clinical language changes during treatment
- 113: Denial personality scores and clinical response to electroshock
- 114: Relation of language changes shown clinically to response to treatment
- 115: Pre-treatment language changes with amobarbital sodium and eventual clinical response
- 116: Percentage showing each language pattern according to response to treatment
- 117: Language changes with drug administration dyadic diversification

- 118: Relation of EEG delta to changes in dyadic TTR pattern with EST
- 119: Change in mean dyadic TTR score with EST
- 120: Dyadic TTR pattern
- 121: Acute I.V. administration of normal saline initial high percent time alpha
- 122: Chronic administration of placebo high initial percent time alpha
- 123: Effect of acute intravenous and chronic oral chlorpromazine initial low percent time alpha
- 124: Frequency spectra of acute and chronic chlorpromazine administration initial low percent time alpha
- 125: Effect of chronic oral chlorpromazine initial low percent time alpha
- 126: Acute I.V. administration of normal saline initial low percent time alpha
- 127: Effect of chronic oral chlorpromazine initial high percent time alpha
- 128: Chronic administration of placebo low initial percent time alpha
- 129: Effect of chronic oral Imipramine initial low percent time alpha

Box 18

- 130: Effect of chronic oral Imipramine initial high percent time alpha
- 131: Effect of intravenous Procyclidine on post-convulsive slowing
- 132: Mean mm. pen deflection for frequency bands on chronic drug administration
- 133: Mean mm. pen deflection for frequency bands on acute drug administration
- 134: Changes on chronic drug administration by visual analysis
- 135: Acute-chronic administration correlations
- 136: Mean mm. pen deflection for each frequency of the alpha band
- 137: Covariance analyses of EEG frequency spectra
- 138: Change in percent-time alpha activity
- 139: Change in percent-time theta and delta activity
- 140: Change in central alpha frequency
- 141: Proportion of pre-drug alpha % to intravenous chlorpromazine alpha % versus proportion of pre-drug alpha % to chronic oral chlorpromazine alpha %
- 142: Relation of EEG changes on acute and chronic administration of chlorpromazine change in percent time delta and theta activity
- 143: Relation of EEG changes on acute and chronic administration of chlorpromazine change in central alpha frequency
- 144: Relation of EEG changes on acute and chronic administration of chlorpromazine change in percent time alpha activity
- 145: Effect of IV Win-2299 on EEG delta
- 146: Dyadic TTR analysis of a psychiatric interview
- 147: Data acquisition and analysis NYMC 1967
- 148: Data analysis system NYMC 1967
- 149: Heroin challenge in drug free subject
- 150: Heroin and Naloxone
- 151: Acute intravenous heroin
- 152: EEG effects of Naloxone and heroin (I.V.)

- 153: Mean slowest frequency in record
- 154: Mean highest percent time delta at one lead
- 155: Mean highest amplitude of delta waves
- 156: Mean duration of bursts
- 157: Mean average percent time delta
- 158: Percentage positive Amytal reactions and high degree EEG abnormality
- 159: Pre-electroshock: 24 hrs after EST #11
- 160: Pre-electroshock: 24 hrs after EST #12
- 161: 24 hours after EST #12
- 162: Pre-electroshock
- 163: 24 hours after EST #10
- 164: Pre-electroshock
- 165: Pre-electroshock
- 166: 24 hours after EST #11
- 167: Relation of test of organic mental syndrome to improvement in EST I Amytal test
- 168: Distribution of positive Amytal tests during treatment
- 169: Relation of test of organic mental syndrome to improvement in EST II EEG
- 170: Distribution of positive Amytal tests in patients over 40
- 171: Comparison of denial vs. no denial in various cases
- 172: F-Scale and feedback response
- 173: Relation of Rorschach movement and color to rating of much improved
- 174: Mean scores in Rorschach records in cases with and without explicit denial of illness
- 175: Movement, shading and color responses in cases with and without explicit denial of illness
- 176: Relation of Rorschach factors to clinical response in convulsive therapy
- 177: Relation of Rorschach factors to clinical response in convulsive therapy
- 178: Relation of Rorschach factors to clinical response in convulsive therapy
- 179: Electroshock (no title on slide)
- 180: Electroshock (no title on slide)
- 181: Electroshock (no title on slide)
- 182: Electroshock (no title on slide)
- 183: Electroshock (no title on slide)
- 184: Electroshock (no title on slide)
- 185: Electroshock (no title on slide)
- 186: Electroshock (no title on slide)
- 187: Dyadic TTR pattern effect of electroshock
- 188: Dyadic TTR pattern with clinical change
- 189: Relation of degree of behavioral change and clinical improvement rating
- 190: Clinical ratings compared to EEG and Amobarbital test results
- 191: EEG Delta-Amobarbital test
- 192: Perception of embedded figures before and during electroshock intragroup comparison
- 193: Perception of embedded figures before and during electroshock related to degree of physiological change, intragroup comparison

Box 19

- 194: Perception of embedded figures before and during electroshock
- 195: Perception of double simultaneous threshold tactile stimuli before and during electroshock
- 196: Perception of words at high speeds of exposure before and during electroshock related to degree of physiological change
- 197: Perception of embedded figures before and during electroshock
- 198: Relation of Rorschach factors to clinical response in convulsive therapy
- 199: Effect of IV Diethazine on electroshock delta
- 200: Effect of changing brain function on psychotherapy
- 201: Visual short-term memory for unilateral and bilateral ECT
- 202: Doxepin chlordiazepoxide comparison in anxious outpatients global improvement
- 203: Unilateral-bilateral ECT
- 204: Unilateral-bilateral ECT, EEG changes with unilateral ECT, right-sided electrode placement
- 205: Unilateral-bilateral ECT
- 206: Unilateral-bilateral ECT, effect of bilateral ECT
- 207: Unilateral-bilateral ECT
- 208: Depression scale scores for unilateral and bilateral ECT
- 209: Paired associate learning
- 210: Auditory short-term memory with unilateral and bilateral ECT
- 211: Unilateral-bilateral ECT
- 212: Unilateral ECT
- 213: Frequency spectra of EEG change in convulsive therapy initial low percent time alpha
- 214: EEG changes in convulsive therapy initial low percent time alpha
- 215: Unilateral-bilateral ECT
- 216: Relation of test of organic mental syndrome to improvement in electroshock treatment
- 217: Presentation of face hand stimuli
- 218: Threshold for electric stimuli and body part dominance
- 219: Displacements on simultaneous tactile electrical stimulation tests
- 220: Confabulations on tactile electrical tests
- 221: Relation between mean number of confabulations and intensity of stimulation on tactile electrical tests
- 222: Relation between mean number of displacements and intensity of stimulation on simultaneous tactile electrical tests
- 223: Simultaneous touch stimuli in patient with organic mental syndrome
- 224: Perception before Amytal
- 225: Perception after Amytal
- 226: Responses to touch stimuli in patient with hemiplegia (left)

- 227: Relation of change in F score during treatment to number of high degree delta EEG records in second, third and fourth weeks of treatment
- 228: Degree of delta activity in Serial EEGs during electroshock
- 229: Patients with high delta activity during second, third weeks of treatment
- 230: Group mean change following convulsive treatment
- 231: Group mean change following convulsive treatment
- 232: Percentage positive amytal reactions
- 233: Vertex-earlobes (no title on slide)
- 234: Pre-electroshock, 24 hours after EST #12
- 235: Pre-electroshock, 24 hours after EST #10
- 236: Pre-electroshock, 24 hours after EST #11
- 237: Vertex plots (no title on slide)
- 238: Perception of embedded figures before and during electroshock
- 239: Perception of double simultaneous threshold tactile stimuli before and during electroshock
- 240: Perception of double simultaneous threshold tactile stimuli before and during electroshock related to degree of physiological change
- 241: Perception of words at high speeds of exposure before and during electroshock , intragroup comparison
- 242: Perception of words at high speeds of exposure before and during electroshock, intergroup comparison
- 243: Perception of embedded figures before and during electroshock related to clinical response
- 244: Rank order correlations between test performance and degree of EEG slow wave activity with treatment
- 245: Relation of language changes to high EEG abnormality
- 246: Pre-treatment language changes with Amobarbital sodium and high EEG abnormality during treatment
- 247: Change in coefficient of variation of dyadic TTR scores with EST
- 248: Change in standard deviation of dyadic TTR scores with EST
- 249: Relation of pre-treatment language changes with Amobarbital sodium to clinical changes and withdrawal reaction during treatment
- 250: Dyadic TTR analysis of a psychiatric interview
- 251: Dyadic TTR pattern
- 252: Relation of dyadic TTR and syntactic language patterns with ECT
- 253: Relation of errors in learning to electroshock treatment
- 254: Relation between degree of EEG slow wave activity during convulsive treatment and mean number of confabulations on tactile electrical tests
- 255: Relation of test of organic mental syndrome to improvement in electroshock treatment

Box 20

- 256: Nurses' attitudes towards use of drugs in relation to entries in ward report book
- 257: Staff expectations

- 258: Indications for referral
- 259: Temporal pattern of referral
- 260: Staff expectations, therapist and supervisor
- 261: Average duration of ranked symptoms
- 262: Symptom pattern at referral
- 263: Relation of recall of common words to electroshock treatment
- 264: Pattern of referral, extra-clinical factors
- 265: Comparative study of chlorpromazine and insulin coma in the therapy of psychosis
- 266: Hillside Hospital: improvement rates-insulin coma therapy
- 267: Insulin and Chlorpromazine in schizophrenia
- 268: Insulin treatment of schizophrenia
- 269: Hillside Hospital: insulin coma therapy, Chlorpromazine, 1956-1957
- 270: Threshold for initial induced seizure
- 271: Duration of seizure
- 272: Duration of seizure and EEG changes

SERIES 8: VISUAL MATERIALS

Sub-series 3: Graphics

Folder 1

- Cyclazocine, Imipramine and Chlorpromazine
- EEG effects of Cyclazocine and Chlorpromazine
- EEG effects of Cyclazocine

Folder 2

- EEG effects of heroin and Methadone
- Pre-drug EEG and occurrence of Paroxysmal features after heroin
- Alpha amplitudes during early post-heroin phase
- EEG effects of heroin and Naloxone (2 sheets)
- Heroin and Naloxone (4 sheets)

- Chronic oral Methadone (2 sheets)
- EEG effects of heroin (2 sheets)
- Intravenous heroin challenges [sic] in patients maintained on 100mg Methadone daily
- Efficacy of blockade to intravenous heroin in patients receiving 100mg Methadone daily

Folder 3

- EEG effects of sodium lactate with calcium
- EEG effects of sodium lactate infusion
- Change in EEG following lactate infusions (2 sheets)
- Mean change in symptom ratings with infusions in patient and control groups
- Mean daily dosage levels of neuroleptics in schizophrenia (2 sheets)
- Symptom response to Thiothixene in patients with anxiety in a mental health clinic
- EEG effects of sodium lactate alone and with calcium

Folder 4

- Heroin challenge in drug free subject
- Intravenous heroin challenges in patients maintained on 100mg Methadone daily
- Chronic oral Methadone
- Acute intravenous heroin
- EEG changes with heroin (2 sheets)
- EEG changes with Naloxone (2 sheets)
- EEG effects of heroin and Naloxone (2 sheets)
- Heroin, Naloxone (5 sheets)
- Heroin induced seizures abolished by Naloxone (2 sheets)

Folder 5

- EEG characteristics of psychoactive compounds
- EEG effects of Tybamate (2 sheets)
- EEG effects of Butaperazine
- EEG effects of Phantastica
- Behavioral effects of Phantastica

Folder 6

- Depression scale scores for unilateral and bilateral ECT
- Paired associate learning
- Visual short-term memory for unilateral and bilateral ECT
- Auditory short-term memory with unilateral and bilateral ECT
- Unilateral ECT
- Unilateral-bilateral ECT (7 sheets)

Folder 7

- Cyclazocine - depression (4 sheets)

Folder 8

- EEG effects of Tybamate
- EEG patterns of psychoactive drugs
- Thiothixene study (2 sheets)
- Statistical output EEG period analysis
- Doxepin, Chlordiazepoxide comparison in anxious outpatients (2 sheets)
- Data analysis system, New York Medical College, 1967
- Doxepin HCL, Doxepin Pamoate EEG (3 sheets)
- EEG effects of Chlordiazepoxide
- EEG effects of Butaperazine
- EEG profile analysis
- Classification drugs by EEG criteria

Folder 9

- EEG and drugs (5 sheets)
- Blood levels and EEG effects (6 sheets)
- Period and power spectral density analysis (3 sheets)
- Dosage, blood levels and beta activity (5 sheets)
- GB-94 (4 sheets)
- Period and Power Spectral Analysis (3 sheets)
- Fink mod. probl. of pharmacop. (7 sheets)
- ACTH₄₋₁₀ vs. placebo (4 sheets)
- Related slides and photographs

Folder 10

- EEG effects of GB-94
- EEG effects of Amitriptyline
- EEG changes with chronic oral Doxepin
- EEG effects of Doxepin, Diazepam, and Imipramine
- Frequency spectra of acute Chlorpromazine and Imipramine
- EEG effects of chronic administration
- Two unidentified charts
- EEG effects of inhaled cannabis
- Amobarbital, Amphetamine, Fenfluramine
- Bioavailability

- Classification of drugs by EEG criteria
- Oral Chlorpromazine
- EEG patterns of psychoactive drugs

Folder 11

- EEG effects of Doxepin and GP41299
- Frequency spectra of acute Chlorpromazine and Imipramine
- Drugs, EEG, and behavior (2 sheets)
- EEG effects of Cyclazocine (2 sheets)
- EEG effects of Doxepin, Diazepam, and Imipramine
- Correlation of 20 EEG variables
- EEG spectral difference index (SDI)
- EEG power spectra
- Relationship of CFF to other measures of drug effect (3 sheets)
- Critical flicker fusion changes with drugs (2 sheets)
- T-Ratio profiles, etc., of Praxilene and Placebo (4 sheets)
- EEG effect of Clozapine after acute and chronic dosing
- Phenytoin
- Mianserin
- Imipramine
- Diphenhydramine
- Haloperidol
- Difference between baseline and post-drug spectra: lateral comparison
- Difference between O₁-C_z and O₂-C_z Spectra
- Effects of Flutroline on Vigilance
- Plasma Prolactin concentration
- EEG effects of Flutroline (2 sheets)
- EEG power spectra
- Mianserin dose-finding study, 1979: EEG (5 sheets)
- Effects of CP-36,584 (4 sheets)

Folder 12

- Seizure duration in ECT
- Naloxone, EEG, and ECT
- EEG power spectral change from baseline (4 sheets)
- Sequential analyses: Diphenylhydantoin
- Hemispheric comparison of EEG (2 sheets)
- Association of EEG and behavior in man
- EEG methodology

- 1983- Leicester ECT trial (6 sheets)
- EEG application to psychopharmacology
- Bioavailability and pharmacodynamics
- EEG and Clozapine (5 sheets)
- Time Course changes: Diphenhydramine, Terfenadine and placebo (3 sheets)
- EEG and ORG 2566 (2 sheets)
- Behavioral effects of ORG 2566
- Relation of EEG threshold doses and daily clinical doses
- Theories of ECT (10 sheets)
- ECT and simulated ECT in depression
- Severe depression in the elderly
- Northwick park ECT trial (2 sheets)
- Neuroendocrine screening tests in psychiatric male in-patients
- Indications for ECT, secondary diagnoses
- DST and post-treatment clinical course
- ECT in schizophrenia
- Acute organic mental syndrome after bilateral ECT
- Good prognostic criteria, behavioral symptoms
- Poor prognostic criteria, diagnostic
- Overall psychopathology ratings
- Prolactin response to ECT (3 sheets)
- Antidepressants and ECT (2 sheets)
- DT[gamma]E and psychotic symptoms
- Unilateral vs. bilateral ECT (5 sheets)
- Mortality in schizoaffective disorders
- Estimates of ECT usage
- Principal risks of modified ECT
- Mortality in depressed patients (2 sheets)
- Efficacy of convulsive and sub-convulsive ECT
- APA Survey (1975-1976); estimate of ECT usage
- Mortality in depression
- Percentage of patients receiving ECT in metropolitan New York Hospitals (1975-1976)
- Equipment for ECT
- Usage of ECT in hospitals (2 sheets)
- Prolactin response (3 sheets)
- Medical supplies for ECT
- Usage of ECT in Scandinavia
- Hidden figures test

- Factors in seizure induction (4 sheets)
- ECT usage (2 sheets)
- Suicides and attempted suicides
- Monitoring a seizure
- Prognostic Factors for ECT
- Favorable and unfavorable clinical features
- Diagnostic and ECT prediction indices
- Rorschach determinants and clinical ratings
- Relation of EEG threshold doses and daily clinical doses
- Recent references [1974-1979]
- Effects of ECT on Parkinsonian and mental symptoms
- ECT in elderly patients (2 sheets)
- Risk factors in acute organic mental syndrome
- Plasma cortisol levels before and after Dexamethasone
- Medication resistant schizo-affective disorder response to ECT
- ECT for schizophrenia
- Risks of death
- Temporal-frontal (Muller) vs. temporal-vertex (d'Elia) electrode placement
- Blood sugars in patients who responded to ECT
- Electroconvulsive therapy (2 sheets)
- A proposed theory of ECT (5 sheets)
- Somatic therapies in psychiatry (2 sheets)
- ECT and Imipramine in depression, De Carolis Study, 1964
- Confusion after bilateral ECT
- ECT in elderly patients
- Seizure induction and outcome
- Current type and electrode placement (3 sheets)
- Seizure characteristics and ECT-efficacy
- Comparison of delusional and nondelusional depression with antidepressants
- Indications for ECT, primary diagnoses
- Good prognostic criteria, vegetative symptoms
- Poor prognostic criteria, symptomatic

Folder 13

- ORG 2408 study (9 sheets)
- ORG 2408 study II (4 sheets)
- Correlation of EEG and plasma levels of Phenobarbital
- Correlations of EEG change with time in therapy for Ethosuximide

- EEG power spectral change from baseline (ORG 3770, Mianserin, Flurazepam)
- Alertness and task performance (ORG 3770, Mianserin, Flurazepam)
- EEG dynamics
- Symptom questionnaire
- Subjective state measures
- Individual EEG profiles at 2 hours post-drug
- Time production task (means)
- Comparative EEG spectra
- 6-Azamianserin (3 sheets)
- ORG 3770 (6 sheets)
- EEG beta activity (14-30 Hz) (Brotizolam, Flurazepam, placebo)
- Time course of EEG change from baseline (brotizolam, flurazepam, placebo)
- EEG intensity spectrum change from baseline
- Individual EEG profiles at 2 hours post-drug
- Chemical structures (ORG 3770, Mianserin, Flurazepam)
- Subjective state measures
- EEG dynamics
- Cardiovascular function
- Cognitive function
- Symptom questionnaire
- Aspirin, 1.95g.; Aspirin 0.65g.; Placebo (6 sheets)
- Clonidine and placebo (8 sheets)
- EEG response to placebo
- Spectral difference index
- Handedness (6 sheets)

Folder 14

- Slides (5 per strip)
- L-Penbutolol study
- Clonidine study (7 sheets)
- Azepexole (3 sheets)
- Des-Tyr-[gamma]-Endorphin (7 sheets)
- ORG 2766 study (2 sheets)
- Spectral pattern of baseline profiles

Folder 15

- L-Penbutathal (5 sheets)
- EEG effects of Butapressin and Placebo
- Desglycinamide Arginine Vasopressin (4 sheets)

- Drawing of head with marked spots for electrode placement
Subfolder:
Medical checklist
Electrode placement (3 sheets)
Seizures (2 sheets)
ECT theory (slide negatives)
- Duration of ECT seizures
- “Effective” and missed fits
- Peptides with possible behavioral effects, 1979 (1982)
- Behaviorally active peptides
- Neuroendocrine tests
- ECT efficacy in melancholia (major depression)

Folder 16

- Azepexole and Clonidine (slide negatives)
- Azepexole and Clonidine (7 sheets)
- Drug classification, EEG characteristics
- EEG pattern, behavioral pattern
- Classification of some established drugs by EEG criteria
- Diphenylhydantoin (4 sheets)
- Diazepam (2 sheets)
- EEG and plasma levels of Phenobarbital
- Aspirin and EEG (2 sheets)
- EEG change from baseline: spectral difference index
- HRP 543 (6 sheets)
- Envelope containing slide prints on EEG and various drugs
- Studies on hashish and marijuana (42 sheets)

Folder 17

- Methadone and ECT (8 sheets)
- Mianserin and Imipramine (23 sheets)

Folder 18

- Diazepam and Bromazepam
- Electroconvulsive therapy and electroconvulsive shock (15 sheets)
- Fragrances: phase III
- Pirenzepine and placebo (7 sheets)
- Time course of reduction in CFF after Diazepam
- Doxepin, Diazepam, Imipramine

- Percentage showing each language pattern according to response to treatment
- Cyclazocine, Imipramine and Chlorpromazine

Folder 19

- Amobarbital, Amphetamine, Fenfluramine (5 sheets)
- EEG Changes with chronic oral Doxepin (3 sheets)
- Effect on Levomethadyl on pupillary diameter
- Oral Thiothixene and EEG (6 sheets)
- Doxepin (6 sheets)

Folder 20

- Acute marijuana (6 sheets)
- Doxepin HCL, Doxepin Pamoate EEG (3 sheets)
- S-42,548 and Placebo - EEG (6 sheets)
- Blockade of heroin by Naloxone Pamoate (3 sheets)
- EEG Effects of Tybamate
- EEG Effects of Chlordiazepoxide

Folder 21

- Naloxone
- EEG effects of Cyclazocine
- Structural Formulae: Cyclazocine, Imipramine, Iproniazid
- Chemical structure of Phenothiazine
- EEG profile analysis: Amobarbital, Amphetamine, Fenfluramine (5 sheets)
- Chronic marijuana (3 sheets)
- Doxepin, Imipramine, Diazepam - placebo study (5 sheets)
- Schizophrenia study (4 sheets)
- Cyclazocine and heroin (6 sheets)

Folder 22

- EEG Response to Thiopental (4 sheets)
- Histogram of sign test probabilities
- Frequency spectra of acute and chronic Chlorpromazine administration
- Intravenous Amobarbital (2 sheets)
- Effect of chronic oral Imipramine (2 sheets)
- Effect of Intravenous and chronic oral Chlorpromazine
- EEG change in convulsive therapy (5 sheets)
- Chronic oral administration of Placebo
- Acute I.V. administration of normal saline (2 sheets)

- Chronic administration of placebo
- Effect of intravenous Procyclidine (3 sheets)
- Chlorpromazine (4 sheets)
- Imipramine (3 sheets)
- Cyclazocine: depression study (7 sheets)

Folder 23

- Clinic and Administration Building, St. Louis, MO (3 blueprint sheets)

Folder 24

- Rorschach movement and denial personality scores data (5 sheets)
- Graph of the effects of Pentothal (1 sheet)
- Chlorpromazine administration data (3 sheets)
- Effects and responses to the administration of Amobarbital and Chlorpromazine (23 sheets)
- Pentothal analysis and response (7 sheets)
- Pentothal: digital computer and electronic frequency analyzer (22 sheets)
- Baseline cross period analysis of administration of Thiopental (1 sheet)
- EEG sleep patterns (4 sheets)

Folder 25

Missouri Institute: Drawings for Slides, August 1962

- EEG delta effects (19 sheets)
- Change in percent-time alpha activity (1 sheet)
- Effect of IV Diethazone (4 sheets)
- Effect of treatment on tachistoscopic perception and group mean change during convulsive treatment (9 sheets)
- Effects of drugs on post convulsive EEG delta and Meprobamate beta (10 sheets)
- Test results for the intravenous and oral administration of Sodium Chloride, Chlorpromazine, and Imipramine (22 sheets)
- Effect of IV Tofranil (1 sheet)
- Electro-convulsive therapy tests and results (29 sheets)
- Dyadic TTR pattern (2 sheets)
- Relation between mean number of displacements, confabulations and intensity of stimulation on tactile electrical tests (2 sheets)
- Hallucinogenic agents with anti-cholinergic properties (3 sheets)
- Test of organic mental syndrome to improvement in electroshock treatment and language changes from electroshock treatment (12 sheets)

- Treatment results of placebo, Imipramine, and Chlorpromazine and Procyclidine (7 sheets)
- EEG delta-Amobarbital tests and results (4 sheets)
- Convulsive therapy data (3 sheets)

Folder 26

- Promotional materials for books and databases (oversized, on foam board) (7 items)

Folder 27

- Photograph of the 6th Annual Dinner, Board of Hillside Hospital, Hotel St. Moritz (NY), 6 June 1955
- Facsimile of the International Pharmaco-EEG Society (IPEG) foundation document, 1980, and related correspondence, 15 March 1985 (3 items)

IX. Associated Materials: Books at Stony Brook University authored, co-authored, edited, or co-edited by Max Fink, M.D.

Fink, M. (1964). *A selected bibliography of electroencephalography in human psychopharmacology, 1951-1962*. Amsterdam, New York: Elsevier Pub. Co. (Archives, Z6663 .P8 F5 1964; Health Sciences Library, shelved alphabetically under *Electroencephalography and Clinical Neurophysiology*)

Bradley, P.B., Fink, M., Collegium Internationale Neuro-psychopharmacologicum., & Symposium on Anticholinergic Drug and Brain Functions in Animals and Man. (1968). *Anticholinergic drugs and brain functions in animals and man*. Amsterdam, New York [etc.]: Elsevier Pub. Co. (Archives, QP376 .P7 v. 28)

Fink, M. (1968). *Anticholinergic drugs and brain functions in animals and man*. Amsterdam, New York: Elsevier Pub. Co. (Archives, QP376 .P7 v. 28; Health Sciences Library, WL 5 P965)

Fink, M. (1972). *Convulsive therapy. Seminars in Psychiatry*, v. 4, no. 1. New York: Grune & Stratton. (Archives, RC485 .C65 1972)

Fink, M., National Institute of Mental Health (U.S.). Depression Section. & New York Medical College. Dept. of Psychiatry. (1974). *Psychobiology of convulsive therapy*. Washington: V.H. Winston. (Archives, RC484.9 .P79 1974; Health Sciences Library, WM 412 C748P 1972)

Stefanis, C.N., Dornbush, R.L., & Fink, M. (1977). *Hashish: studies of long-term use*. New York: Raven Press. (Archives, BF209 .C3 H37 1977; Health Sciences Library, WM 276 H348 1977)

Fink, M. (1979). *Convulsive therapy: theory and practice*. New York: Raven Press. (Archives, RC487 .F47 1979; Health Sciences Library, WM 412 F499C 1979)

X. Subject Terms

Affective disorders.

Cannabis.

Electroconvulsive therapy.

Electroconvulsive therapy -- ethics.

Electroconvulsive therapy -- Handbooks, manuals, etc.

Catatonia.

Depression.

Kraepelin, Emil, 1856-1926.

Marijuana.

Meduna, Ladislav J. von, 1896-1964.

Mental disorders -- therapy.

Mental illness -- treatment.

Neuroendocrinology.

Opium.

Psychiatry -- history.

Psychopharmacology -- bibliography.

Psychophysiology -- history.
