** Closing a Study in myResearch **

** You should see all of your imported studies in the All Submissions section of your IRB page (see below for instructions for searches in myResearch). If you do not see one of your studies, please review the following points to obtain access to the study shell in myResearch: 

1) All studies should be available to the PI. If you are the approved PI in IRBNet but you do not see one of your studies, send an email with the IRBNet ID number to OVPR_myresearchIRB@stonybrook.edu for assistance.

2) If you are not the PI and you do not see one of your studies, first contact the PI to confirm that the study is not already available in myResearch.
   a. If you do not have access but the study is available to the PI, it means that your name was not included in the imported data. You must ask the PI to assign you as the Primary Contact. This requires simply accessing the study and clicking “Assign Primary Contact” in the left navigation area to select your name. This will give you immediate access to the study in myResearch and you will receive all notifications related to this study. Note: The primary contact can be changed as often as necessary by any study team member.
   b. If the PI also does not have access to the study, send an email with the IRBNet ID number to OVPR_myresearchIRB@stonybrook.edu for assistance.

** Studies with an external IRB as the IRB of record should be closed in IRBNet. 

1) Click on the IRB tab

![Image of IRB tab in myResearch](image-url)
Closing a Study in myResearch

2) Use one of the various filters to search for your study using the IRBNet ID number (no hyphen, no package number). Search under the All Submissions tab. Notice that you can also filter by ID as well as the study name listed in IRBNet or the PI first/last name.

3) Select the study title. This will route you to the study’s main workspace with several actions available to you on the left side of the screen. Select Create Modification/CR.
Closing a Study in myResearch

4) Select Continuing Review

Modification / Continuing Review (* Refer to the last Study Closure (If requesting a subject-specific protocol)

* What is the purpose of this submission?
○ Continuing Review
○ Modification
○ Modification and Continuing Review

5) Complete the Continuing Review page. Confirm the first four research milestones and confirm that the study should be closed upon receipt by the Office of Research Compliance.

Continuing Review / Study Closure Information

1. * Specify enrollment totals:

<table>
<thead>
<tr>
<th>Subjects Enrolled</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>At this site:</td>
<td></td>
</tr>
<tr>
<td>At all sites everywhere that are conducting this protocol:</td>
<td></td>
</tr>
<tr>
<td>Total Number of Subjects Approved Study-wide:</td>
<td></td>
</tr>
</tbody>
</table>

2. Research milestones: (Select all that apply. If enrollment of subjects is ongoing, skip this section.)
- Study is permanently closed to enrollment OR was never open for enrollment
- All subjects have completed all study-related interventions OR not applicable (e.g. study did not include intervention)
- Collection of private identifiable information is complete OR not applicable (no subjects were enrolled)
- Analysis of private identifiable information is complete OR not applicable (no subjects were enrolled)
- Remaining study activities are limited to data analysis
- Study remains active only for long-term follow-up of subjects

* Important! If the first four research milestones above are complete, the study will be closed to discontinue IRB approval.

* I acknowledge that this study will be closed: ☑️
**Closing a Study in myResearch**

6) Check boxes and add documents for questions 4 and 5, as applicable. For question 5, click **Add** in order to upload the following for the last subject enrolled in the most recent approval period (as applicable).

- Last signed consent/parent permission/assent form (redacted version)
- Last completed inclusion/exclusion criteria checklist (redacted version)

7) Select **Continue**. You will be directed to a Final Page that mentions ancillary reviews. Ignore these requirements, which are not applicable for closure submissions.

8) Select **Finish**. Only the person listed as the Principal Investigator (PI) will see the option to **Submit** the closure application for review. If someone other than the PI creates the submission, the **Add Comment** option can be used to send a comment/email notification to the PI that the application is ready for review/submission.
